

---

## MEDI350: Research Projects

### Subject Outline

12 credit points

### Subject Information

**Annual, 2024**, Wollongong

On Campus

There are no set lecture or tutorial classes for this subject. Instead, MEDI350 is an opportunity to work with an academic within the School of Medical, Indigenous and Health Sciences (MIHS) on a particular research field. The requirement to attend campus or work online will depend on the nature of the project. For example, some projects may require testing patients using specialised equipment on campus, while other projects may involve examining existing data sets or literature reviews that are entirely conducted online. Students should speak to their potential supervisor about the requirements of the project as part of the project selection process. Please contact the Subject Coordinator for assistance.

**Note:** This is a 12 credit point subject offered in multiple instances. Student can choose to enrol into Autumn (12 credit points), Spring (12 credit points) or Annual (6 credit points in Autumn, 6 credit points in Spring). Students must discuss their enrolment intentions with their Supervisor to confirm Supervisor availability and project timeline.

*UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.*

### The Faculty of Science, Medicine and Health

The Faculty of Science, Medicine and Health offers a range of undergraduate and postgraduate programs designed to meet the needs of a diverse student population. We carry out world-leading research which is strongly aligned with our teaching program.

As a student of our faculty, you will be actively engaged in learning with extensive clinical experiences, use of advanced educational technologies and opportunities for enriching work experience. More information about the Faculty of Science, Medicine and Health and our School is available on our web pages:

<https://www.uow.edu.au/science-medicine-health/>

---

### Teaching Staff

<b>Teaching Role</b>	Coordinator
<b>Name</b>	Associate Professor Katrina Green
<b>Telephone</b>	61 2 4252 8506
<b>Email</b>	<a href="mailto:kweston@uow.edu.au">kweston@uow.edu.au</a>
<b>Room</b>	Building 42, Room 314
<b>Consultation Times</b>	Email for an appointment

### **Teaching Staff Additional Information**

**Enrolment: Enrolment is different for MEDI350.** Students can enrol into MEDI350 once they have an agreed supervisor and project. This occurs close to the start of the semester. The Subject Coordinator will assist students to identify a project and then help students with the enrolment process. Please contact the coordinator if you are interested in undertaking MEDI350 and meet the eligibility criteria for entry (including third year student with minimum 65 WAM).

## Expectations of Students

UOW values are intellectual openness, excellence and dedication, empowerment and academic freedom, mutual respect and diversity, recognition and performance. We will provide a safe, equitable and orderly environment for the University community, and expect each member of our community to behave responsibly and ethically (UOW Student Conduct Rules <https://documents.uow.edu.au/about/policy/learning/index.html> ).

We expect that students demonstrate these values and professional behaviour, both face to face and online, making genuine efforts to complete their studies successfully, arriving on time to class, taking part constructively in class discussions and activities, demonstrating appropriate professional and ethical conduct in all communication with UOW staff and community members, and submitting assignments on time (or completing a request for Academic Consideration in advance if needed).

## Communication and eLearning Etiquette

Guidelines on the use of email to contact teaching staff, mobile phone use in class and information on the university guide to eLearning 'Netiquette' can be found at <https://www.uow.edu.au/student/learningcoop/software/emailetiquette/index.html>

### Guiding Communication Principles for Students

**Moodle** Announcements will be the primary platform for communication of general information to students

- Students should ensure they regularly check the main announcements forum at the top of each subject's Moodle site. Information distributed via a Moodle Announcement MAY not be duplicated on any other forum on the Moodle site.
- Moodle Discussion forums pertinent to specific assignments will be used but will not replace or be used for overarching subject announcements.
  - Assignment discussion forums for specific assignments will be clearly labelled in the forum description to identify the purpose of the forum (e.g. 'Please ask any questions you have about Assessment Task 1 in this discussion forum') - students should check and ask any assignment questions on these forums and not through email.
  - The Moodle assignment discussion forums should always be used in the first instance when inquiring about assessment tasks.
- It is the student's responsibility to check all subject Moodle sites regularly for information and notifications.

