
CHEM103: Chemistry for Engineering

Subject Outline

6 credit points

Subject Information

Autumn, 2024, Wollongong

On Campus

On-Campus Delivery This subject is delivered in-person and includes on-campus or other location-based learning activities that are not designed for students studying Online/Distance. Lectures will be delivered both online and on campus while workshops and laboratory practicals will be held on campus. Students unable to attend campus or any other nominated physical delivery location should not enrol in this subject unless they have extenuating circumstances, judged by the subject coordinator(s) during the enrolment period with supporting documentation.

Contact Hours: 3 x 1 hr Lectures weekly; 3 x 2 hrs Practicals (Weeks 2, 4, 10), 5 x 2 hrs Workshops (weeks 3, 5, 7, 9, 11) and a Mid-session quiz (Week 8)

Please note: the subject timetable for CHEM103, of which your personalised timetable is a small part, is found at: <https://www.uow.edu.au/student/timetables/index.html>

Subjects with a delivery mode of On Campus and/or Flexible with International Student enrolments will be delivered in accordance with the ESOS National Code. That is, online learning experiences (such as lectures, tuition, and resources) will be supplementary to in-person learning experiences such as scheduled classes and/or scheduled contact hours.

UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.

The Faculty of Science, Medicine and Health

The Faculty of Science, Medicine and Health offers a range of undergraduate and postgraduate programs designed to meet the needs of a diverse student population. We carry out world-leading research which is strongly aligned with our teaching program.

As a student of our faculty, you will be actively engaged in learning with extensive clinical experiences, use of advanced educational technologies and opportunities for enriching work experience. More information about the Faculty of Science, Medicine and Health and our School is available on our web pages:

<https://www.uow.edu.au/science-medicine-health/>

Expectations of Students

UOW values are intellectual openness, excellence and dedication, empowerment and academic freedom, mutual respect and diversity, recognition and performance. We will provide a safe, equitable and orderly environment for the University community, and expect each member of our community to behave responsibly and ethically (UOW Student Conduct Rules <https://documents.uow.edu.au/about/policy/learning/index.html>).

We expect that students demonstrate these values and professional behaviour, both face to face and online, making genuine efforts to complete their studies successfully, arriving on time to class, taking part constructively in class discussions and activities, demonstrating appropriate professional and ethical conduct in all communication with UOW staff and community members, and submitting assignments on time (or completing a request for Academic Consideration in advance if needed).

Communication and eLearning Etiquette

Guidelines on the use of email to contact teaching staff, mobile phone use in class and information on the university guide to eLearning 'Netiquette' can be found at <https://www.uow.edu.au/student/learningcoop/software/emailetiquette/index.html>

Guiding Communication Principles for Students

Moodle Announcements will be the primary platform for communication of general information to students

- Students should ensure they regularly check the main announcements forum at the top of each subject's Moodle site. Information distributed via a Moodle Announcement MAY not be duplicated on any other forum on the Moodle site.
- It is the student's responsibility to check all subject Moodle sites regularly for information and notifications.

SOLS messages will be used for all central communication relating to the following:

- Administrative matters relating to student enrolment
- Critical information relating to course or subject, e.g. Changes to assignments, policy updates, class cancellations or changes
- Timetable information
- Security and emergency information
- Students are encouraged to check SOLS messages daily as these messages are often of high priority

SOLS and Moodle announcements can NOT be responded to.

Email

- Communication to UOW staff by students should only be via a UOW email account

Remember to use the same principles when communicating online as you would face-to-face. Be clear and respectful and communicate with the same consideration you would expect from others.

Related Policies

- Online and email etiquette <https://tr.uow.edu.au/uow/file/976ffde2-b892-42cf-b20b-5c7a65bc08cc/1/Overview%20of%20Online%20and%20Email%20Etiquette.pdf>
- Using UOWmail <https://www.uow.edu.au/student/learning-co-op/technology-and-software/uowmail/>
- Inclusive language guideline <https://documents.uow.edu.au/about/policy/students/UOW140611.html>
- The Student Charter <https://www.uow.edu.au/student/charter/>

Cyber Bullying

The University is committed to providing a safe, respectful, equitable and orderly environment for the University community, and expects each member of that community to behave responsibly and ethically.

Students must comply with the University's [Student Conduct Rules](#) and related policies including the [IT Acceptable Use Policy](#) and [Bullying Prevention Policy](#), whether undertaking their studies face-to-face, online.

