ChemAlert. SaaS Notification

MAINTENANCE WINDOW DETAILS

RMT will be undertaking our migration of ChemAlert clients from Global Switch to NextDC from **Friday 26th March 2021 8pm AEDT**, completing **Saturday 27th March 2021**.

There will be a migration outage of up to 24 hours, during which period our existing failover site will give you access for SDS browsing. For clients who have private SDS's please advise if access is required during the outage and we will pre-arrange. Your ChemAlert Mobile App will not connect during the outage.

Latest version of previously circulated FAQs can be accessed [here](#).

Please notify your users as appropriate.

This work is scheduled to be performed during the following window.