**SOLS messages** will be used for all central communication relating to the following:

- Administrative matters relating to student enrolment
- Critical information relating to course or subject, e.g. Changes to assignments, policy updates, class cancellations or changes
- Timetable information
- Security and emergency information
- Students are encouraged to check SOLS messages daily as these messages are often of high priority

SOLS and Moodle announcements can NOT be responded to.

### Email

- Communication to UOW staff by students should only be via a UOW email account
- In relation to assessment questions, Moodle assignment forums should be used rather than email.

Remember to use the same principles when communicating online as you would face-to-face. Be clear and respectful and communicate with the same consideration you would expect from others.

## Related Policies

- Online and email etiquette <https://tr.uow.edu.au/uow/file/976ffde2-b892-42cf-b20b-5c7a65bc08cc/1/Overview%20of%20Online%20and%20Email%20Etiquette.pdf>
- Using UOWmail <https://www.uow.edu.au/student/learning-co-op/technology-and-software/uowmail/>
- Inclusive language guideline <https://documents.uow.edu.au/about/policy/students/UOW140611.html>
- The Student Charter <https://www.uow.edu.au/student/charter/>

## Cyber Bullying

The University is committed to providing a safe, respectful, equitable and orderly environment for the University community, and expects each member of that community to behave responsibly and ethically. Students must comply with the University's [Student Conduct Rules](#) and related policies including the [IT Acceptable Use Policy](#) and [Bullying Prevention Policy](#), whether undertaking their studies face-to-face, online.

For more information on appropriate communication and etiquette in the online environment please refer to the guide [Online and Email Etiquette](#) or at <https://www.uow.edu.au/student/learning-co-op/technology-and-software/email-etiquette/>.

# Section A: General Information

## Learning Outcomes

### Subject Learning Outcomes

On successful completion of this subject, students will be able to:

1. Critically evaluate scientific literature
2. Plan, design and perform an experiment/investigation
3. Collect and analyse data sets
4. Evaluate data and synthesise into ideas and concepts
5. Communicate research design, results and ideas to a general audience
6. Place specific research area into a broader scientific setting
7. Better understand the scientific process through the experience of research
8. Work as a member of a team (where applicable)

### Subject Description

This subject provides an opportunity for students to participate in a research project in one of the following discipline areas; Medical/Biomedical Science, Indigenous Health, Exercise Science, Exercise Rehabilitation and Nutrition. Students will gain experiences that normally include; experimental design, data collection, analysis, interpretation and report writing plus oral and poster presentation. The subject is particularly recommended for students intending to undertake further under- or postgraduate research based studies.

### Course Handbook

Information about subject pre-requisites, co-requisites and restrictions as well as course completion requirements and Course Learning Outcomes can be found in the Course Handbook <https://www.uow.edu.au/handbook/index.html>.

## Subject Details: Practical Activities, eLearning, Readings and Materials

### Subject eLearning

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via your SOLS page.

### Safety Guidelines

The rules below are general rules that are required when participating in labs or practical activities. Before commencing these activities you are to ensure that you understand specific procedures and policy related to safety.

- All first year students undertaking Chemistry (CHEM101/102/104/105) must complete the Moodle WHS Induction (see details below)
- Before commencing any activity you are to ensure that you understand specific procedures and policy related to the lab in which you work and safety in general.
- You may need to review a Risk Assessment and complete a Participant Acknowledgement form before commencing any experiments/practical work. These materials will be made available by the lab supervisor/Subject Coordinator.
- You must inform the Subject Coordinator of any medical conditions which may impact upon your ability to participate in these activities before commencing the practical.
- All Reasonable Adjustment cases (Access Plans) must be discussed with the Subject Coordinator prior to commencing the activity.

- Participation in the lab/practical/field/simulation activities may be denied to students who do not abide by these, and other conditions which may be specified by the Subject Coordinator.
- Never use any equipment or attempt any experiment without checking the safety implications with your laboratory supervisor or experienced delegated laboratory worker.
- Undergraduate students are not permitted to work after hours unless there is appropriate approval and supervision.

### **APPLIED Work Integrated Learning**

This subject has 'Applied WIL'. Students in this subject will experience both coursework and a work-related opportunity that typically includes interaction and feedback with industry professionals.

