Expectations of Students

UOW values are intellectual openness, excellence and dedication, empowerment and academic freedom, mutual respect and diversity, recognition and performance. We will provide a safe, equitable and orderly environment for the University community, and expect each member of our community to behave responsibly and ethically (UOW Student Conduct Rules <https://documents.uow.edu.au/about/policy/learning/index.html>).

We expect that students demonstrate these values and professional behaviour, both face to face and online, making genuine efforts to complete their studies successfully, arriving on time to class, taking part constructively in class discussions and activities, demonstrating appropriate professional and ethical conduct in all communication with UOW staff and community members, and submitting assignments on time (or completing a request for Academic Consideration in advance if needed).

Communication and eLearning Etiquette

Guidelines on the use of email to contact teaching staff, mobile phone use in class and information on the university guide to eLearning 'Netiquette' can be found at <https://www.uow.edu.au/student/learningcoop/software/email etiquette/index.html>

Guiding Communication Principles for Students

Moodle Announcements will be the primary platform for communication of general information to students

- Students should ensure they regularly check the main announcements forum at the top of each subject's Moodle site. Information distributed via a Moodle Announcement will not be duplicated on any other forum on the Moodle site.
- Moodle Discussion forums pertinent to specific assignments will be used but will not replace or be used for overarching subject announcements.
 - Assignment discussion forums for specific assignments will be clearly labelled in the forum description to identify the purpose of the forum (e.g. 'Please ask any questions you have about Assessment Task 1 in this discussion forum') - students should check and ask any assignment questions on these forums and not through email.
 - The Moodle assignment discussion forums should always be used in the first instance when inquiring about assessment tasks.
- It is the student's responsibility to check all subject Moodle sites regularly for information and notifications.

SOLS messages will be used for all central communication relating to the following:

- Administrative matters relating to student enrolment
- Critical information relating to course or subject, e.g. Changes to assignments, policy updates, class cancellations or changes
- Timetable information
- Security and emergency information
- Students are encouraged to check SOLS messages daily as these messages are often of high priority

Email

- Communication to UOW staff by students should only be via a UOW email account
- In relation to assessment questions, Moodle assignment forums should be used rather than email.

Remember to use the same principles when communicating online as you would face-to-face. Be clear and respectful and communicate with the same consideration you would expect from others.

Section A: General Information

Learning Outcomes

Subject Learning Outcomes

On successful completion of this subject, students will be able to:

1. Examine the quality and safety of an individual's healthcare experience through analysing patient narratives, patient stories and/or using personal reflection
2. Employ analytical techniques to assess factors impacting the context, delivery and provision of healthcare
3. Explore measurements of healthcare quality and safety to improve a specific area of healthcare practice
4. Apply quality improvement methodologies including the Plan-Do-Study-Act cycle to demonstrate how healthcare outcomes can be improved
5. Examine and apply the principles of clinical governance to improve the context, delivery and provision of healthcare

Subject Description

This subject focuses on developing skills and knowledge to improve patient outcomes in healthcare settings. Nurses and other health care professionals work within teams in complex environments and will need to use a systems focused approach to improve outcomes in healthcare services. Students completing this subject will gain knowledge and skills in clinical governance frameworks, learning from error, systems thinking, measuring indicators and outcomes, and using quality improvement methodology to enact change.

Course Handbook

Information about subject pre-requisites, co-requisites and restrictions as well as course completion requirements and Course Learning Outcomes can be found in the Course Handbook <https://www.uow.edu.au/handbook/index.html>.

Subject Details: Practical Activities, eLearning, Readings and Materials

Subject eLearning

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via your SOLS page.

Safety Guidelines

The rules below are general rules that are required in the nursing laboratory and simulation areas.

