2. For the purpose of Return of Title IV Funds for student receiving US Financial Aid, a student will be considered to be withdrawn from a course where the student:
   a. Withdraws from the program; or
   b. Is discontinued by the University; or
   c. Transfers or is transferred to an ineligible course; or
   d. Undertakes a leave of absence, whether approved or unapproved;
   e. Fails to earn a passing grade in any subject due to non-attendance; or
   f. Becomes ineligible for Direct Loans in any way within the first 60% of an award payment period.

Repayment and Calculations

3. If a student never commences attendance, the student is not an eligible student for Title IV funds and all the aid will be cancelled and the total amount will be returned to the US Department of Education.

4. If a student withdraws from their program, both the student and the University will be required to repay a portion of the US Financial Aid.

5. The amount to be repaid is calculated pro rata based on the date the student notified the University of their withdrawal, was withdrawn from study, or otherwise became ineligible for US Financial Aid.

6. The amount of aid earned in any loan payment period (or period of enrolment) will be determined by the percentage of attendance by the student.
   a) The number of calendar days completed by the student in the payment period (or period of enrolment) is divided by the total number of calendar days of the payment period (or period of enrolment) excluding scheduled breaks of five days or more or periods for which the student has been granted LOA.
   b) The RT24 calculation formula is:
      Number of days completed/Total number of days in loan payment period (or period of enrolment) = % of payment period completed (or period of enrolment completed)

7. The University will calculate the amount to be returned to the United States Government using the Return to Title IV worksheet developed by the United States Department of Education.

8. The liability for tuition fees and refunds is determined by the University’s Fees Policy, and independent of the regulations covering the Return of Title IV funds.
9. If the University is required to repay money on behalf of a student, the student will be required to repay this money to the University.

10. The direct loan funds will be returned in the following order:
   a. Unsubsidised loan;
   b. Subsidised loan;
   c. PLUS loans.

11. For the purposes of the Return to Title IV funds calculations, a leave of absence from a program will be treated as a withdrawal although the student’s official UOW enrolment status will remain as a leave of absence.

Determining the Date of Withdrawal

12. Where a student requests a leave of absence (as per Section 2.7 above), the date of withdrawal will be the date on which the student’s application for leave is approved and recorded on their enrolment record.

13. If a student is undertaking study in trimesters or non-standard sessions throughout the year, the Return of Title IV funds will be assessed on a case by case basis. Withdrawal dates and liability to repay funds will be determined by the student’s enrolment and/or potential return to study dates. The University will calculate this date using the Return of Title IV form.

Official Notification Provided

14. Students intending to withdraw from their degree must discuss their decision with the University’s Financial Aid Administrator (FAA) to understand the University’s obligations in regards to their loan funds, UOW’s Fees Policy and the implications for their student visa.

15. If a student proceeds with their withdrawal, the date the student formally amends their enrolment, will be the withdrawal date for the purpose of calculating the return of loans funds to the United States Government.

Official Notification not Provided

16. Where a student does not notify the University of their withdrawal, the University will determine the withdrawal date to calculate the return of loan funds.

17. The University will make this decision no later than 30 days after the end of the payment period in which the student withdrew, or the date the University became aware that the student has ceased attending the University, whichever is earlier.

18. If notice is not provided because of circumstances beyond the student’s control, the withdrawal date will be the date on which that circumstance occurred. The student will be required to provide documentation supporting the existence of circumstances beyond their control.

19. In circumstances where a reason for and date of withdrawal cannot be determined, the withdrawal date will be the midpoint of the payment period.
No Passing Grades

20. When a student fails to earn a passing grade in any subject, the University must determine whether those grades were through non-attendance.

21. If a student who began attendance and has not officially withdrawn fails to earn a passing grade in at least one subject offered over an entire period, the University will assume for Title IV purposes, that the student has unofficially withdrawn.

22. If a student has failed all their subjects but attended all subjects, then the University’s SAP policy must be followed.

Timeframe for Returning Title IV Funds

23. The University is required to return the amount of Title IV funds which it is responsible for as soon as possible, but no later than 45 days after the University has determined that a student has withdrawn.

24. Any unearned Title IV funds that the student is required to return must be returned or repaid in accordance with the terms of the loan.

Post-withdrawal Disbursements

25. A student who has not received all the aid funds they earned may receive a post-withdrawal disbursement of the remaining earned funds.

26. The University will notify the student and or any parent borrower of eligibility for a post-withdrawal disbursement.

27. The University will offer the student the post-withdrawal disbursements within 30 days of the date of determination and request confirmation that the post-withdrawal disbursement is accepted.

28. A student will have to send a response within 14 days and the University will not disburse a post-withdrawal disbursement and notify the student in writing if no response is received from the student.

29. A student entitled to receive such a post-withdrawal disbursement may decline it.
