South Western Sydney Campus

Stands for purpose
A world-class education in Liverpool

The University of Wollongong South Western Sydney campus at Liverpool is where the region’s best and brightest can earn an internationally recognised degree—without having to travel.

UOW South Western Sydney is where Australia’s highest-rated university will offer undergraduate and postgraduate degrees that meet the demands of the Great South West. Programmes include law, arts, business, IT, health management and, from 2019, the highly regarded UOW Bachelor of Nursing through the new Western Sydney Nursing Education and Research Centre.

Liverpool is booming, and the opportunities in the city are increasing every year. Through UOW South Western Sydney, people in the region will get the world-class education they need to make the most of these opportunities.

Personalised experiences and world-class results

A personalised experience at UOW is about opening doors and supporting your future. At UOW this starts with access to our support and career services and guidance from our dedicated lecturers. They are here to teach you, challenge you and inspire you to greatness.

DURATION STARTS IN 
3 yrs Autumn (February)

Employers are looking for graduates who are flexible and analytical, with adaptable skills that can be applied in a multitude of ways. They want people who can think critically and creatively, who can reason and who have informed opinions. That is the foundation of the Bachelor of Arts degree at UOW. The degree is made up of subjects in the humanities. The Bachelor of Arts at Liverpool campus allows you to take either a single major plus a minor and electives, or a double major.

MAJORS

History

go.uow.edu.au/barts-hist

Historians study the everyday lives of people who lived in the past by looking at objects and documents that have survived throughout the years. Core subjects will teach you broad histories of specific Australian, Asian and European societies. In your second and third years you will be able to specialise and study topics in greater depth, including specific historical examinations of empires, the political and social impacts of wars, and the development of the State.

Sociology

go.uow.edu.au/barts-soc

Sociology is the study of society: it examines social life, cultural and social change, and the social causes and consequences of human behaviour. Specific areas of study include social theory and social research methods, social policy and the state, gender, sexuality and the body, crime and punishment, race and ethnicity, social class, families and intimacy, social interaction, social movements, globalisation, development and social change, and media and popular culture. Sociology will give you an understanding of cultural diversity and an awareness of injustices and inequality.

THE BEST IN AUSTRALIA

The federal government’s Quality Indicators for Learning and Teaching (QILT) ranked UOW in 2016 as the best university in Australia for Humanities, Culture & Social Sciences.

CAREERS

UOW Humanities graduates have the skills that employers want: critical and creative thinking, reasoning, the art of debate and well-formed opinions. Having such in-demand skills means you can take them to any career, anywhere in the world.

— Heritage Specialist
— Government Policy
— Business Administration
— Consultancy
— Diplomacy
— Archiving and Librarianship
— State/Federal Political aide or consultant
— Politician
— Social Policy
— NGO representative
— Local Government
— Teacher

Scholarships & Grants

We support people who want to learn

Our range of scholarships cover academic achievement, work integrated learning, sporting excellence and opportunities for Indigenous students. Each year, UOW’s EdStart grants are provided to a thousand UOW undergraduate students, helping cover the costs of textbooks and other expenses. Scholarships and grants are just a part of our commitment to student equity and our recognition of academic excellence across all areas of study. Our goal is to help students overcome financial or social disadvantage to achieve their best.

*Subject to final approval.
Bachelor of Arts – Bachelor of Laws*

go.uow.edu.au/barts-blaws

ATAR UAC IB
90 751218 33

DURATION STARTS IN
5 yrs Autumn (February)

PROFESSIONAL ACCREDITATION
By completing your law degree at UOW, you are completing an academic qualification that is recognised for admission as a lawyer in Australia, subject to completing state-approved Practical Legal Training (PLT). Further details for NSW students can be found at the Legal Profession Admission Board website.

This double degree combination is one of our most popular, and provides the foundation for a career in an extensive range of legal work and industries. Every specialisation in humanities is relevant within a number of legal contexts, especially History and Sociology. The practical skills in this flexible and versatile degree are hands-on, including critical analysis and thinking, written and oral communication, legal research, negotiation and advocacy, all of which are necessary for you to excel in the legal profession.

Through reading and research you will attain a broader understanding about the world we live in through a range of perspectives. You will be able to break down and translate complex information and present it effectively to a range of audiences understanding its social and legal implications. By combining law with an arts specialisation, you are able to carve out a career of your choice and gain highly competitive skills in a global workplace.