### **Additional Subject Details**

- If you are interested in enrolling in MEDI350, please contact the Subject Coordinator prior to the start of session to register your interest. The Subject Coordinator will hold an Information Session in the weeks prior to session. Students who have registered their interest in the subject will be contacted with the details of the Information Session. This session will detail the projects on offer, provide information about the subject, as well as the process for enrolment.
- A list of projects will be made available at the Information Session. In addition to the list of projects on offer, students are also encouraged to contact academics that they may wish to work with and identify a preferred project and supervisor.
- Enrolment occurs once a project and supervisor have been identified, and the student meets the eligibility criteria - please note that students cannot add this subject directly.
- Students will require a minimum credit average to be eligible for enrolment into MEDI350.
- The Subject Coordinator will assist each student with identifying a project and the enrolment process.

### **United Nations Sustainable Development Goals (SDGs)**

The United Nations Sustainable Development Goals (SDGs) are a blueprint for countries to work in partnership to achieve a sustainable future for all. The 17 SDGs recognise that ending poverty and other deprivations go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests. (Source: <https://sdgs.un.org/goals>). MEDI350 Research Topics aligns with SDG3 (Good Health and Well-being), SDG 4 (Quality Education), and SDG9 (Industry, Innovation and Infrastructure).

### **Recommended Readings and Other Resources**

Your Supervisor will provide guided reading of journal articles relevant to your area of research.

This is not an exhaustive list of references. Students should also use the library catalogue and databases to locate additional resources.

### **Lectures, Tutorials and Attendance Requirements**

#### **Lecture Times \***

*UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.*

Up to date timetable and delivery information is located at <http://www.uow.edu.au/student/timetables/index.html>

You can access your personal timetable by logging into SOLS and selecting 'My Timetable'

### Lecture Program: Autumn Session \*

Week	Commencing	Topics Covered
	15 Apr 2024	Mid-Session Recess
	03 Jun 2024	Study Recess

### Lecture Program: Spring Session \*

Week	Commencing	Topics Covered
	30 Sep 2024	Mid-Session Recess
	28 Oct 2024	Study Recess
	02 Nov 2024	Examinations
	09 Nov 2024	Examinations

\* The above times and program may be subject to change. Students will be notified of any change via SOLS.

### Additional Lecture Comments

There are no set classes for this subject.

### Lecture Recording

The University of Wollongong supports the recording of UOW educational content as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience.

If you make your own recording of a lecture, class, seminar, workshop or any other educational session provided as part of your course of study you can only do so with the explicit permission of the lecturer and those people who are also being recorded.

You may only use educational content recorded through the delivery of subject or course content, whether they are your own or recorded by the university, for your own educational purposes. Recordings cannot be altered, shared or published on another platform, without permission of the University, and to do so may contravene the University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with lecture recording technology, and made available via the subject Moodle site within 48 hours.

### Your Privacy - Lecture Recording

In accordance with the Student Privacy & Disclosure Statement, when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), or via the delivery of online content therefore the University further advises students that:

- Lecture recordings are made available to students, university staff, and affiliates, securely on the university's IT Platforms and via the subject Moodle eLearning site;
- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;
- Recordings are stored securely for up to four years

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed please refer to the University's Privacy Policy or consult our Privacy webpage <https://www.uow.edu.au/privacy/>

## **Recent Improvements to Subject**

The Faculty of Science, Medicine and Health is committed to continual improvement in teaching and learning. In assessing teaching and learning practices in a subject, the Faculty takes into consideration student feedback from many sources. These sources include direct student feedback to tutors and lecturers, feedback through Science, Medicine and Health Central, responses to the Subject and Course Evaluation Surveys. These important student responses are used to make ongoing changes to subjects and courses. This information is also used to inform systemic comprehensive reviews of subjects and courses.

## **Extraordinary Changes to the Subject Outline**

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the amendment, where practicable, prior to the amendment being finalised.

## **Learning Analytics**

Learning Analytics data (such as student engagement with Moodle, access to recorded lectures, University Library usage, task marks, and use of SOLS) may be used by the Subject Coordinator and your faculty's Head of Students to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to <https://www.uow.edu.au/about/privacy/index.html>

## Section B: Assessment

### Assessment Summary

Assessment Item	Form of Assessment	%
Assessment 1	Proposal	20%
Assessment 2	Presentation	20%
Assessment 3	Report	60%
	<b>TOTAL MARKS</b>	100%

**Please note:** Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

A formative assessment activity (with written or verbal feedback) will be conducted before census date - please see [UOW Key Dates](#).