For more information on appropriate communication and etiquette in the online environment please refer to the guide [Online and Email Etiquette](#) or at <https://www.uow.edu.au/student/learning-co-op/technology-and-software/email-etiquette/>.

Section A: General Information

Learning Outcomes

Subject Learning Outcomes

On successful completion of this subject, students will be able to:

1. Predict or analyse the macroscale properties of chemical or material systems by analysis of molecular scale properties
2. Apply principles of energy, heat, entropy, spontaneity, equilibrium and rate to predict or analyse the outcomes of chemical and physical processes
3. Apply the mole concept to material and energy quantities in chemical and physical processes
4. Apply chemical structure concepts to organic compounds especially in polymers and industrial materials to analyse or predict properties or uses
5. Perform lab based investigations safely, record experimental results, interpret and communicate conclusions based on observations

Subject Description

The 103 course provides an introduction to basic chemistry through topics applicable to engineering courses. Fundamentals: nomenclature and stoichiometry. Atomic theory, bonding and structure. Properties of matter. Reactions: thermochemistry, thermo dynamics, chemical equilibria, acid base equilibria and kinetics. Introductory organic chemistry. Environmental chemistry: pollution and pollution control. Electrochemistry: redox, galvanic cells, electrolysis and corrosion. Chemical basis of engineering materials such as metals, semiconductors, polymers, fuels, adhesives, concrete.

Course Handbook

Information about subject pre-requisites, co-requisites and restrictions as well as course completion requirements and Course Learning Outcomes can be found in the Course Handbook

<https://www.uow.edu.au/handbook/index.html>.

Subject Details: Practical Activities, eLearning, Readings and Materials

Subject eLearning

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via your SOLS page.

Safety Guidelines

The rules below are general rules that are required when participating in labs or practical activities. Before commencing these activities you are to ensure that you understand specific procedures and policy related to safety.

- All first year students undertaking Chemistry (CHEM101/102/104/105) must complete the Moodle WHS Induction (see details below)
- Before commencing any activity you are to ensure that you understand specific procedures and policy related to the lab in which you work and safety in general.
- You may need to review a Risk Assessment and complete a Participant Acknowledgement form before commencing any experiments/practical work. These materials will be made available by the lab supervisor/Subject Coordinator.
- You must inform the Subject Coordinator of any medical conditions which may impact upon your ability to participate in these activities before commencing the practical.

- All Reasonable Adjustment cases (Access Plans) must be discussed with the Subject Coordinator prior to commencing the activity.
- Participation in the lab/practical/field/simulation activities may be denied to students who do not abide by these, and other conditions which may be specified by the Subject Coordinator.
- Never use any equipment or attempt any experiment without checking the safety implications with your laboratory supervisor or experienced delegated laboratory worker.
- Undergraduate students are not permitted to work after hours unless there is appropriate approval and supervision.
-

FOUNDATIONAL Work Integrated Learning

This subject contains elements of 'Foundational WIL'. Students in this subject will observe, explore or reflect on possible career pathways or a work-related aspect of their discipline.

Major Text(s)

Brown T.L., et al "Chemistry The Central Science:" Global edition, ie 13th edn. 2015. Pearson.

If there is a textbook available for purchase, you can find the details at University Bookshop <https://unishop.uow.edu.au/>

Additional Materials

- Laboratory coat and Safety glasses (available from the UniShop)
- Subject handbook which includes workshop and laboratory templates (available from the Unishop)

Lectures, Tutorials and Attendance Requirements

Lecture Times *

UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.

Up to date timetable and delivery information is located at <http://www.uow.edu.au/student/timetables/index.html>

You can access your personal timetable by logging into SOLS and selecting 'My Timetable'

Lecture Program *

Week	Commencing	Topics Covered	Readings
1	28 Feb 2024	<u>Chemical Language</u>	Readings: Chapter 1 pg 46-60; Chapter 2 pg 89-125. <i>Live lecture Wed 12:30-13:30 (20.1)</i>
2	06 Mar 2024	<u>Quantity in Chemistry</u>	Readings: Chapter 3 pg 134-162; Chapter 4 pg 201-208. <i>Live lecture Wed 12:30-13:30 (20.1)</i>
3	13 Mar 2024	<u>Matter on the Molecular Scale</u>	Readings: Chapter 8 pg 369-400; Chapter 9 pg 412-429 <i>Live lecture Wed 12:30-13:30 (20.1)</i>
4	20 Mar 2024	<u>Matter on the Macroscale Part 1</u>	Readings: Chapter 10 pg 472-506; Chapter 11 pg 517-547 <i>Live lecture Wed 12:30-13:30 (20.1)</i> Online Quiz #1 Due Sunday 24 March

