## COMPULSORY SUBJECTS - COURSE

All Bachelor of Information Technology majors have a common first year. Students must enrol in the following subjects:

Spring Session (2020)		Autumn Session (2021)	
CSIT111	Programming Fundamentals	CSIT113	Problem Solving
CSIT115	Data Management & Security	CSIT114	System Analysis
CSIT127	Networks and Communications	CSIT121	Object Oriented Design & Programming
CSIT128	Introduction to Web Technology	Elective	

## NOTES

Students with credit transfer subjects on their offer should consult an Academic Adviser for a program of study.

Scholar students are required to maintain an average mark of 80% or above.

The elective may be chosen from the General Schedule. If you wish to take an elective in Spring session instead of Autumn session, you can delay enrolment in CSIT115 as this subject is also available in Autumn.

If you are planning to complete a double major in the least amount of time it is advisable to consult an academic adviser about the selection of this elective.
