

Turn over a new leaf

Environmental Sustainability at UOW

The Environment Unit is working to achieve the UN Sustainable Development Goals by implementing initiatives to reduce the environmental impact of UOW operations and to support a cultural shift toward sustainability. Initiatives include water, energy and emissions reduction, improved waste and recycling management and care of ecological systems.

The ‘Turn over a new leaf’ theme is about individuals breaking habits and trying something new and more environmentally friendly!

4 R's

Rethink your decision,

Reduce your consumption,

Reuse when possible, and

Recycle everything you can!

TIPS TO REDUCE YOUR ENVIRONMENTAL FOOTPRINT AT UOW

- Put only recyclable items in the recycling bins
- Use a reusable water bottle, coffee cup and purchase items with recyclable packaging.
- Bring your lunch and use a Kitchen-go on campus
- Print or copy double sided
- Walk, cycle, catch public transport or carpool to UOW uow.edu.au/transport
- Switch off monitors in computer labs when you leave
- Purchase your second hand text books via the UOW Alumni Bookshop