5	27 Mar 2024	<u>Matter on the Macroscale Part 2</u>	Reading: Chapter 12 pg 560-601; Chapter 13 pg 613-644 <i>Live lecture Wed 12:30-13:30 (20.1)</i>
6	03 Apr 2024	<u>Thermochemistry</u>	Readings: Chapter 5 pg 219-261; Chapter 19 pg 904-912 <i>Live lecture Wed 12:30-13:30 (20.1)</i>
7	10 Apr 2024	<u>Chemical Equilibrium</u>	Readings: Chapter 15 pg 715-738 <i>Live lecture Wed 12:30-13:30 (20.1)</i> Online Quiz #2 Due Sunday 14 April
	15 Apr 2024	Mid-Session Recess	
8	24 Apr 2024	<u>Acid-Base Equilibria</u>	Readings: Chapter 16 pg 757-802 Mid-Session Quiz (in lab time) <i>Live lecture Wed 12:30-13:30 (20.1)</i>
9	01 May 2024	<u>Equilibria and the Environment</u>	Readings: Chapter 17 pg 813-852; Chapter 18 pg 864-893 <i>Live lecture Wed 12:30-13:30 (20.1)</i>
10	08 May 2024	<u>Electrochemistry</u>	Readings: Chapter 20 pg 950-995 <i>Live lecture Wed 12:30-13:30 (20.1)</i> Online Quiz #3 Due Sunday 12 May
11	15 May 2024	<u>Chemical Kinetics</u>	Readings: Chapter 14 pg 658-700 <i>Live lecture Wed 12:30-13:30 (20.1)</i>
12	22 May 2024	<u>Industrial Organics</u>	Readings: Chapter 24 pg 1149-1175; Chapter 26 pg 1240-1243 Concrete Report Due Friday 24 May <i>Live lecture Wed 12:30-13:30 (20.1)</i>
13	29 May 2024	<u>Review of Content</u>	<i>Live lecture Wed 12:30-13:30 (20.1)</i> Online Quiz #4 Due Sunday 2 June
	03 Jun 2024	Study Recess	
	08 Jun 2024	Examinations	
	15 Jun 2024	Examinations	

* The above times and program may be subject to change. Students will be notified of any change via SOLS.

Additional Lecture Comments

Beginning Laboratory classes:

Before entry to the laboratory classes you must complete the Moodle Work Health and Safety Induction, open in the CHEM103 Moodle site from the beginning of Orientation week, and must be completed before your laboratory induction occurring during your allocated lab class time in Week 2. You cannot enter the Laboratory without completing the WHS induction.

Lecture Recording

The University of Wollongong supports the recording of UOW educational content as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience.

If you make your own recording of a lecture, class, seminar, workshop or any other educational session provided as part of your course of study you can only do so with the explicit permission of the lecturer and those people who are also being recorded.

You may only use educational content recorded through the delivery of subject or course content, whether they are your own or recorded by the university, for your own educational purposes. Recordings cannot be altered,

shared or published on another platform, without permission of the University, and to do so may contravene the University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with lecture recording technology, and made available via the subject Moodle site within 48 hours.

Your Privacy - Lecture Recording

In accordance with the Student Privacy & Disclosure Statement, when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), or via the delivery of online content therefore the University further advises students that:

- Lecture recordings are made available to students, university staff, and affiliates, securely on the university's IT Platforms and via the subject Moodle eLearning site;
- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;
- Recordings are stored securely for up to four years

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed please refer to the University's Privacy Policy or consult our Privacy webpage <https://www.uow.edu.au/privacy/>

Tutorial/Seminar/Workshop Times

The Faculty uses the SMP Online Tutorial System and tutorial times and locations can be found at <https://www.uow.edu.au/student/timetables/index.html>. Please note that tutorial times on the timetable are provisional and may change.