- Please be on time for all simulation laboratories. Admission to the laboratory or simulation class will be closed 10 minutes after the scheduled commencement time. If you arrive late, you may not be able to participate in the laboratory or simulation session.
- All Reasonable Adjustment cases (Access Plans) must be discussed with the Subject Coordinator prior to commencing the activity.
- It is your responsibility to ensure that you sign your name on your specific class roll book located in the foyer area of the laboratory and simulation area, prior to entering your class.
- If you cannot attend or were excluded from your designated laboratory or simulation session, you must immediately contact your subject coordinator who will advise you about what you must do. Please refer to your subject outline about attendance requirements.
- Appropriate attire must be worn for every laboratory or simulation session. No access will be granted to the laboratory or simulation areas without appropriate footwear.

- Please see the Simulation Technician/Assistant if you need to move any equipment including the manikins, beds, tables or other equipment in the simulation / laboratory environment. Please do not move simulators or manikins from their beds without assistance.
- Any accident, injury or near miss, potentially dangerous, malfunctioning or accident-prone equipment, fixtures or situation has to be reported promptly to the Simulation Technician/ Assistant or your demonstrator. The university approved 'Hazard and incident report form' must be completed and forwarded to the Head of School.
- If you have any allergies to latex, hand soaps, dressings or any other materials you could be exposed to during your laboratory or simulation class, please inform the Simulation Technician/ Assistant or your demonstrator.

FOUNDATIONAL Work Integrated Learning

This subject contains elements of 'Foundational WIL'. Students in this subject will observe, explore or reflect on possible career pathways or a work-related aspect of their discipline.

Educational Content Recording

The University of Wollongong supports the recording of UOW educational content as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience.

If you make your own recording of a lecture, class, seminar, workshop or any other educational session provided as part of your course of study you can only do so with the explicit permission of the lecturer and those people who are also being recorded.

You may only use educational content recorded through the delivery of subject or course content, whether they are your own or recorded by the university, for your own educational purposes. Recordings cannot be altered, shared or published on another platform, without permission of the University, and to do so may contravene the University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with lecture recording technology, and made available via the subject Moodle site within 48 hours.

Your Privacy - Educational Content Recording

In accordance with the Student Privacy & Disclosure Statement, when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), or via the delivery of online content therefore the University further advises students that:

- Lecture recordings are made available to students, university staff, and affiliates, securely on the university's IT Platforms and via the subject Moodle eLearning site;
- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;
- Recordings are stored securely for up to four years

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed please refer to the University's Privacy Policy or consult our Privacy webpage <https://www.uow.edu.au/privacy/>

Recent Improvements to Subject

The Faculty of Science, Medicine and Health is committed to continual improvement in teaching and learning. In assessing teaching and learning practices in a subject, the Faculty takes into consideration student feedback from many sources. These sources include direct student feedback to tutors and lecturers, feedback through Science, Medicine and Health Central, responses to the Subject and Course Evaluation Surveys. These important student responses are used to make ongoing changes to subjects and courses. This information is also used to inform systemic comprehensive reviews of subjects and courses.

This subject has been adjusted to be delivered remotely as well as face to face. Please see further information on Remote Learning for Students on the following link: <https://www.uow.edu.au/student/remote-learning/>

Extraordinary Changes to the Subject Outline

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the amendment, where practicable, prior to the amendment being finalised.

Learning Analytics

Learning Analytics data (such as student engagement with Moodle, access to recorded lectures, University Library usage, task marks, and use of SOLS) may be used by the Subject Coordinator and your faculty's Head of Students to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to <https://www.uow.edu.au/about/privacy/index.html>

Section B: Assessment

Assessment Summary

Assessment Item	Form of Assessment	%
Assessment 1	Quiz	0%
Assessment 2	Participation	20%
Assessment 3	Assignment	40%
Assessment 4	Assignment	40%
	TOTAL MARKS	100%

Please note: Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

All assessments are due in Australian Eastern time. If you are not currently in Eastern Australia, it is important to check the local time the following webpage will assist: <https://info.australia.gov.au/about-australia/facts-and-figures/time-zones-and-daylight-saving>.