### Assessment 1: Proposal - Proposal Document

<b>Marking Criteria</b>	Each research field has unique ways of developing research proposals. As this is the first major piece of scientific writing in this subject, students should work with their Supervisor in the development of the proposal relevant to the field of research. Supervisors are encouraged to provide appropriate feedback on student drafts, for the purpose of helping students to understand how to develop a research proposal and their scientific writing skills. Proposal documents are marked by the Supervisor using the Proposal Document Marking Guide. Proposals are marked out of 10 and are worth 20% of the final grade.
<b>Length</b>	8 double spaced typed pages (excluding references, tables and figures).
<b>Weighting</b>	20%
<b>Assessment Due</b>	08 Apr 2024 (Monday in Autumn Week 7) Final submission time: 5:00pm
<b>Type of Collaboration</b>	Individual assessment
<b>Style and format</b>	Written document. Template, examples and the marking guide are available on Moodle.
<b>Assessment submission</b>	Online via Moodle  This assessment has been set up to be checked by Turnitin, a tool which helps you check whether you have referenced correctly. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality report. You may then make any changes that may be required and resubmit your final version by the due date.
<b>Assessment return</b>	Supervisors will mark the proposal and send the confidential completed Marking Guide containing the student's grade to the Subject Coordinator. The Subject Coordinator will review the Marking Guide, proposal document and the Turnitin report, then make recommendation on the final grade for this assessment. Results will be released to students via SOLS. Feedback will be provided by the Subject Coordinator, based on comments from the Supervisor.
<b>Detailed information</b>	The research proposal is a concise written report (no more than 8 typed double spaced A4 pages, note: references, figures, diagrams etc are not

	<p>included in the page limit) that is an up to date synopsis of the current state of the research area including major published papers in the area.</p> <p>The proposal includes an Introduction, which explains the area of research, including detailed information about what is already known in the specific field (i.e. a literature review outlining the area of research, identifying gaps in the existing body of research that leads the reader towards the aims of the proposed research). Having established the current state of research in the area, introduced all of the concepts around the proposed research, and highlighted gaps/issues that the proposed research will address, it then needs to lay out the aims of the proposed research. Aims should be a specific question(s) that the proposal research will seek to answer and directly testable using the proposed methods. Aims should be followed by the hypotheses. Hypotheses should directly answer the aims.</p> <p>The proposal should then present the Methods / Plan for experimentation, data collection etc that is going to take place as part of the proposed research. Methods should seek to answer the aims and determine whether hypotheses can be accepted (or not).</p> <p>The form of the proposal is reasonably open as the form of research may vary greatly between different projects. Proposals are often organised under the common headings of Title, Introduction/Background, Project Aims/Hypotheses, Materials and Methods, Expected Outcomes/Significance, References. The proposal does not need to absolutely follow this formula but it does need to ensure that the work and conclusions of other researchers are cited in the text and a full list of references is provided at the end of the document.</p>
--	---

## Assessment 2: Presentation - Final Research Poster Presentation

<b>Marking Criteria</b>	Details of the presentation and marking criteria will be provided on the Moodle site.
<b>Length</b>	Details will be provided on the Moodle site.
<b>Weighting</b>	20%
<b>Assessment Due</b>	21 Oct 2024 (Monday in Spring Week 13)
<b>Type of Collaboration</b>	Individual assessment and group work
<b>Style and format</b>	Students should work with their Supervisor to develop the presentation. Generally, the format would include: Title, Introduction, Aims/Hypotheses, Results, Discussion, Significance of the Research, Acknowledgements (where relevant). The presentation should contain an appropriate amount of text, images, figures, tables and should be visually appealing and professional.
<b>Assessment submission</b>	Students will be required to present their submission on the day. Timing details will be provided by the Subject Coordinator via email closer to the due date. All students are expected to attend the presentation session and engage in discussions appropriately. Presentations will be assessed by the Subject Coordinator and/or a panel of academics / higher degree research (PhD) students. An average score will be awarded to each student.
<b>Assessment return</b>	Grades will be released via SOLS. Feedback will be emailed to students by the Subject Coordinator.
<b>Detailed information</b>	