Tutorial/Seminar/Workshop Program

Where the restrictions require temporary adjustments for delivery and tutorial/seminar/workshop arrangements, any necessary changes will be advised and provided by your Subject Coordinator. Please check Subject Moodle site regularly

Week	Week Commencing	Topics Covered	Readings and Activities
2	04 Mar 2024	Lab 1: Chemical reactions and safety in the laboratory	<i>Complete Prelab and Postlab activities online (Moodle)</i>
3	11 Mar 2024	Workshop 1: Ionic compounds and solutions	<i>Complete short quiz during class time</i>
4	18 Mar 2024	Lab 2: Iron in Water	<i>Complete Prelab and Postlab activities online (Moodle)</i>
5	25 Mar 2024	Workshop 2: Intra and intermolecular bonding	<i>Complete short quiz during class time</i>
6	01 Apr 2024	No Lab (due to the public holiday)	

7	08 Apr 2024	Workshop 3: Heat and thermochemistry	<i>Complete short quiz during class time</i>
	15 Apr 2024	Mid-Session Recess	
8	22 Apr 2024	No lab (mid-session quiz)	Complete the mid-session quiz in the first year laboratory during your allocated lab time.
9	29 Apr 2024	Workshop 4: Equilibrium	<i>Complete short quiz during class time</i>
10	06 May 2024	Lab 3: Redox and Corrosion	<i>Complete Prelab and Postlab activities online (Moodle)</i>
11	13 May 2024	Workshop 5: Electrochemistry	<i>Complete short quiz during class time</i>
12	20 May 2024	Concrete Report	<i>Submission of concrete report based on laboratory data collected throughout semester, submission via Turnitin on Moodle</i>
	03 Jun 2024	Study Recess	
	08 Jun 2024	Examinations	
	15 Jun 2024	Examinations	

The above program may be subject to change.

Recent Improvements to Subject

The Faculty of Science, Medicine and Health is committed to continual improvement in teaching and learning. In assessing teaching and learning practices in a subject, the Faculty takes into consideration student feedback from many sources. These sources include direct student feedback to tutors and lecturers, feedback through Science, Medicine and Health Central, responses to the Subject and Course Evaluation Surveys. These important student responses are used to make ongoing changes to subjects and courses. This information is also used to inform systemic comprehensive reviews of subjects and courses.

This subject has been moved back to face-to-face learning to allow increased participation in laboratory activities which are critical to achieving the learning outcomes. The number of workshops has been increased to facilitate student learning and a number of assessment items (workshop quizzes and the mid-session quiz) will be completed in person to ensure academic integrity.

Extraordinary Changes to the Subject Outline

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the amendment, where practicable, prior to the amendment being finalised.

Learning Analytics

Learning Analytics data (such as student engagement with Moodle, access to recorded lectures, University Library usage, task marks, and use of SOLS) may be used by the Subject Coordinator and your faculty's Head of Students to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to <https://www.uow.edu.au/about/privacy/index.html>

Section B: Assessment

Assessment Summary

Assessment Item	Form of Assessment	%
Assessment 1	Lab/Prac/Simulation	25%
Assessment 2	Quiz	10%
Assessment 3	Quiz	20%
Assessment 4	Quiz	10%
Assessment 5	Exam	35%
	TOTAL MARKS	100%

Please note: Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

A formative assessment activity (with written or verbal feedback) will be conducted before census date - please see [UOW Key Dates](#).

Assessment 1: Lab/Prac/Simulation - Laboratory Reports

Marking Criteria	Successful completion of laboratory activity; correct calculations, equations, diagrams and/or observations on laboratory template; correct questions to reflect on understanding of laboratory concepts. Completion of concrete report.
Length	LAB 1: Pre and Post lab quiz (via Moodle) worth 5% LAB 2: Pre and Post lab quiz (via Moodle) worth 5% LAB 3: Pre and Post lab quiz (via Moodle) worth 5% CONCRETE REPORT: written report <800 words worth 10%
Weighting	25%
Assessment Due	08 Mar 2024 (Friday in Session Week 2) 22 Mar 2024 (Friday in Session Week 4) 10 May 2024 (Friday in Session Week 10) 24 May 2024 (Friday in Session Week 12) Final submission time: 11.59pm
Type of Collaboration	Individual assessment
Style and format	Online quizzes will contain multiple choice questions and calculations directly relating to the laboratory content and data collection. The concrete report will require students to summarise their findings from their concrete analysis throughout the semester and answer specific questions which will guide their discussion. These questions will be provided to students during the semester. More information including a marking rubric will be available on Moodle.
Assessment submission	Online via Moodle
Assessment return	Online quiz marks and feedback will be returned after the submission deadline. The concrete report will be marked and returned within 2 weeks of submission.
Detailed information	Students are expected to attend all laboratories (100% attendance). Absences may impact your ability to accomplish the learning outcomes.

