COMPULSORY SUBJECTS – Bachelor of Engineering (Honours) – Bachelor of Science (Majors from the Faculty of Science, Medicine & Health)

Spring session commencement

Students are recommended to follow the Engineering program in first year. Please enrol in the following subjects:

Spring Session	
ENGG100	Engineering Computing and Analysis
ENGG104	Electrical Systems
PHYS143	Physics for Engineers
MATH141[1]	Foundations of Mathematics: Algebra and Differential Calculus

AND

Summer 2026-2027	
MATH142	Essentials of Mathematics: Integral Calculus and Series

NOTES
The Common First Year Engineering program is optimised for Autumn session entry. The degree can also be completed starting with mid-year entry but requires students to study MATH142 over summer (enrolments open from 31 August). After completing one session at UOW, mid-year entry students must obtain subject selection advice for the remainder of their degree, from the Academic Program Director (APD) associated with their major.

Double degree students should discuss their study program with the relevant APDs.

Students with credit transfer subjects on their offer should consult their APD for a program of study.

[1] MATH141 assumes completion of HSC Mathematics (2 Unit). If you have completed HSC General Mathematics, contact your APD for an alternative program of study.

Please consult the online Handbook (available from the UOW "Current Students" webpage) for the most up-to-date information regarding subjects on offer, and for subsequent year programs.

NEED HELP?
If you have any questions about your enrolment or studying at UOW, please enquire here or call our team on 1300 367 869. You can also refer to our enrolment FAQs page for self-help options.
