

IMIA Operator Algebra Seminar
University of Wollongong

Title: Cellularity and the Jones basic construction

Speaker: Fred Goodman (University of Iowa)

Time and Dates: 3:30pm Thursday, 18 October 2012

Location: Room 15.113 (Access grid room)

Abstract: I will discuss how an idea from operator algebras, the Jones basic construction, can be adapted to discuss certain non-semisimple finite dimensional algebras, namely the cellular algebras of Graham and Lehrer.