	<p>There are three (3) laboratory classes across the session. The 25% for the laboratory reports is calculated as 5% from each lab class and 10% for the concrete report. Students may miss one (1) laboratory due to illness or other misadventure without incurring an academic penalty. If a student misses a subsequent laboratory, even if this absence is due to illness or other misadventure, they will be at risk of receiving a technical fail for the subject. If you have MISSED TWO laboratory classes you must contact the subject coordinator urgently.</p> <p>If you are unable to make your laboratory class but could make an alternate time that week please email CHEM103-admin@uow.edu.au to arrange a swap.</p> <p>Students must complete the prelab (available on the CHEM103 Moodle site) BEFORE they attend their laboratory class, this is worth 10% of your mark (2/20). The overall lab mark will be a composite of the prelab and post lab quizzes.</p>
--	--

Assessment 2: Quiz - Workshop Quick Quizzes

Marking Criteria	Multiple choice questions.
Length	A short (5 minute) quiz completed at the end of each workshop. Approximately 3 multiple choice questions.
Weighting	10%
Assessment Due	11 Mar 2024 (In your assigned tutorial in Session Week 3) 25 Mar 2024 (In your assigned tutorial in Session Week 5) 08 Apr 2024 (In your assigned tutorial in Session Week 7) 29 Apr 2024 (In your assigned tutorial in Session Week 9) 13 May 2024 (In your assigned tutorial in Session Week 11)
Type of Collaboration	Individual assessment
Style and format	On-campus assessment.
Assessment submission	At end of each workshop
Assessment return	Marks available on SOLS within 1 week. Students can request to see their quizzes by contacting the subject coordinator.
Detailed information	<p>Students are expected to attend all workshops (100% attendance). Absences may impact your ability to accomplish the learning outcomes.</p> <p>There are five (5) workshop classes across the session. The 10% assessment mark will be calculated as an average of your best four (4) workshop marks. Students may miss one (1) workshop without incurring an academic penalty. If a student misses a subsequent workshop, even if this absence is due to illness, they will be awarded a mark of zero for that class.</p> <p>Students should NOT apply for Academic Consideration for a missed tutorial class.</p> <p>If you are unable to make your workshop class but could make an alternate time that week please email CHEM103-admin@uow.edu.au to arrange a swap.</p> <p>Students must complete the pre-workshop (available on the CHEM103 Moodle site) BEFORE they attend their tutorial.</p>

Assessment 3: Quiz - Mid-session test

Marking Criteria	Correct answers to multiple choice and short answer questions.
Length	80 minute quiz
Weighting	20%
Assessment Due	22 Apr 2024 (In your assigned tutorial in Mid-Session Recess Week 8)

Type of Collaboration	Individual assessment
Style and format	In-person, closed book quiz. Combination of multiple choice and short answer questions. Questions may require students to complete calculations, diagrams, chemical structures and reaction mechanisms and graphs. In the first year lab during your allocated lab time in Week 8.
Assessment submission	
Assessment return	Within 15 working days of quiz completion. Quiz will be returned to students during their laboratory class.
Detailed information	The Mid-Semester Quiz will be completed in Week 8 during your allocated laboratory time. If you miss the Mid-Semester Quiz due to illness or other misadventure you should apply for Academic Consideration with supporting documentation to request an opportunity to sit a deferred quiz.

Assessment 4: Quiz - Online Assignments

Marking Criteria	Multiple choice quiz questions and calculations on Moodle. Mark is based on accuracy of answers.
Length	Moodle quiz questions approximately equivalent to 2 written pages.
Weighting	10%
Assessment Due	24 Mar 2024 (Sunday in Session Week 4) 14 Apr 2024 (Sunday in Session Week 7) 12 May 2024 (Sunday in Session Week 10) 02 Jun 2024 (Sunday in Session Week 13) Final submission time: 11:30pm
Type of Collaboration	Individual assessment
Style and format	Online Moodle Quiz
Assessment submission	Online via Moodle
Assessment return	Marks automatically provided upon submission. Correct answers will be provided once the quiz is closed.
Detailed information	Open for two weeks. Students can have two attempts at the quiz only the highest mark counts. Extensions are not typically granted unless under extreme circumstance at the discretion of the Subject Coordinator(s).

Assessment 5: Exam – Final Exam

Marking Criteria	Correctness of final answers Logical calculations or explanations provided Units provided where required
Length	120 minutes
Weighting	35%
Assessment Due	The final exam will be held during the UOW exam period, and students should ensure they are available during this period. Students will receive a SOLSmail advising when full details of the delivery format, and date of the final exam are available in the SOLS Exam Timetable.
Type of Collaboration	Individual assessment
Style and format	Final exam will be held online (via Moodle). It will be open book. Additional information regarding the format will be made available via the Moodle site towards the end of session.

