

GP Self-Report CPD Participation Evidence - GenPal Participation

Program: GenPal – Early Needs Identification & Proactive Palliative Care in General Practice

Activity Type (tick one):

- Education Activity
- Reviewing Performance
- Measuring Outcomes

Date(s) Completed: _____

Total Time (hours): _____

GP Details

GP Name: _____

RACGP ID: _____

Practice Name: _____

Practice Postcode: _____

Description of Activity

GenPal supports early identification of patients with unmet palliative care needs, structured clinical review, and proactive care planning within general practice.

As part of this activity, I:

- Participated in structured GenPal information session
- Reviewed patient cohort using identification prompts
- Conducted clinical audit / data extraction
- Identified patients for proactive care planning
- Initiated or updated Advance Care Planning
- Updated GPCCMP care documentation
- Reflected on findings and practice systems

Outcomes / Practice Impact - Reviewing Performance or Measuring Outcomes

Number of patients reviewed: _____

Number identified for further planning: _____

Brief summary of changes implemented (if applicable):

Reflection (RACGP CPD)

What did I learn and how will this improve my clinical practice?

Declaration

I confirm I have completed the GenPal activity as described above and will retain supporting documentation in the event of CPD audit.
