

IMIA Operator Algebra Seminar
University of Wollongong

Title: Aperiodic tilings and their C^* -algebras.

Speaker: Michael Whittaker (University of Wollongong)

Time and Dates: 3:30pm Thursday 31 May, 2012

Location: Room 8.G25

Abstract: I will define a dynamical system associated with an aperiodic tiling. From there I will outline Kellendonk's construction of a C^* -algebra starting with this dynamical system.