Detailed information	The Final Exam will be held during the exam period. If you miss the Final Exam due to illness or other misadventure you should apply for Academic Consideration with supporting documentation to request an opportunity to sit a deferred exam.
-----------------------------	--

Minimum Requirements to Pass this Subject

To receive a clear pass in this subject a total mark of 50% or more must be achieved. In addition, failure to meet any of the minimum performance requirements is grounds for awarding a Technical Fail (TF) in the subject, even where total marks accumulated are greater than 50%. The minimum performance requirements for this subject are:

- 1) Obtain a pass mark (50% of the available marks) on the combined result from the laboratory quizzes, workshop quizzes and online assignments
- 2) Obtain a pass mark (50% of the available marks) on the combined result from the mid-session and end-session tests

UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here <https://www.uow.edu.au/student/exams/results/>. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy: <https://documents.uow.edu.au/about/policy/alphalisting/UOW222910.html>

Assessment Learning Outcome Matrix

Learning Outcomes	Measures - Assessment weighting				
	Laboratory Reports	Workshop Quick Quizzes	Mid-session test	Online Assignments	Final Exam
	(25%)	(10%)	(20%)	(10%)	(35%)
Predict or analyse the macroscale properties of chemical or material systems by analysis of molecular scale properties	✓	✓	✓	✓	✓
Apply principles of energy, heat, entropy, spontaneity, equilibrium and rate to predict or analyse the outcomes of chemical and physical processes	✓	✓	✓	✓	✓
Apply the mole concept to material and energy quantities in chemical and physical processes	✓	✓	✓	✓	✓
Apply chemical structure concepts to organic compounds especially in polymers and industrial materials to analyse or predict properties or uses		✓	✓	✓	✓
Perform lab based investigations safely, record experimental results, interpret and communicate conclusions based on observations	✓				

Submission, Retention and Collection of Written Assessment

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

Extensions

Students requesting extensions of time to submit an assessment task, deferred exam, alternative form of assessment or exemption of a compulsory attendance requirement must apply online via SOLS and provide documentary evidence within three working days of the assessable item's due date for their request to be considered. **For information on the Policy, eligibility and how to apply see:**

<https://www.uow.edu.au/student/admin/academic-consideration/>

Late Submission Penalty

Late submissions will receive a penalty of 5% per day (or part thereof) of the total possible marks for the assessment task for up to ten (10) days after the due date and time for submission (including weekends, and public holidays), or, where an extension has been granted, for up to ten (10) days after the nominated extension deadline. For the purposes of this penalty a weekend (Saturday and Sunday) will be regarded as two days.

No marks will be awarded for work submitted:

- more than ten (10) days after the due date, or
- after the assessment has been returned to the students; whichever is applicable.

In such an instance, a mark of zero and a result of Fail for the task will be applied.

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

Quiz Completion

Where there is a quiz component, any student who has not attempted and submitted a quiz within the specified timeframe will receive 0 (zero) marks for this assessment type. The quiz will not be reopened, and no alternative assessment will be set without extenuating circumstances and an approved academic consideration application. Late penalties do not apply to quizzes. If a student attempts a quiz but for technical issues is not able to submit the quiz, students must show evidence and apply for an academic consideration to sit a supplementary quiz.

Collection

Students will be notified when they can collect or view their marked assessment. In accordance with University Policy marked assessments will usually only be held for 21 days after the declaration of marks for that assessment.

Retention

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Scaling

Marks awarded for any assessment task or part of any assessment task, including an examination may be subject to scaling at the end of the session. Marks will be scaled only when unpredicted circumstances occur and in order to ensure fairness of marking across groups of students. The method of scaling will depend on the type of scaling required by the circumstances. When scaling is deemed necessary, it will follow a detailed consideration by the Unit Assessment Committee and/or the Faculty Assessment Committee of the marks of the group of students concerned. Scaling will not affect any individual student's rank order within their cohort. For more information please refer to Standards for the Finalisation of Student Results Schedule 1: Scaling Guidelines <https://www.uow.edu.au/about/policy/UOW039331.html> for details.

