As a TAFE student or graduate, you have already made a positive choice by pursing further education. A strong education gives you many options for the future, and these options include university study.

The University of Wollongong has recognised TAFE studies with credit transfer into a wide range of our degrees for many years. We understand that TAFE graduates come to us with relevant, high quality credentials. This publication is designed to make it easier for you to understand the pathways and credit transfer between TAFE and a University of Wollongong degree.

UOW shares with TAFE a philosophy of practical outcomes in its coursework and research. The university learned early on that an idea is only good if you can make it work.

Further study is only useful if it advances your knowledge and empowers you, and a UOW degree can do both.

I look forward to welcoming you to the University.

Professor Rob Castle
Deputy Vice-Chancellor (Academic)
The University of Wollongong was the highest-performing public university in Australia overall for ‘domestic graduates’ in the independent Good Universities Guide 2012.

A Five-star University
The category rates universities across five key performance indicators, where only the top twenty per cent of universities nationwide can be awarded 5 stars in any one category. This demonstrates UOW graduates are well-rounded, enjoy high employment rates, great access to further study, and are taught by leaders in their field.

★★★★★ Domestic Graduates: Generic Skills
★★★★★ Domestic Graduates: Overall Satisfaction
★★★★★ Domestic Graduates: Teaching Quality
★★★★ Staff Qualifications
★★★ Staff-student ratios

The Good Universities Guide 2012 Edition

TAFE/AQF Qualifications
The University of Wollongong welcomes applications from graduates of TAFE New South Wales and other AQF providers. The following TAFE awards are appropriate qualifications considered for entry to a range of UOW degrees.
- Diploma
- Advanced Diploma
- Associate Diploma
- Australian Qualifications Framework (AQF) Level IV Certificate (excluding trade certificates)

Admission is dependent on the completion of the course and the level of academic performance achieved. Entry is based on a calculated grade point average, which is converted to an ATAR (Australian Tertiary Admissions Rank). Credit transfer may be granted for these awards, excluding Certificate IVs. See page 7 for more on credit transfer.

PLEASE NOTE:
If you have studied a program not listed in this brochure you may still be eligible for admission to UOW with credit transfer. Please contact UniAdvice on 1300 367 869 or at uniadvice@uow.edu.au for further information.

TAFE Tertiary Preparation Certificate
The TAFE Tertiary Preparation Certificate (TPC) is a well established alternative to undertaking a HSC course. Entry to UOW is dependent on the level of academic performance achieved in the TPC, which is converted to an ATAR. Please note: the TPC does not qualify applicants for credit transfer.

Jorge Perea
Bachelor of Commerce (Human Resource Management)

I questioned myself about whether I was good enough or smart enough to study at university and was full of questions and doubts about applying and enrolling.

I came to the UOW after completing a Diploma in Human Resources Management at TAFE. TAFE is a great institution in its own right and I strongly believe it provides students with skills and knowledge necessary to enter the workforce. TAFE allows you to ease into university in many ways: previous subjects which you have studied at TAFE will allow you to understand more of the material taught at university. I can now finish my degree faster thanks to my Diploma from TAFE.

UOW offers students the opportunity to have a taste of a variety of core subjects which provides you with an overview of many different subjects you can choose from. The possibilities are endless.

UOW offers a combination of excellent education and a great lifestyle. It provides students with an opportunity to meet people from all over the world. The campus itself offers a great environment to study and socialise, and the facilities available are second to none.

University is not impossible and you don’t have to be a brainiac; it’s just doing the hard yards to get great results and keeping on top of your work each week.
Making a Direct Application

1. Find the course you want to study
   The tables starting on page 9 show which UOW degrees your TAFE qualification will give you credit transfer for. You can find detailed information on all courses online in the UOW Counsellor's login at coursefinder.uow.edu.au. Alternatively, you should contact our Admissions Advising Team on 1300 367 869 to discuss your options or have a course guide mailed to you.

2. Complete an application
   All direct applications can be made online through apply.uow.edu.au. You can save your incomplete application and return to it later. Alternatively, you can complete a hardcopy application form, which you can request from UniAdvice on 1300 367 869 or uniadvice@uow.edu.au.

   Applications are due 30 September 2011. Late applications can only be considered if places are available.

3. Submit your application
   Once your application is submitted, we will send you an acknowledgement email, which will advise you of your UOW student number (used for further enquiries), when you can expect to hear the outcome of your application, key contacts, and next steps.

4. Application outcomes
   If your application is successful, you will receive a formal offer to study at UOW.
   - If you submitted your complete academic transcripts and your TAFE results meet the required ATAR equivalent, you will receive an offer letter (for on-time applications) or a course guide mailed to you.
   - If you submitted incomplete transcripts demonstrating strong academic results, you will receive an offer that is conditional on successful completion of your TAFE program with appropriate marks.