A formative assessment activity (with written or verbal feedback) will be conducted before census date - please see [UOW Key Dates](#).

Assessment 1: Quiz - Formative

Marking Criteria	Online quiz in Moodle
Length	Ten multiple-choice questions
Weighting	0%
Assessment Due	11 Mar 2024 (Monday in Session Week 3) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Multiple-choice questions
Assessment submission	Online via Moodle
Assessment return	By census date (31/3/2024)
Detailed information	*This formative assessment occurs before the semester census date and does not contribute to the overall subject mark. It provides students with an opportunity to seek early feedback to determine if they are on track to meet the learning outcomes of the subject.

Assessment 2: Participation - Five Quizzes

Marking Criteria	Week 3, 5, 6, 8, and 9 (Quiz will open two days before the due date and close at 1700hrs on the due date) (5 quizzes worth 4% each of the weight, total weight 20%) The marking criteria for this assessment task are available in eLearning
Length	Ten multiple-choice questions for each quiz; a total of 50 questions.
Weighting	20%
Assessment Due	15 Mar 2024 (Friday in Session Week 3) 28 Mar 2024 (Thursday in Session Week 5) 05 Apr 2024 (Friday in Session Week 6) 26 Apr 2024 (Friday in Session Week 8)

	03 May 2024 (Friday in Session Week 9) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Quiz x 5 with 10 MCQ in each quiz
Assessment submission	Online via Moodle
Assessment return	Five days after completion of each quiz
Detailed information	Each quiz will consist of 10 multiple choice questions from a specified Module of Learning in Moodle. Specific details about the assessment task requirements are available in Moodle.

Assessment 3: Assignment - Promoting Clinical Excellence

Marking Criteria	The marking criteria for this assessment task are available in eLearning
Length	Fishbone diagram and 1000 words
Weighting	40%
Assessment Due	11 Apr 2024 (Thursday in Session Week 7) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Assignment
Assessment submission	Online via Moodle This assessment has been set up to be checked by Turnitin, a tool which helps you check whether you have referenced correctly. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality report. You may then make any changes that may be required and resubmit your final version by the due date.
Assessment return	15 working days from submission
Detailed information	This assignment requires you to analyse the causes of error in a patient story and identify how care could be improved using the clinical governance domains (leadership and culture; consumer partnerships; workforce; risk management; and clinical practice). Specific details about the assessment task requirements are available in Moodle.

Assessment 4: Assignment - Key performance indicator

Marking Criteria	The marking criteria for this assessment task are available in eLearning
Length	1000 words
Weighting	40%
Assessment Due	23 May 2024 (Thursday in Session Week 12) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Assignment
Assessment submission	Online via Moodle This assessment has been set up to be checked by Turnitin, a tool which helps you check whether you have referenced correctly. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you

	an originality report. You may then make any changes that may be required and resubmit your final version by the due date.
Assessment return	Release of end-of-session results
Detailed information	This assessment requires you to choose one (1) indicator of patient safety and write a structured assignment about how the indicator is used in a clinical setting and how the indicator can be used to improve care. Specific details about the assessment task requirements are available in Moodle.

Minimum Requirements to Pass this Subject

To receive a clear pass in this subject a total mark of 50% or more must be achieved. In addition, failure to meet any of the minimum performance requirements is grounds for awarding a Technical Fail (TF) in the subject, even where total marks accumulated are greater than 50%.

The minimum performance requirements for this subject are:

- attempt and submit all assessment tasks

Minimum Student Attendance and Participation

It is expected that students will allocate 12 hours per week to this subject, including any required class attendance, completion of prescribed readings and assessment tasks. Absences will require the submission of an application for Academic Consideration via SOLS and the presentation of suitable documentation, for example a Medical Certificate, to Student Central as soon as practical.