Supplementary Assessment

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary Exams refer to: <http://www.uow.edu.au/student/exams/aboutsupp/index.html>

Review and Appeal of Academic Decisions

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to <https://documents.uow.edu.au/about/policy/students/UOW189967.html>

Assessment Quality Cycle

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

Academic Integrity

The University's Academic Integrity Policy, faculty handbook and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism <https://www.uow.edu.au/about/policy/UOW058648.html>

Referencing

The Author-Date (Harvard) referencing system should, unless otherwise specified for a particular assessment (check Details of Assessment Tasks), be utilised. A summary of the Harvard system can be accessed on the Library website at: <http://uow.libguides.com/refcite>

Section C: General Advice for Students - Policies and Procedures

Student Services and Support

There are a range of services available to students that are provided free of charge. A good place to get to know services that may be of use to you is the Get Started @ UOW web page, accessed here <https://getstarted.uow.edu.au/index.html> or search for "Get Started @ UOW". Services available include:

Service	Link to information about the service
Aboriginal & Torres Strait Islander	https://www.uow.edu.au/wic/about1/index.html?ssSourceSiteId=getstarted
Careers advice	https://www.uow.edu.au/careers/index.html?ssSourceSiteId=getstarted
Counselling	https://www.uow.edu.au/student/counselling/index.html?ssSourceSiteId=getstarted
Student Accessibility and Inclusion (SAI)	https://www.uow.edu.au/student/disability/index.html?ssSourceSiteId=getstarted
Information Tech.	https://www.uow.edu.au/its/index.html?ssSourceSiteId=getstarted
Study Skills	https://www.uow.edu.au/student/learningcoop/index.html?ssSourceSiteId=getstarted

Student Support Coordinator (SSC)

If you have a temporary or ongoing issue or a problem that is affecting your study, including issues that are related to belonging to an equity group, then the Student Support Coordinators may be able to help. There are Student Support Coordinators available to assist students who are studying at all UOW Campuses and in all UOW Faculties. Contact details can be found on the UOW website: <https://www.uow.edu.au/student/support-services/coordinators/>

Student Advocacy Service

The Student Advocacy Service (SAS) is free, confidential and independent service for all UOW students. The SAS provides advocacy and referral for a range of academic, procedural and administrative issues. For more information visit: <https://www.uow.edu.au/student/support-services/advocacy/>

Student Central

Student Central is your primary administrative and information contact during your studies. There are service representatives from Student Service, Accommodation Services, BUPA, Global Student Mobility (Exchange) and Scholarships and Sponsorships.

Our purpose is to ensure students have access to the information they need, at the time they need it. We can help with a wide range of enquiries, some are:

- Applying for academic consideration
- Official documentation requests
- Updating personal details
- Student ID card replacement
- Opal cards and transport
- Education verification
- Fees and charges
- Scholarships and grants
- Digital and printed academic documents
- Overseas health cover
- Studying abroad and exchange

- SOLS password and login help
- Student feedback

Student Central contacts:

Phone	1300 275 869 (1300 ASK UOW) or +61 2 4221 3927
Email	askuow@uow.edu.au
Online	Enquiry Form (https://bps.uow.edu.au/suite/sites/student-enquiry/page/submit-enquiry)

Library Services

Save yourself time and enhance your studies: connect with information specialists and resources anytime, anywhere.

- For Library support connect with [Live Chat](#) or [contact the Library](#).
- For self-help see [Frequently Asked Questions](#) or browse [Library guides](#) to find information, databases and skills tutorials.
- [Research consultations](#) are available to UOW Postgraduate, Honours and Deans Scholar students.

Academic Integrity Policy

Academic integrity involves upholding ethical standards in all aspects of academic work, including learning, teaching and research. It involves acting with the principles of honesty, fairness, trust and responsibility and requires respect for knowledge and its development. The Policy can be found at:

<http://www.uow.edu.au/about/policy/UOW058648.html>

Code of Practice - Research

This Code mandates the current policy and best practice relating to procedures for responsible research. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058663.html>

Code of Practice - Honours

This Code sets out the responsibilities of all parties involved in managing students undertaking Honours Programs. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058661.html>

The Code of Practice - Work Integrated Learning (Professional Experience)

The Code of Practice - Work Integrated Learning (Professional Experience) sets out what is expected from students, the University and Host Organisations in providing work integrated learning professional experience programs. It applies to professional experience programs that form the whole or part of a subject or course offered at the University. The Code assists in promoting a productive work integrated learning experience for students and in promoting relevant UOW Work Integrated Learning Design Principles.