### Assessment 3: Report - Final Research Report

<b>Marking Criteria</b>	The final report will be marked by the Subject Coordinator. Marks will be awarded based on the quality and strength of the research report, depth, creativity, writing and connection to the scientific literature, presentation of results, interpretation of results and ability to position results within the context of the existing literature. The MEDI350 Final Report Marking Rubric is available on Moodle.
<b>Length</b>	8 double spaced A4 pages
<b>Weighting</b>	60%
<b>Assessment Due</b>	25 Oct 2024 (Friday in Spring Week 13) Final submission time: 5:00pm
<b>Type of Collaboration</b>	Individual assessment
<b>Style and format</b>	8 x A4 pages, double-spaced size 12 font. Page limit does not include references, tables or figures. Students should work with their Supervisor to develop the final report. Supervisors are encouraged to provide appropriate feedback on drafts to enable students to develop their scientific writing style and understanding of how to produce a quality scientific report. A document template, examples of previous student reports and the Final Report Marking Rubric can be viewed on Moodle. Generally, the Introduction would be a concise overview of the scientific area and gaps in the literature that lead the reader towards the aims and hypotheses of the study. The methods are concise though reproducible. Results are presented with appropriate statistics, with figures and tables in publication quality. Figures and tables are referred to in the text and contain explanatory legends / titles, as appropriate. The discussion details the findings in the context of the existing literature, with a wide range of appropriate references used. Conclusions, limitations of the work and future recommendations are included towards the end of the discussion.
<b>Assessment submission</b>	Online via Moodle  This assessment has been set up to be checked by Turnitin, a tool which helps you check whether you have referenced correctly. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality report. You may then make any changes that may be required and resubmit your final version by the due date.
<b>Assessment return</b>	Feedback will be provided to students by the Subject Coordinator via email.
<b>Detailed information</b>	As above.

### Minimum Requirements to Pass this Subject

To receive a pass in this subject a total mark of 50% or more must be achieved. In addition, failure to meet any of the minimum performance requirements is grounds for awarding a Technical Fail (TF), even where the total marks accumulated are greater than 50%.

The minimum performance requirements for this subject are:

- fulfilling of all WH&S requirements of the subject
- attempt all assessment tasks
- meet the minimum participation requirements as set out below.

### Minimum Student Attendance and Participation

It is expected that students will allocate a minimum of 12 (normally 16-24 hrs) hours per week to this subject, including any required class/lab attendance, completion of prescribed readings and assessment tasks.

Student participation in research activities as required by the research supervisor (to be organised in combination with the research supervisors) is essential. The biggest area for a potential Technical Failure in this subject is where a student in a group opts out of equal participation – if this occurs a Technical Fail grade may be awarded. Therefore, students who do not meet minimum participation requirements may be awarded a Technical Fail (TF) for this subject.

Absences will require the submission of an application for Academic Consideration via SOLS and the presentation of suitable documentation, for example a Medical Certificate, to Student Central as soon as practical. For further details about applying for academic consideration visit the Student Central webpage: <http://www.uow.edu.au/student/central/academicconsideration/index.html>

### UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here <https://www.uow.edu.au/student/exams/results/>. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy: <https://documents.uow.edu.au/about/policy/alphalisting/UOW222910.html>

### Assessment Learning Outcome Matrix

Learning Outcomes	Measures - Assessment weighting		
	Assessment 1 Proposal Document  (20%)	Assessment 2 Final Research Poster Presentation  (20%)	Assessment 3 Final Research Report  (60%)
Critically evaluate scientific literature	✓	✓	✓
Plan, design and perform an experiment/investigation	✓	✓	✓
Collect and analyse data sets		✓	✓
Evaluate data and synthesise into ideas and concepts		✓	✓
Communicate research design, results and ideas to a general audience	✓	✓	✓
Place specific research area into a broader scientific setting	✓	✓	✓
Better understand the scientific process through the experience of research		✓	✓
Work as a member of a team (where applicable)	✓	✓	✓