PRACTICAL EXPERIENCE
We believe that practical experience is a vital part of your legal training. We are the only law school in Australia that requires you to complete a legal internship. This means you get to apply your legal knowledge to real life situations as part of your degree.

DELIVERY
Students will complete Bachelor of Arts subjects in the first year of this double degree program. Refer to the Liverpool double degree Bachelor of Arts and Bachelor of Laws on-line handbook for more information about majors and electives available.

*CAREERS
We’re passionate about social justice and making a difference; we encourage you to explore your interest areas and help you carve out your own career options. A UOW Law degree can take you anywhere: the destination is up to you.

— Barrister
— Commercial Lawyer
— Criminal Defence Lawyer
— Diplomat
— Environmental Lawyer
— Government Lawyer
— In-House Legal Adviser
— Intellectual Property Lawyer
— Legal Consultant
— Magistrate
— Media Lawyer
— Policy Adviser
— Politician
— Prosecutor
— Research Officer
— Solicitor in Private Practice or a Community Legal Centre

THE BEST IN AUSTRALIA
The federal government’s Quality Indicators for Learning and Teaching (QILT) ranked UOW in 2016 as the best university in Australia for Law & Paralegal Studies.

UOW Law’s integrated first-year curriculum and support program was awarded the 2015 Office for Learning and Teaching (OLT) Citation for Outstanding Contributions to Student Learning.

Bachelor of Business

go.uow.edu.au/bbus

ATAR UAC IB
70 755666 25

DURATION STARTS IN
3 yrs Autumn (February)

Business stands at the forefront of innovation and progress and touches on many aspects of our modern society. The Bachelor of Business offers a broad education across all key aspects of the business environment including accounting, economics, finance, management and marketing. You will develop a comprehensive knowledge of business and organisations, and the skills to analyse business issues in local, national and international contexts. You will learn sought-after skills in responsible judgement and decision making, communications, team work and independent learning. The degree has a balance of theoretical and practical subjects drawing on real world examples from many different organisations in Australia and worldwide, meaning that you not only gain a great range of knowledge, but also learn the skills needed to apply this knowledge to real life settings.

CAREERS
Graduates of the Bachelor of Business find rewarding careers in a wide range of industries. Below is just a sample of the careers you can pursue:

— Brand/Product Manager
— Entrepreneur
— Exporter/Importer
— Market Researcher
— Business Advisor
— Project Manager
— Advertising/Executive
— Policy Advisor
— Analyst
— Event Manager
— Fund Manager
— HR Manager Consultant

ONE OF THE BEST IN NSW
The federal government’s Quality Indicators for Learning and Teaching (QILT) ranked UOW in 2016 as second among all universities in New South Wales and the ACT for Business & Management.

**DURATION**

3 yrs

**STARTS IN**

Autumn (February), Spring (July)

**PROFESSIONAL ACCREDITATION**

The Bachelor of Business Information Systems is accredited by the Australian Computer Society as meeting requirements for membership at the “Professional” level.

Business information specialists are trained to analyse business problems and find possible IT solutions for these problems. This ranges from running an efficiency audit on a company’s information systems through to analysing the effectiveness of a file management system and designing business software applications.

This course is specifically designed to prepare you for a career as a systems analyst or an information systems specialist. As well as having the capability of working in a business environment, graduates can work for government or non-profit organisations.

You will also study key commerce subjects such as accounting and management.

In your final year you will develop your own application as part of an annual student team project, developing solutions to real-world problems provided by our industry partners.

**CAREERS**

ICT professionals work across all fields and industries. Some of the more common roles are listed below. UOW can prepare you for these roles, as well as ones that don’t exist yet. As a future-proof ICT graduate you have the potential to shape the world.

- Analyst
- Animator
- Computer or Software Engineer
- Database Administrator
- Electronics Engineer
- Games or App Developer
- Investment Banker
- IT Consultant
- Network Architect or Engineer
- Programmer
- Security Engineer
- Web Designer or Developer

**THE BEST IN AUSTRALIA**

The federal government’s Quality Indicators for Learning and Teaching (QILT) ranked UOW in 2016 as the best university in Australia for Computing & Information Systems.

UOW also ranked in the top 200 universities in the world for Engineering and Technology in the QS World University Rankings by Subject 2015.

