

PRINT CARTRIDGE RECYCLING

WHAT CAN GO IN THIS PRINT CARTRIDGE RECYCLING BIN?

Print cartridges and toner bottles from Brother, Canon, HP, Epson and Kyocera are able to be recycled via this collection box.

WHAT DO I DO IF THE CARTRIDGE RECYCLING BIN IS FULL?

1. Remove the bin liner and secure it with the tie provided. There should be spare liners and ties in the bottom of the bin. Note that bags returned for recycling have a maximum weight limit of 15kg.
2. Place the bag in the internal mail. It has a reply paid sticker and UOW's Distribution Services will post it to the recyclers.
3. Replace the bin liner so that the bin is ready to be used again.
4. Contact the Environment Unit to arrange for more liner bags. Email: environment-team@uow.edu.au

! Under no circumstances should an external company/contractor be coming to empty the collection bins. If this situation arises please contact UOW Security on 42214555.
