

**2 DAY**

**WORKSHOPS**

**11 - 12 JULY 2023**

# Years 3 and 4

## **AWESOME EGYPTIANS**

**PRESENTER: Sally Foots**

It's time for you to discover the incredible world of Ancient Egypt in this fun-filled and adventurous workshop! You'll be mingling with mummies, unlocking the mysterious code of hieroglyphics, constructing your own pyramids and uncovering the truth about gods, goddesses and Pharaohs. You'll even explore the process of mummification! (this will include some real offal but don't worry, no animals were hurt during the making of our mummification workshop!) If you love solving mysteries and want to learn about a truly intricate ancient civilisation, come and join the fun!

## **WELCOME TO HOGWARTS**

**PRESENTER: Helen Dudeney/Sarah De Vuono**

**CREATIVE KIDS VOUCHER ACCEPTED**

Professor Dumbledore and the other professors at Hogwarts invite you to spend two days with us taking part in a wide variety of Special Lessons involving, art, writing, drama and creative building. You are welcome to come dressed as your favourite student

We will visit Diagon Alley to collect our wizarding materials and get sorted by the sorting hat into your house (not necessarily the house you expect - the sorting hat knows best!). There will be classes in Transfiguration, Potions & Charms and herbology. The trivia challenge will give you a chance to impress us with your knowledge of Harry Potter (1st Book /Movie). All you need is your imagination, your creativity, your great ideas and to be prepared for fun and excitement.

## **STEM WARS**

**PRESENTER: Patrick De Vuono**

Young Jedi's are invited to join us for fun and adventure as we explore STEM based activities from a galaxy far, far away. During this two day workshop students will participate in pod racing, droid building and lightsaber creation. Students are invited to come dressed as their favourite Star Wars character.

## **ADVENTURES IN STORYTELLING**

**PRESENTER: Thea Stoneman**

**CREATIVE KIDS VOUCHER ACCEPTED**

Create your own adventure, with vivid worlds and characters, as you explore all the forms that storytelling can take and learn how to write a compelling story.

## **INTRO TO 3D MODELLING**

**PRESENTER: Lost Night Studios**

**CREATIVE KIDS VOUCHER ACCEPTED**

Do you like Lego? Designing your own creations and building them? In this class, you'll be introduced to the world of 3D Modelling! With these skills, you'll be able to create anything you can imagine using nothing but a computer! You'll be using Mecabricks and Blender to create and bring along a USB to save your work.

## **WILDLIFE ILLAWARRIORS**

**PRESENTER: Alyce Mason**

If you love animals and want to help create a better future for our weird and wonderful wildlife friends in the Illawarra, this is the adventure for you! Over 2 fun-filled days you will embark on a nature exhibition to photograph local wildlife, plants & habitats, meet wildlife specialists from WIRES and create wildlife-friendly habitats & rescue kits. With the help of our human and animal friends from WIRES (Australia's largest wildlife rescue organisation) we will explore, encounter and create as Wildlife Illawarriors!

## **MINIATURE TREE HOUSES**

**PRESENTER: Tamara Gulic Phoenix**

**CREATIVE KIDS VOUCHER ACCEPTED**

Get ready to get lost in the world of miniature tree house building! You will channel your inner architect as you design and build your tiny tree house. Using wood, cardboard, wire, clay, hot glue, moss and plants, your tree house will be a miniature master piece.

## **EXPERIMENTAL PAINTING & DRAWING**

**PRESENTER: Michelle Heldon**

**CREATIVE KIDS VOUCHER ACCEPTED**

Do you enjoy Art? Come along to this workshop to build your skills in drawing and painting in experimental ways. Challenge yourself to open up your mind to your creative capacity. You will learn how to mix colours, push perspectives and discover new materials.

## **MIXED MEDIA COLLAGE**

**PRESENTER: Deniz Ahishali**

**CREATIVE KIDS VOUCHER ACCEPTED**

Want to make art but can't decide which medium to use? Why not try an assortment in our Mixed Media Collage workshop which is all about experimentation and layers (lots of layers!) in a fun and relaxed environment. Collage is a form of 'process art', which means the focus is on the process of its making, and this remains as a feature of the completed artwork. Mixed media collage inspires creative thinking and is an opportunity for exploration and self-expression.

**1 DAY**

**WORKSHOPS**

**13 JULY 2023**

# Years 3 and 4

## **INTRO TO 3D MODELLING**

**PRESENTER: Lost Night Studios**

**CREATIVE KIDS VOUCHER ACCEPTED**

Do you like Lego? Designing your own creations and building them? In this class, you'll be introduced to the world of 3D Modelling! With these skills, you'll be able to create anything you can imagine using nothing but a computer! You'll also have the chance to take home your very own 3D. You'll be using Mecabricks and Blender to create and bring along a USB to save your work.

## **WONDERFUL WATERCOLOURS**

**PRESENTER: Maria Matic**

**CREATIVE KIDS VOUCHER ACCEPTED**

Have you wanted to use watercolours but not sure where to start? Come and explore the wonderful world of watercolours in this workshop. You will learn how to master water control and create vibrant and colourful artworks. You will discover how to combine ink and watercolours to create beautiful pieces of art. The light, translucent nature of watercolours complements the dark and bold contrast of ink. So, come along and become confident in painting with watercolours.

## **MIXED MEDIA COLLAGE**

**PRESENTER: Deniz Ahishali**

**CREATIVE KIDS VOUCHER ACCEPTED**

Want to make art but can't decide which medium to use? Why not try an assortment in our Mixed Media Collage workshop which is all about experimentation and layers (lots of layers!) in a fun and relaxed environment. Collage is a form of 'process art', which means the focus is on the process of its making, and this remains as a feature of the completed artwork. Mixed media collage inspires creative thinking and is an opportunity for exploration and self-expression.

## **SPHERO TO HERO**

**PRESENTER: Patrick De Vuono**

**CREATIVE KIDS VOUCHER ACCEPTED**

Have you ever wanted to program and control your very own robot? Now you can take your first steps into the world of coding and robotics by working with a Sphero Bolt robot. Learn how to operate the Sphero Bolt through a series of different games and activities on your own and in teams. The fun ranges from school yard games, to races and even underwater challenges - the possibilities are only limited by your imagination!

## **AWESOME EGYPTIANS**

**PRESENTER: Sally Foots**

It's time for you to discover the incredible world of Ancient Egypt in this fun-filled and adventurous workshop! You'll be mingling with mummies, unlocking the mysterious code of hieroglyphics, constructing your own pyramids and uncovering the truth about gods, goddesses and Pharaohs. You'll even explore the process of mummification! (this will include some real offal but don't worry, no animals were hurt during the making of our mummification workshop!) If you love solving mysteries and want to learn about a truly intricate ancient civilisation, come and join the fun!

## **ELECTRONICS MANIA**

**PRESENTER: Devika**

**CREATIVE KIDS VOUCHER ACCEPTED**

Ever wanted to make your own electronics? In this workshop we will make noise by building radios, sirens, light shows and sensors detecting sounds, light, heat and water. You will learn the basics of electricity and circuits so you can build solutions to problems. This will be a hands on workshop where you will make your own electronics and test them out!

## **ADVENTURES IN STORYTELLING**

**PRESENTER: Thea Stoneman**

**CREATIVE KIDS VOUCHER ACCEPTED**

Create your own adventure, with vivid worlds and characters, as you explore all the forms that storytelling can take and learn how to write a compelling story.