DURATION STARTS IN
3yrs Autumn (February), Spring (July)

PROFESSIONAL ACCREDITATION
The Bachelor of Computer Science is accredited by the Australian Computer Society as meeting requirements for membership at the ‘Professional’ level.

Computer scientists focus on the theoretical foundations and practical approaches to computation and its applications. They design methods and tools and write programs for computer applications. These applications can be in areas such as computer systems to control machinery, information management and big data, applications for mobile devices, stock market trend analysis, game design, visualisation of chemical reactions, neural network design, computational geometry for robot navigation, patient monitoring in hospitals, and much more.

Find your strengths and interests as you study the fundamentals of computer science and IT: programming, problem solving, network and communications, web technology, data management, system analysis, human-computer interaction, and project management.

In your final year you will develop your own application as part of an annual student team project, developing solutions to real-world problems provided by our industry partners.

THE BEST IN AUSTRALIA
The federal government’s Quality Indicators for Learning and Teaching (QILT) ranked UOW in 2016 as the best university in Australia for Computing & Information Systems.

UOW also ranked in the top 200 universities in the world for Engineering and Technology in the QS World University Rankings by Subject 2018.

The mantra of Facebook is ‘make the world more open and connected’ and I agree with that—it’s always fun to help make that happen.

I always thought I didn’t need to learn coding to the level I did but I’m glad that I did and was pushed into it by my lecturers at UOW. My degree actually laid the foundations of how modern operating systems, programming and computers work. At Facebook especially there is a big emphasis on the scripting and coding.

We get feedback all the time telling us how we have helped people achieve something, to fundraise or help a community. That is inspiring and lets me know that what I do behind the scenes helps the world.

PROFESSIONAL ACCREDITATION
The Bachelor of Information Technology is accredited by the Australian Computer Society as meeting requirements for membership at a Professional level.

UOW has experts encompassing the entire breadth of the underlying sciences, IT, engineering and mathematical methodologies in the ICT industry. Working closely with industry partners we ensure all programs remain relevant to industry trends and developments. Students study real-world projects and interact with and learn from industry professionals to ensure their job-readiness upon graduation.

The Bachelor of Information Technology provides foundation knowledge of organisational areas in IT, including:

- Database management
- Programming
- Information systems analysis and design
- Communications and networks
- Security
- eBusiness
- Project management
- Web-based technology
- Professional practice in IT

In your final year you will develop your own application as part of an annual student team project, developing solutions to real-world problems provided by our industry partners.

Growing up I was continuously fiddling with computers (and only sometimes putting them back together). Really, I was just learning how it all works. During my degree I was lucky enough to be awarded a Westpac Corporate Scholarship, which included a 10-week paid internship. This led to a full-time job as an IT Asset Analyst before I even graduated. Now I make changes to our process, policy and systems that affect over 35,000 people!

As part of the University of Wollongong’s vision for the South Western Sydney Campus, the University will open a School of Nursing to encourage the next generation of nurses to study, train, work, and undertake research in the Liverpool area.

The need for nurses Australia-wide is growing, especially in expanding regions like Sydney’s south west. A growing, ageing population, and an increasing incidence of chronic diseases have made qualified nurses more important than ever to our future, and the Western Sydney Nursing Education and Research Centre (WeSNER) will help secure that future.

The proximity of WeSNER to Liverpool Hospital, one of the largest in the Southern Hemisphere, will provide some opportunities to contribute to the Health and Education precinct within Liverpool. About 30% of current employment in Liverpool’s city centre is within its broader Health and Education precinct, which has been identified by Liverpool City Council and NSW Government as a key strategic asset and opportunity.

The state-of-the-art nursing learning, teaching and research centre will focus on person-centred models of care and will showcase the latest in technology such as virtual environments to provide authentic learning experiences for students. WeSNER Health Clinic is also designed to provide a broad range of person-centred health services to address the health needs of the Liverpool region. The proposed WeSNER Health Clinic will provide professionally supervised health services to the general public while educating students in health care practices.

The University of Wollongong has earned a proud reputation for nursing education with the School of Nursing at the University’s Wollongong campus successfully contributing to the excellence and efficiency of nursing education since 1991. The major new nursing training facility WSNER, to be open for the start of the 2019 academic year, will be of similar scale to the existing School of Nursing at Wollongong and is planned to accommodate around 700 nursing students. In addition, WeSNER will provide a platform for the UOW School of Nursing to expand on its established research strengths and develop further collaborative relationships at all levels for the benefit of the region.