### Submission, Retention and Collection of Written Assessment

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

## **Extensions**

Students requesting extensions of time to submit an assessment task, deferred exam, alternative form of assessment or exemption of a compulsory attendance requirement must apply online via SOLS and provide documentary evidence within three working days of the assessable item's due date for their request to be considered. **For information on the Policy, eligibility and how to apply see:**  
<https://www.uow.edu.au/student/admin/academic-consideration/>

## **Late Submission Penalty**

Late submissions will receive a penalty of 5% per day (or part thereof) of the total possible marks for the assessment task for up to ten (10) days after the due date and time for submission (including weekends, and public holidays), or, where an extension has been granted, for up to ten (10) days after the nominated extension deadline. For the purposes of this penalty a weekend (Saturday and Sunday) will be regarded as two days.

No marks will be awarded for work submitted:

- more than ten (10) days after the due date, or
- after the assessment has been returned to the students; whichever is applicable.

In such an instance, a mark of zero and a result of Fail for the task will be applied.

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

## **Quiz Completion**

Where there is a quiz component, any student who has not attempted and submitted a quiz within the specified timeframe will receive 0 (zero) marks for this assessment type. The quiz will not be reopened, and no alternative assessment will be set without extenuating circumstances and an approved academic consideration application. Late penalties do not apply to quizzes. If a student attempts a quiz but for technical issues is not able to submit the quiz, students must show evidence and apply for an academic consideration to sit a supplementary quiz.

## **Collection**

Students will be notified when they can collect or view their marked assessment. In accordance with University Policy marked assessments will usually only be held for 21 days after the declaration of marks for that assessment.

## **Retention**

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

## **Scaling**

Marks awarded for any assessment task or part of any assessment task, including an examination may be subject to scaling at the end of the session. Marks will be scaled only when unpredicted circumstances occur and in order to ensure fairness of marking across groups of students. The method of scaling will depend on the type of scaling required by the circumstances. When scaling is deemed necessary, it will follow a detailed consideration by the Unit Assessment Committee and/or the Faculty Assessment Committee of the marks of the group of students concerned. Scaling will not affect any individual student's rank order within their cohort. For more information please refer to Standards for the Finalisation of Student Results Schedule 1: Scaling Guidelines <https://www.uow.edu.au/about/policy/UOW039331.html> for details.

## Supplementary Assessment

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary Exams refer to: <http://www.uow.edu.au/student/exams/aboutsupp/index.html>

## Review and Appeal of Academic Decisions

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to <https://documents.uow.edu.au/about/policy/students/UOW189967.html>

## Assessment Quality Cycle

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

## Academic Integrity

The University's Academic Integrity Policy, faculty handbook and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism <https://www.uow.edu.au/about/policy/UOW058648.html>

## Referencing

The Author-Date (Harvard) referencing system should, unless otherwise specified for a particular assessment (check Details of Assessment Tasks), be utilised. A summary of the Harvard system can be accessed on the Library website at: <http://uow.libguides.com/refcite>

# Section C: General Advice for Students - Policies and Procedures

## Student Services and Support

There are a range of services available to students that are provided free of charge. A good place to get to know services that may be of use to you is the Get Started @ UOW web page, accessed here <https://getstarted.uow.edu.au/index.html> or search for "Get Started @ UOW". Services available include:

Service	Link to information about the service
Aboriginal & Torres Strait Islander	<a href="https://www.uow.edu.au/wic/about1/index.html?ssSourceSiteId=getstarted">https://www.uow.edu.au/wic/about1/index.html?ssSourceSiteId=getstarted</a>
Careers advice	<a href="https://www.uow.edu.au/careers/index.html?ssSourceSiteId=getstarted">https://www.uow.edu.au/careers/index.html?ssSourceSiteId=getstarted</a>
Counselling	<a href="https://www.uow.edu.au/student/counselling/index.html?ssSourceSiteId=getstarted">https://www.uow.edu.au/student/counselling/index.html?ssSourceSiteId=getstarted</a>
Student Accessibility and Inclusion (SAI)	<a href="https://www.uow.edu.au/student/disability/index.html?ssSourceSiteId=getstarted">https://www.uow.edu.au/student/disability/index.html?ssSourceSiteId=getstarted</a>
Information Tech.	<a href="https://www.uow.edu.au/its/index.html?ssSourceSiteId=getstarted">https://www.uow.edu.au/its/index.html?ssSourceSiteId=getstarted</a>