   People who are authorised to certify copies are:
   - TAFE or UniAdvice officers
   - Justice of the Peace (JP)
   - Accountant or registered tax agent
   - Manager of a bank or credit union
   - Barrister, Solicitor or Patent Attorney
   - Post Office Manager
   - Police Officer

   **IF YOU DON'T HAVE YOUR RESULTS WHEN APPLICATIONS CLOSE**

   Sometimes TAFE students applying to UOW won't have their final results by 30 September. In this case, applicants can submit their application with half-yearly results (i.e., an incomplete academic transcript) and supply final results as soon as they are available. Please note that credit transfer cannot be awarded until certified final TAFE results have been submitted to UOW.

Applying through UAC

Direct applicants may also apply through the Universities Admissions Centre (UAC). For more information, see www.uac.edu.au or phone 02 9752 0200.

What you will Need

As part of your application, you will be asked to submit certified copies of your TAFE academic transcripts. To obtain a ‘certified’ copy, you will need to take the original documents along with copies to an authorised person. The authorised person will check that the copies are exact copies of the original and then ‘certify’ them by signing (and possibly stamping) the copies. They must also print their name, provide their phone number and the occupation or position that qualifies them to certify documents.

For NSW TAFE Graduates Applying to UOW

Credit transfer (or “advanced standing”, or “credit exemption”) is the awarding of credit towards completion of a UOW degree based on previous studies. Many NSW TAFE Diploma and Advanced Diploma programs are recognised for credit transfer at UOW as they contain studies equivalent to individual subjects in some UOW Bachelor degrees.

How much Credit Transfer?

The tables starting on page 9 advise which UOW degrees your TAFE qualification will provide credit transfer towards, and the maximum credit transfer available. Please note that the exact amount of credit transfer granted may vary based on academic performance at TAFE and other factors. The amount awarded will be confirmed when you are offered a place at UOW or on enrolment (see “When do I find out?” below).

How is Credit Transfer Measured?

All degrees at UOW are based on the awarding of credit points on the successful completion of each subject. Credit transfer is awarded as either ‘specified credit’ or ‘unspecified credit’ (see ‘Types of Credit Transfer’ below).

At UOW, one subject is worth 6–8 credit points, with 48 credit points equal to one year of standard full-time study. Students may vary the number of credit points they undertake in a year, but 48 credit points per year is the standard used to calculate the normal length of a UOW degree.

- A three-year degree is made up of 144 credit points
- A four-year degree requires 192 credit points

Types of Credit Transfer

The type and amount of credit transfer granted depends on the TAFE program and subjects completed, together with the program rules and structure of the UOW degree. If applicable, two types of credit transfer can be granted:

- Specified credit is granted when exact or near-exact equivalence to a UOW subject can be demonstrated. The codes for UOW subjects granted as specified credit are given in the tables starting page 9.
- Unspecified credit is granted for relevant studies that do not exactly replicate UOW subjects. Unspecified credit is generally used for elective subjects.

UOW subjects are organised into levels (e.g., “200-level”), which indicates the complexity and depth of the subject in question. The level is indicated by first digit of the subject code, so MGMT110 is a “200-level” subject, and MKM201 is a “300-level” subject.

In highly prescribed courses (with relatively few elective options) it may not be possible to use all unspecified credit.

When do I find out?

If you submit an on-time application, you can expect to receive your application outcome between October and December. Late applications will be processed after on-time applications, and will be notified any time between November and February.

You find out how much credit transfer you have been granted either in your offer letter (for on-time applications) or at time of enrolment (for late applications). See “How to Apply for more information.

How much time will I save?

Depending on how much credit transfer you are awarded, you may be able to complete your UOW degree faster than normal. The table below equates credit points with time.

<table>
<thead>
<tr>
<th>Credit Transfer</th>
<th>72 credit points</th>
<th>48 credit points</th>
<th>24 credit points</th>
<th>6–18 credit points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Time saved</td>
<td>1½ years (9 months)</td>
<td>1 year (12 months)</td>
<td>16 year (15 semesters)</td>
<td>1–3 subjects*</td>
</tr>
</tbody>
</table>

* by reducing your total subject load, it may be possible to shorten your degree by a semester (5 months) with appropriate study path planning.

Credit transfer by Entrance Qualification

The tables on the following pages show the maximum credit transfer you can be granted to specific UOW degrees based on your entrance qualification. For each UOW degree, the maximum amount of specified and unspecified credit is shown.

For specified credit, the UOW subject codes are listed. You can view complete course structures in the UOW handbook at www.uow.edu.au/handbook/current/ug. Detailed descriptions of individual subjects can be found by clicking on “Subject Descriptions” at www.uow.edu.au/handbook.

The tables have been organised by career area. For each career area, we indicate which UOW faculties offer courses in these areas.
Arts, Design, Fashion, Media and Music

Faculty of Creative Arts

The Bachelor of Creative Arts at UOW offers major studies in Creative Writing, Graphic Design, Theatre, Visual Arts and Visual Arts & Design.

Automotive, Transport and Maritime
Building and Construction
Electrotechnology, Engineering, Manufacturing and Mining

Faculty of Engineering

The Bachelor of Engineering degree offers major studies in Civil, Environmental, Materials, Mechanical, Mechatronic and Mining Engineering. It also includes a Flexible Entry option where students don’t have to declare a major until the end of their first year, and the degree is accredited by Engineers Australia.