The program comprises four subjects:

- **Effective Management in Health**: This subject covers key managerial and leadership skills required for effective management in health care settings. The focus is on developing skills in strategic planning, resource management, and team building to enhance healthcare delivery.
- **Effective Leadership in Health**: This course is designed to provide students with the knowledge and skills necessary for leadership roles in the health care system. It focuses on developing competencies in communication, decision-making, and problem-solving in a health context.
- **Essential Skills for Health Researchers**: This subject aims to equip students with the skills required for effective research practice in healthcare environments. It covers areas such as data collection, analysis, and critical evaluation.
- **Reflection on Practice**: This course focuses on the application of theoretical knowledge to practical situations within the health sector. It emphasizes the importance of self-reflection and continuous professional development.

**Postgraduate Degrees**

Change before the world does with a UOW postgraduate degree. Learn the skills to shine in your current role, fast-track your career, or change careers completely. Our flexible study options allow you to manage work, study and life commitments and lead the change in your career.

- Postgraduates earn on average $25k more than those with a bachelor degree.
- Full-time employed postgraduates earn $20% more within three years of graduation.
- Over 81.9% of postgraduates have full-time employment at the end of their course.

**Master of Health Leadership and Management**

[go.uow.edu.au/mihlthleadmgmt](go.uow.edu.au/mihlthleadmgmt)

<table>

The Master of Health Leadership and Management is designed to enable clinicians to develop their leadership roles in the health care system. The qualification is ideal for clinicians seeking to advance their careers. Mid-career clinicians can update their knowledge with contemporary studies in leadership and management in a health care context, to enhance their career prospects.

The Master of Health Leadership and Management is designed for practising health professionals seeking to develop their leadership and management skills. This flexible program allows students to build upon their existing competencies and to tailor their studies to their personal career goals. The program prepares students to take on leadership roles in the health care system.

The Graduate Certificate in Health Leadership and Management provides graduates with a competitive advantage in the job market and provides an ideal platform for further study at Master’s level.

The program comprises four subjects:

- **Effective Management in Health**
- **Effective Leadership in Health**
- **Essential Skills for Health Researchers**
- **Reflection on Practice**
UOW College Programs

UOW College offers university preparation programs to teach you the skills and knowledge you need to succeed at UOW. The programs seek to bridge the gap between school and university, helping you make the transition smoothly. On successful completion of a UOW College program, students can enter a number of undergraduate degrees at UOW.

The following pathway programs will be offered at UOW South Western Sydney.

The University Access Program is a 14-week course developed to give you the fundamental skills required for university study. Successful completion of the course provides guaranteed pathway into the first year of the Bachelor of Arts, Bachelor of Business or Bachelor of Business Information Systems at UOW.

“The UAP prepared me in more ways than I imagined, as it catered to preparing my skills for the style and academic standards of university, prepared me the relevant areas of study for the degree I wanted to undergo, and once successfully completing my UAP course, I was guaranteed entry into my nominated degree. I had a massive advantage in my first-year classes as I was prepared. I am now in my final year of my Exercise Science degree and so grateful that it all started with my experience at UOW College.”

The Diploma of Business is an in-depth preparation program which provides guaranteed entry into the second year of UOW’s Bachelor of Business degree for students who achieve a minimum of 50% in all subjects.

It is an accelerated study option for students interested in pursuing a career in a commerce or business-related field, but may not have met the direct entry requirements to UOW. Intensive study patterns allow Diploma graduates to qualify for university entrance in minimum time.

Tertiary skills development embedded in all subjects in the Diploma of Business prepares you for successful participation in the second year of the degree, with an emphasis on a range of oral, written and presentation skills, including group work.

Build your IT skills with a Diploma of Information Technology and gain a guaranteed* pathway into the second year of a Bachelor of Information Technology, Bachelor of Business Information Systems or Bachelor of Bachelor of Computer Science at UOW.

This Diploma covers information systems, information technology and business topics including:

- Techniques and technologies of structured systems analysis.
- Major Information Systems found in a typical business.
- Structured programming, concepts and practice of object oriented programming.
- Fundamental database concepts and skills in the design and manipulation of relational databases.

