Subject Evaluation Report - UOW

1st half 2021

Project Title: **Subject Evaluation by Students - Autumn 2021**

Subject Enrolments: **56357**
Responses Received: **11649**
Response Rate: **20.67%**

Report Comments

This report provides a summary of student evaluation results for the institution as a whole. All sessions ending in the first half of the year are combined into the **First Half Yearly Report** and all sessions ending in the second half of the year are combined into the **Second Half Yearly Report**.

Note: Currently this report only includes results for subjects delivered onshore, but it is the intention to include offshore locations in time (with the exception of UOW Dubai which has its own reporting). Subjects delivered by UOW College Australia are not included.

Aggregated reports are available by Subject (instances combined), Course, School, Faculty, Campus and for the Institution as a whole. Individual subject reports are issued to Subject Coordinators at the end of each session.

If you have any questions about these reports, contact uow-evaluations@uow.edu.au.

Interpreting the data

- Subject Instance Reports are generated only when six or more students complete the survey. However, the results for subjects with fewer than six respondents are included in the aggregate reports.
- Response rates of less than 10% should be interpreted with caution.
- A numeric value is assigned to each response. These are used to calculate the average (mean) for each question. Values assigned are:
 - ◊ Strongly Agree (6)
 - ◊ Agree (5)
 - ◊ Mildly Agree (4)
 - ◊ Mildly Disagree (3)
 - ◊ Disagree (2)
 - ◊ Strongly Disagree (1)
 - ◊ Unable to Judge (not counted)
- **An overall subject mean is calculated on the 10 core questions only** - Any additional questions included in the survey are not counted towards the mean.
- Mean scores can hide extremes in responses, as such, you are encouraged to also utilise response distribution and percentage agreeable metrics.

About the SEBS Survey

The SEBS survey has been designed as a tool to assist Subject Coordinators to evaluate their subject(s) in order to assess their impact on student learning. These reports should be compared with, and supported by, information obtained from other sources such as student focus groups, self-reflections and peer reviews. Subject Coordinators are asked to document their reflections (including identified actions to maintain and enhance subject quality) in the Subject Reflection Database on their Faculty Quality Assurance (QA) Moodle Site.

See the [Evaluation of Learning and Teaching](#) website for further information.
