

IMIA Operator Algebra and Noncommutative Geometry Seminar
University of Wollongong

Title: Trouble in CP-land

Speaker: John Quigg (Arizona State University)

Time and Date: 3:30pm Thursday, 17 July 2014

Location: Room 39C.meeting room

Abstract: I'll talk about a hard (well, to me, anyway) problem that arises in crossed products of Cuntz-Pimsner algebras, and I'll try to indicate a few partial results.

Joint work with Erik Bdos, Steve Kaliszewski, and Dave Robertson.