## Student Support Adviser (SSA)

If you have a temporary or ongoing issue or a problem that is affecting your study, including issues that are related to belonging to an equity group, then the Student Support Advisers may be able to help. There are Student Support Advisers available to assist students who are studying at all UOW Campuses and in all UOW Faculties. Contact details can be found on the UOW website: <https://www.uow.edu.au/student/services/SSA/contact/index.html>

## Student Advocacy Service

The Student Advocacy Service (SAS) is free, confidential and independent service for all UOW students. The SAS provides advocacy and referral for a range of academic, procedural and administrative issues. For more information visit: <https://www.uow.edu.au/student/support-services/advocacy/>

## Student Central

Student Central is your primary administrative and information contact during your studies. There are service representatives from Student Service, Accommodation Services, BUPA, Global Student Mobility (Exchange) and Scholarships and Sponsorships.

Our purpose is to ensure students have access to the information they need, at the time they need it. We can help with a wide range of enquiries, some are:

- Applying for academic consideration
- Official documentation requests
- Updating personal details
- Student ID card replacement
- Opal cards and transport
- Education verification
- Fees and charges
- Scholarships and grants
- Digital and printed academic documents
- Overseas health cover
- Studying abroad and exchange

- SOLS password and login help
- Student feedback

Student Central contacts:

<b>Phone</b>	1300 275 869 (1300 ASK UOW) or +61 2 4221 3927
<b>Email</b>	askuow@uow.edu.au
<b>Online</b>	Enquiry Form( <a href="https://bps.uow.edu.au/suite/sites/student-enquiry/page/submit-enquiry">https://bps.uow.edu.au/suite/sites/student-enquiry/page/submit-enquiry</a> )

## Library Services

Save yourself time and enhance your studies: connect with information specialists and resources anytime, anywhere.

- For Library support connect with [Live Chat](#) or [contact the Library](#).
- For self-help see [Frequently Asked Questions](#) or browse [Library guides](#) to find information, databases and skills tutorials.
- [Research consultations](#) are available to UOW Postgraduate, Honours and Deans Scholar students.

## Academic Integrity Policy

Academic integrity involves upholding ethical standards in all aspects of academic work, including learning, teaching and research. It involves acting with the principles of honesty, fairness, trust and responsibility and requires respect for knowledge and its development. The Policy can be found at:

<http://www.uow.edu.au/about/policy/UOW058648.html>

## Code of Practice - Research

This Code mandates the current policy and best practice relating to procedures for responsible research. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058663.html>

## Code of Practice - Honours

This Code sets out the responsibilities of all parties involved in managing students undertaking Honours Programs. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058661.html>

## The Code of Practice - Work Integrated Learning (Professional Experience)

The Code of Practice - Work Integrated Learning (Professional Experience) sets out what is expected from students, the University and Host Organisations in providing work integrated learning professional experience programs. It applies to professional experience programs that form the whole or part of a subject or course offered at the University. The Code assists in promoting a productive work integrated learning experience for students and in promoting relevant UOW Work Integrated Learning Design Principles.

<http://www.uow.edu.au/about/policy/UOW058662.html>

## Copyright Policy

The purpose of this Policy is to outline responsibilities and procedures regarding the use of third party copyright material, with the objectives of reducing staff and UOW exposure to the risks associated with the use of third party copyright material, assisting staff to make full legal use of the materials at their disposal by clearly identifying responsibilities and promoting copyright compliance. The Policy can be found at:

<http://www.uow.edu.au/about/policy/alphalisting/UOW026670.html>

## **Course Progress Policy**

The Course Progress Policy establishes the requirements, definitions and procedures to be used in determining the standards of acceptable course progress. The Policy can be found at:

<http://www.uow.edu.au/about/policy/UOW058679.html>

## **Examination Rules and Procedures**

The UOW rules and procedures outline exam conditions, student conduct in exams, and the procedures for exam management. Further information can found here: <https://www.uow.edu.au/student/exams/>

## **Ethical or Religious Objection by Students to the Use of Animal and Animal Products in Coursework Subjects**

This policy provides a framework for recognition of and responses to students' ethical or religious objection to animal use in coursework subjects at the University of Wollongong. For the purpose of this policy, animal use includes killing of animals in experimental work, dissection of animals that are already dead, use of animal tissues, use of animal-derived products (such as sera). These uses are relevant to teaching and assessment.

