1 Purpose of Policy

1. The University has adopted a set of ‘Teaching and Research’ and ‘Research Only’ Position Classification Standards (PCS) as at September 2005 for the classification structure for academic staff.

2. This Policy provides an adequate basis to differentiate between the various levels of employment and define the broad relationships between classifications. The Standards are not exhaustive of all tasks in academic employment, which is by its nature multi-skilled and involves an overlap of duties between levels.

2 Definitions

3 Application and Scope

Not available.

4 General

1. The PCS deal broadly with 4 areas of activity:
   a. teaching;
   b. research/scholarship;
   c. management; and
   d. professional activities.

2. Unless appointed to a Research Only position or to a specialist position with individually specified duties, all members of academic staff are normally expected to be actively involved in all these areas. Agreement on the balance between these responsibilities will be determined through consultation between the Head of Academic Unit and the academic staff member, taking into account the staff member's agreed career plan, the needs of the academic program and the Faculty Workload Model.

3. Within the parameters specified in clause 4.2 and workload allocations, all levels of academic staff can expect to make a contribution to a diversity of functions within the University. Consistent with their academic duties and responsibilities described in the PCS, the University encourages academic staff to become involved in activities relevant to the community and the professional skills of the staff member, new methods of teaching delivery, consultancy activities and innovative academic roles generally.
