During the semester prior to the intended commencement of your thesis you should:

1. Select your nine preferences from the list topics (ONLY Topics 1-76 are available for ENGG452/453) found at [http://eisdb01.adeis.uow.edu.au/fmi/webd](http://eisdb01.adeis.uow.edu.au/fmi/webd) Before Friday Week 10. A topic will then be selected from one of your preferences. The outcome will be released by Friday Week 13.

To select the preference

a. You must be on campus to access this web site [http://eisdb01.adeis.uow.edu.au/fmi/webd](http://eisdb01.adeis.uow.edu.au/fmi/webd). You cannot access this database from outside of the University.

b. You must login using: aduow\xxxxx where xxxxxxx is your University email login name. The password should be the same as your email password.

c. Select 9 preferences based on the topic number. It is preferable to select a variety of supervisors.

If you encounter any problems, please contact Peter Turner, [peter_turner@uow.edu.au](mailto:peter_turner@uow.edu.au), Bld. 6 Room 221, 02 4221 3032

2. If you miss the selection process, you will be allocated the remaining topics.

When you enrol in ENGG452, your thesis topic and supervisor details will be visible on SOLS at the start of your first thesis semester.

Please note:

- Your topic and supervisor options may be severely limited if you wait until the end of semester to begin organising your thesis.
- The online allocation system does not operate for mid-year commencements.
- For students who would like to enrol ENGG453, please contact a subject coordinator directly (cholacha@uow.edu.au).
During the semester prior to the intended commencement of your thesis you should:

   a. You must be on campus to access this web site
   b. You must login using: `aduow\uni_login_name` and your SOLS password

3. When you have agreed on a topic with a supervisor, you need to inform the thesis coordinator (A/Prof Cholachat Rujikiatkamjorn)
   - Please email your topic and supervisor’s name to `cholacha@uow.edu.au`
   - (with a copy of this email sent to your supervisor to ensure there are no disagreements).

When you enrol in ENGG453, your thesis topic and supervisor details will be visible on SOLS at the start of your first thesis semester.

Please note:
- The online allocation system does not operate for mid-year commencements.
- To be eligible to enroll in ENGG453, you need to have WAM higher than 75.