<http://www.uow.edu.au/about/policy/UOW058662.html>

Copyright Policy

The purpose of this Policy is to outline responsibilities and procedures regarding the use of third party copyright material, with the objectives of reducing staff and UOW exposure to the risks associated with the use of third party copyright material, assisting staff to make full legal use of the materials at their disposal by clearly identifying responsibilities and promoting copyright compliance. The Policy can be found at:

<http://www.uow.edu.au/about/policy/alphalisting/UOW026670.html>

Course Progress Policy

The Course Progress Policy establishes the requirements, definitions and procedures to be used in determining the standards of acceptable course progress. The Policy can be found at:

<http://www.uow.edu.au/about/policy/UOW058679.html>

Examination Rules and Procedures

The UOW rules and procedures outline exam conditions, student conduct in exams, and the procedures for exam management. Further information can found here: <https://www.uow.edu.au/student/exams/>

Ethical or Religious Objection by Students to the Use of Animal and Animal Products in Coursework Subjects

This policy provides a framework for recognition of and responses to students' ethical or religious objection to animal use in coursework subjects at the University of Wollongong. For the purpose of this policy, animal use includes killing of animals in experimental work, dissection of animals that are already dead, use of animal tissues, use of animal-derived products (such as sera). These uses are relevant to teaching and assessment.

Further information about this policy can be found here:

<http://www.uow.edu.au/about/policy/UOW058708.html>

Coursework Rules

The Coursework Rules (hereafter the Rules) govern the admission, enrolment, progression through, and qualification for a coursework award offered by the University. Further information can be found here:

<https://documents.uow.edu.au/about/policy/UOW262890.html>

Human Research Ethics

The Human Research Ethics Committee protects the welfare and rights of the participants in research activities.

Further information can be found here: <http://www.uow.edu.au/research/ethics/human/index.html>

Inclusive Language Guidelines

UOW endorses a policy of non-discriminatory language practice in all academic and administrative activities of the University. Further information is available from:

<http://www.uow.edu.au/about/policy/alphalisting/UOW140611.html>

Intellectual Property Policy

UOW's Intellectual Property Policy provides guidance on the approach taken to Intellectual Property (IP), including its ownership, protection and exploitation. Further information about the management of IP is available at

<http://www.uow.edu.au/about/policy/UOW058689.html>

Review and Appeal of Academic Decisions Policy

UOW aims to provide a transparent and consistent process for resolving a student concern about an academic decision that has affected their academic progress, including a mark or grade. Further information is available at:

<http://www.uow.edu.au/about/policy/UOW058653.html>

Student Academic Consideration Policy

The purpose of the Student Academic Consideration Policy is to enable student requests for academic consideration for assessable components of a subject to be evaluated in a fair, reasonable, timely and consistent manner throughout the University. **For information on the Policy, eligibility and how to apply see:**

<https://www.uow.edu.au/student/admin/academic-consideration/>

The Student Charter - Your Rights and Responsibilities

The Student Charter is based on principles that guide all members of the University and that promote responsible partnerships within and beyond the University community.

<http://www.uow.edu.au/student/charter/index.html>

Student Assignment of Intellectual Property (IP) Policy

This policy applies to all Students (under-graduate and post-graduate) of the University of Wollongong (UOW). It may also apply to other persons by agreement. This policy sets out the approach taken by UOW in relation to Student assignment of intellectual property. Further information about this policy can be found here:

<http://www.uow.edu.au/about/policy/UOW058690.html>

Student Conduct Rules

These Rules outline the required conduct of students of UOW, and direct staff and students to University Rules, standards, codes, policies, guidelines, procedures and other requirements which specify acceptable and unacceptable student conduct, and the management of alleged student misconduct.

<http://www.uow.edu.au/about/policy/UOW058723.html>

Teaching and Assessment: Assessment and Feedback Policy

The purpose of this Policy is to set out the University of Wollongong's approach to effective learning, teaching and assessment, including the principles and minimum standards underlying teaching and assessment practice.

The Policy can be found at: <http://www.uow.edu.au/about/policy/alphalisting/UOW222905.html>

Teaching and Assessment: Code of Practice - Teaching

This Code is a key document in implementing the University's Teaching and Assessment Policy and sets out the specific responsibilities of parties affected in relation to learning, teaching and assessment, as well as procedures for teaching staff. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058666.html>

Teaching and Assessment: Subject Delivery Policy

This Policy sets out specific requirements in relation to the delivery of Subjects. The policy can be found at:

<http://www.uow.edu.au/about/policy/alphalisting/UOW222906.html>

Workplace Health & Safety Policy

The Workplace Health and Safety (WHS) unit at UOW aims to provide structures, system and support to ensure the health, safety and welfare of all at the campus. Further information is available from:

<https://www.uow.edu.au/about/policy/alphalisting/UOW016894.html>
