Thursday 30 January

Monday 24 March

Tuesday 20 May

Tuesday 24 June

Wednesday 30 July

Friday 17 October

Wednesday 12 November

Time

1400-1600 (Sydney,
Melbourne, Canberra time)

This webinar is designed for clinicians to develop an understanding and the skills in using the PCOC assessment tools and the assessment & response framework.

At the end of this webinar,
participants will have an improved
understanding of:

- Assessing the palliative care phase
- Using assessment tools for symptom management, functional and performance status
- Using assessment data to inform care and improve practice
- Identifying strategies for integrating PCOC assessments into practice

Target audience

- Clinicians from new services participating in PCOC
- Clinicians wanting to update their PCOC assessments skills

Pre-requisite

- Services who are registered with PCOC
- Completion of Essentials Online Module

Celebrating 20 years in improving palliative care outcomes
