Title: Some stuff about Cuntz-Pimsner algebras of bimodules

Speaker: Adam Rennie (University of Wollongong)

Time and Date: 3:30pm Thursday, 21 August 2014

Location: Room 39C.meeting room

Abstract: Joint work with Dave R and Aidan. I will point out some interesting structural features of Cuntz-Pimsner algebras of bimodules. Some of these were previously (and independently) observed by Watatani and his mates. Time permitting I will sketch some applications and directions (code for: talk not yet written).