To prepare you for university study, the program provides preparatory tertiary academic skills subjects as well as relevant business subjects.

The Diploma of Information Technology is a recognised higher education award, which can be used to pursue entry-level career opportunities such as web designer, help desk support, computer technician and IT sales consultant.

* To successfully complete the program you must achieve 50% in all subjects. You may progress to the relevant Bachelor degree if you achieve 50% in at least six subjects.

The Diploma of Legal Services is delivered by highly qualified practising legal professionals who are experts in their fields. The course includes a mandatory work placement component that will be organised at reputable organisations.

A legal services career will make you an essential support to Australian legal practitioners. Working closely with legal practitioners, your talents and strengths will be put to good use. Showcasing your passion for conducting research, reporting and preparing important legal documents, a career in the legal services industry will engage you and enable you to develop your already credible attributes.

DELIVERY METHODS

The course is delivered over 12 months (3 sessions) and may incorporate a variety of delivery methods:

- Face-to-face lectures and workshops
- Online content (please note: students require proficient computing skills to be able to access online materials and navigate around an online learning environment)
- On-the-job learning
- Hands-on experience in work placements

PROGRESSION TO UOW

Students who successfully complete the Diploma of Legal Services can apply for entry to the UOW Bachelor of Arts through the Universities Admissions Centre (UAC) and receive 48 unspecified credit points of credit transfer towards this degree (2nd year). Students who successfully complete the Diploma of Legal Services may also use this qualification to apply for a number of Bachelor degrees and may also be eligible to receive credit points of recognised prior learning. See UOW Course Finder for information on eligible degrees.

HOW TO APPLY

UNDERGRADUATE DEGREES
If you’re currently completing your HSC (or interstate equivalent) or the International Baccalaureate, you must apply to UOW through the Universities Admissions Centre (UAC) or the equivalent in your state.

The Australian Tertiary Admission Rank (ATAR) and International Baccalaureate (IB) cut-offs for UOW courses are listed in the UAC Guide and website, and also in this guide. These cut-offs are based on the 2016 ATAR requirements and should be used as a guideline only. Generally, for admission to UOW, students need to achieve the minimum ATAR score (or equivalent) that applies to their chosen degree. Please check if your course of interest has additional entry requirements, such as a supplementary application form, an audition or interview. Course information, including ATARs, entry requirements and course structure is also available at coursefinder.uow.edu.au

For details of the UAC application process, visit uac.edu.au

EARLY ADMISSION
This program is available to Australian and international students receiving an ATAR, IB or interstate equivalent in 2016. Visit www.edu.au/early for a detailed description of the Early Admission application process. Applications open on 1 August 2016.

MATURE AGE STUDENTS (NON SCHOOL LEAVER)
You are considered a Mature Age student if you have previously completed the HSC (or equivalent), TAFE or other tertiary studies. Visit www.edu.au/future/mature for all application details.

POSTGRADUATE DEGREES
You can read in-depth program descriptions, review the entry requirements and find out more about costs for all postgraduate courses at www.edu.au/future/postgrad

HOW TO APPLY

apply.uow.edu.au

You can apply online for all postgraduate degrees. Alternatively you can download an application from the above website. There is no application fee for applying to UOW.

APPLICATION CLOSING DATES
There are various application closing dates for postgraduate degrees. The date will depend on the session, campus, delivery mode and of course if you are applying for a research or coursework degree. Closing dates for each degree are included with the complete course descriptions at www.edu.au/coursefinder

UOW COLLEGE
You can apply online or directly to UOW College. For specific information, visit uowcollege.edu.au/apply

INFORMATION EVENINGS - COME AND TALK TO US
UOW will be holding Information Evenings on campus and in a number of cities across NSW. Students in Years 10–12 and their parents are invited to attend and find out about UOW degrees, Early Admission, Scholarships, Bonus Points and more. It’s a great opportunity to see what UOW has to offer for 2017. Bookings for these events are made at wow.edu.au/future/events

UOW STAFF WILL ALSO BE AT MAJOR SYDNEY CAREERS FAIRS

Western Sydney Careers Expo 16-19 June
UOW Liverpool Information Evening 20 June
UOW Parramatta Information Evening 21 June
UOW Bankstown Information Evening 22 June