Further information about this policy can be found here:

<http://www.uow.edu.au/about/policy/UOW058708.html>

## **Coursework Rules**

The Coursework Rules (hereafter the Rules) govern the admission, enrolment, progression through, and qualification for a coursework award offered by the University. Further information can be found here:

<https://documents.uow.edu.au/about/policy/UOW262890.html>

## **Human Research Ethics**

The Human Research Ethics Committee protects the welfare and rights of the participants in research activities.

Further information can be found here: <http://www.uow.edu.au/research/ethics/human/index.html>

## **Inclusive Language Guidelines**

UOW endorses a policy of non-discriminatory language practice in all academic and administrative activities of the University. Further information is available from:

<http://www.uow.edu.au/about/policy/alphalisting/UOW140611.html>

## **Intellectual Property Policy**

UOW's Intellectual Property Policy provides guidance on the approach taken to Intellectual Property (IP), including its ownership, protection and exploitation. Further information about the management of IP is available at

<http://www.uow.edu.au/about/policy/UOW058689.html>

## **Review and Appeal of Academic Decisions Policy**

UOW aims to provide a transparent and consistent process for resolving a student concern about an academic decision that has affected their academic progress, including a mark or grade. Further information is available at:

<http://www.uow.edu.au/about/policy/UOW058653.html>

## **Student Academic Consideration Policy**

The purpose of the Student Academic Consideration Policy is to enable student requests for academic consideration for assessable components of a subject to be evaluated in a fair, reasonable, timely and consistent manner throughout the University. **For information on the Policy, eligibility and how to apply see:**

<https://www.uow.edu.au/student/admin/academic-consideration/>

## **The Student Charter - Your Rights and Responsibilities**

The Student Charter is based on principles that guide all members of the University and that promote responsible partnerships within and beyond the University community.

<http://www.uow.edu.au/student/charter/index.html>

## **Student Assignment of Intellectual Property (IP) Policy**

This policy applies to all Students (under-graduate and post-graduate) of the University of Wollongong (UOW). It may also apply to other persons by agreement. This policy sets out the approach taken by UOW in relation to Student assignment of intellectual property. Further information about this policy can be found here:

<http://www.uow.edu.au/about/policy/UOW058690.html>

## **Student Conduct Rules**

These Rules outline the required conduct of students of UOW, and direct staff and students to University Rules, standards, codes, policies, guidelines, procedures and other requirements which specify acceptable and unacceptable student conduct, and the management of alleged student misconduct.

<http://www.uow.edu.au/about/policy/UOW058723.html>

## **Teaching and Assessment: Assessment and Feedback Policy**

The purpose of this Policy is to set out the University of Wollongong's approach to effective learning, teaching and assessment, including the principles and minimum standards underlying teaching and assessment practice.

The Policy can be found at: <http://www.uow.edu.au/about/policy/alphalisting/UOW222905.html>

## **Teaching and Assessment: Code of Practice - Teaching**

This Code is a key document in implementing the University's Teaching and Assessment Policy and sets out the specific responsibilities of parties affected in relation to learning, teaching and assessment, as well as procedures for teaching staff. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058666.html>

## **Teaching and Assessment: Subject Delivery Policy**

This Policy sets out specific requirements in relation to the delivery of Subjects. The policy can be found at:

<http://www.uow.edu.au/about/policy/alphalisting/UOW222906.html>

## **Workplace Health & Safety Policy**

The Workplace Health and Safety (WHS) unit at UOW aims to provide structures, system and support to ensure the health, safety and welfare of all at the campus. Further information is available from:

<https://www.uow.edu.au/about/policy/alphalisting/UOW016894.html>