For further details about applying for academic consideration visit the Student Central webpage:

<http://www.uow.edu.au/student/central/academicconsideration/index.htm>

UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here

<https://www.uow.edu.au/student/exams/results/>. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy:

<https://documents.uow.edu.au/about/policy/alphabetlisting/UOW222910.html>

Submission, Retention and Collection of Written Assessment

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

Extensions

Students requesting extensions of time to submit an assessment task, deferred exam, alternative form of assessment or exemption of a compulsory attendance requirement must apply online via SOLS and provide documentary evidence within three working days of the assessable item's due date for their request to be considered. **For information on the Policy, eligibility and how to apply see:**
<https://www.uow.edu.au/student/admin/academic-consideration/>

Late Submission Penalty

Late submissions will receive a penalty of 5% per day (or part thereof) of the total possible marks for the assessment task for up to ten (10) days after the due date and time for submission (including weekends, and public holidays), or, where an extension has been granted, for up to ten (10) days after the nominated extension deadline. For the purposes of this penalty a weekend (Saturday and Sunday) will be regarded as two days.

No marks will be awarded for work submitted:

- more than ten (10) days after the due date, or
- after the assessment has been returned to the students; whichever is applicable.

In such an instance, a mark of zero and a result of Fail for the task will be applied.

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

Quiz Completion

Where there is a quiz component, any student who has not attempted and submitted a quiz within the specified timeframe will receive 0 (zero) marks for this assessment type. The quiz will not be reopened, and no alternative assessment will be set without extenuating circumstances and an approved academic consideration application. Late penalties do not apply to quizzes. If a student attempts a quiz but for technical issues is not able to submit the quiz, students must show evidence and apply for an academic consideration to sit a supplementary quiz.

Collection

Once your assignment has been marked and your Subject Coordinator releases results for the assessment you will be able to access feedback on your assignment within the assessment submission page on the Moodle site for this subject. This will include feedback within the marking guide, feedback comments and feedback files (where applicable) that provide you with your markers feedback on your written work. You will receive an automated notification that your assignment results are available for download / review within Moodle.

You can access feedback on your marked assignment on the Assignment submission page, when marks and feedback have been released to students, please note that the Feedback section appears at the bottom of the page

Your final mark in the assessment task will be posted within SOLS.

Feedback on quizzes, examinations and /or presentations:

Contact your lecturer/tutor/subject coordinator if you would like feedback on your assessment. In accordance with University Policy marked assignments will usually only be held for 21 days after the declaration of marks for that assignment.

Retention

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Scaling

Marks awarded for any assessment task or part of any assessment task, including an examination may be subject to scaling at the end of the session. Marks will be scaled only when unpredicted circumstances occur and in order to ensure fairness of marking across groups of students. The method of scaling will depend on the type of scaling required by the circumstances. When scaling is deemed necessary, it will follow a detailed consideration by the Unit Assessment Committee and/or the Faculty Assessment Committee of the marks of the group of students concerned. Scaling will not affect any individual student's rank order within their cohort. For more information please refer to Standards for the Finalisation of Student Results Schedule 1: Scaling Guidelines <https://www.uow.edu.au/about/policy/UOW039331.html> for details.

Supplementary Assessment

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary Exams refer to: <http://www.uow.edu.au/student/exams/aboutsupp/index.html>

Review and Appeal of Academic Decisions

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to <https://documents.uow.edu.au/about/policy/students/UOW189967.html>

Assessment Quality Cycle

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

Academic Integrity

The University's Academic Integrity Policy, faculty handbook and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism <https://www.uow.edu.au/about/policy/UOW058648.html>

Referencing

APA 7 referencing system should, unless otherwise specified for a particular assignment (check Details of Assessment Tasks), be utilised.

The APA Referencing Style is an author-date citation style. It has two main features:

- In-text citations, when you refer to another author's work you must cite your source by providing the last name(s) of the author(s) and the year of publication.
- The reference list which appears at the end of your assignment and includes a full description of each source you have cited, listing them in alphabetical order by the author's last name.

A summary of the APA 7 can be accessed on the Library website at <https://uow.libguides.com/refcite/apa-7>
