

PCOC Clinical Leaders - Using PCOC Reports for QI Workshop 2025

Evidence to Improve Patient Outcomes

Click on the Dates Below to View and Register

Wednesday 2 April

Thursday 8 May

Monday 27 October

Tuesday 25 November

Time

1400-1600 (Sydney, Melbourne, Canberra time)

This workshop is designed to increase understanding and the skills in using PCOC Patient Outcome reports and supplementary information to identify areas for quality improvement activities.

At the end of the workshop, the participants will:

Use a data dive technique to identify areas to improve
Use PCOC reports to evaluate your service's use of the assessment and response framework
Communicate and disseminate your service's outcome results

Target audience

Clinicians and managers conversant with PCOC reports and assessment tools
Participants are required to bring their most recent report, dashboard and supplementary reports
It is recommended that attendance is in pairs or groups
Your service has received a PCOC report prior to attending the workshop

Pre-requisite

[Complete the PCOC Essentials Manager's module](#)
