
ARCH302: Digging Down Under: Archaeology of Australasia

Subject Outline

6 credit points

Subject Information

Autumn, 2024, Wollongong

Distance

Distance/ Online Delivery This subject is delivered entirely online. It involves no on-campus or other in-person learning activities.

UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.

The Faculty of Science, Medicine and Health

The Faculty of Science, Medicine and Health offers a range of undergraduate and postgraduate programs designed to meet the needs of a diverse student population. We carry out world-leading research which is strongly aligned with our teaching program.

As a student of our faculty, you will be actively engaged in learning with extensive clinical experiences, use of advanced educational technologies and opportunities for enriching work experience. More information about the Faculty of Science, Medicine and Health and our School is available on our web pages:

<https://www.uow.edu.au/science-medicine-health/>

Teaching Staff

Teaching Role	Coordinator
Name	Senior Lecturer Sam Lin
Telephone	+61 2 4221 8170
Email	samlin@uow.edu.au
Room	41.268
Consultation Times	Friday 10:30 - 12:30 (or by appointment)

Expectations of Students

UOW values are intellectual openness, excellence and dedication, empowerment and academic freedom, mutual respect and diversity, recognition and performance. We will provide a safe, equitable and orderly environment for the University community, and expect each member of our community to behave responsibly and ethically (UOW Student Conduct Rules <https://documents.uow.edu.au/about/policy/learning/index.html>).

We expect that students demonstrate these values and professional behaviour, both face to face and online, making genuine efforts to complete their studies successfully, arriving on time to class, taking part constructively in class discussions and activities, demonstrating appropriate professional and ethical conduct in all communication with UOW staff and community members, and submitting assignments on time (or completing a request for Academic Consideration in advance if needed).

Communication and eLearning Etiquette

Guidelines on the use of email to contact teaching staff, mobile phone use in class and information on the university guide to eLearning 'Netiquette' can be found at <https://www.uow.edu.au/student/learningcoop/software/emailetiquette/index.html>

Guiding Communication Principles for Students

Moodle Announcements will be the primary platform for communication of general information to students

- Students should ensure they regularly check the main announcements forum at the top of each subject's Moodle site. Information distributed via a Moodle Announcement MAY not be duplicated on any other forum on the Moodle site.
- Moodle Discussion forums pertinent to specific assignments will be used but will not replace or be used for overarching subject announcements.
 - Assignment discussion forums for specific assignments will be clearly labelled in the forum description to identify the purpose of the forum (e.g. 'Please ask any questions you have about Assessment Task 1 in this discussion forum') - students should check and ask any assignment questions on these forums and not through email.
 - The Moodle assignment discussion forums should always be used in the first instance when inquiring about assessment tasks.
- It is the student's responsibility to check all subject Moodle sites regularly for information and notifications.

SOLS messages will be used for all central communication relating to the following:

- Administrative matters relating to student enrolment
- Critical information relating to course or subject, e.g. Changes to assignments, policy updates, class cancellations or changes
- Timetable information
- Security and emergency information
- Students are encouraged to check SOLS messages daily as these messages are often of high priority

SOLS and Moodle announcements can NOT be responded to.

Email

- Communication to UOW staff by students should only be via a UOW email account
- In relation to assessment questions, Moodle assignment forums should be used rather than email.

Remember to use the same principles when communicating online as you would face-to-face. Be clear and respectful and communicate with the same consideration you would expect from others.

Related Policies

- Online and email etiquette <https://tr.uow.edu.au/uow/file/976ffde2-b892-42cf-b20b-5c7a65bc08cc/1/Overview%20of%20Online%20and%20Email%20Etiquette.pdf>
- Using UOWmail <https://www.uow.edu.au/student/learning-co-op/technology-and-software/uowmail/>
- Inclusive language guideline <https://documents.uow.edu.au/about/policy/students/UOW140611.html>
- The Student Charter <https://www.uow.edu.au/student/charter/>

Cyber Bullying

The University is committed to providing a safe, respectful, equitable and orderly environment for the University community, and expects each member of that community to behave responsibly and ethically. Students must comply with the University's [Student Conduct Rules](#) and related policies including the [IT Acceptable Use Policy](#) and [Bullying Prevention Policy](#), whether undertaking their studies face-to-face, online.

For more information on appropriate communication and etiquette in the online environment please refer to the guide [Online and Email Etiquette](#) or at <https://www.uow.edu.au/student/learning-co-op/technology-and-software/email-etiquette/>.

Section A: General Information

Learning Outcomes

Subject Learning Outcomes

On successful completion of this subject, students will be able to:

1. Discuss the consultation process required to gain permission from private, government and indigenous stakeholders to investigate, assess and report on Aboriginal cultural heritage
2. Appraise the different knowledge systems and the impact of archaeological interpretation on modern perception of people and region
3. Demonstrate an understanding of general research methods and reflect on the challenges in Australasian archaeology
4. Demonstrate knowledge of the history of human occupation of Australasia from an archaeological perspective
5. Develop general academic reading and writing research skills, including the ability to conduct library-based research, summarise scholarly material, and critically evaluate evidence and arguments
6. Communicate academic oral and visual presentation skills, including presenting research outcomes as plain English language reports in digital and printed form

Subject Description

This subject introduces the archaeology of the Australasian region. It traces the history of human occupation in areas of Australia and its immediate neighbours through a range of key archaeological questions, such as the timing and nature of human arrival, megafauna extinctions, technology and economy, and explanations for cultural change. Through covering these issues, this subject illustrates the variability and complexity of human culture in Australasia, and also considers the influence of archaeological knowledge on modern ideas and representation of this region and its people.

Course Handbook

Information about subject pre-requisites, co-requisites and restrictions as well as course completion requirements and Course Learning Outcomes can be found in the Course Handbook

<https://www.uow.edu.au/handbook/index.html>.

Subject Details: Practical Activities, eLearning, Readings and Materials

Subject eLearning

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via your SOLS page.

Safety Guidelines

The rules below are general rules that are required when participating in labs, practicals, fieldwork or simulated fieldwork activities. Before commencing these activities you are to ensure that you understand specific procedures and policy related to safety.

- All first year students undertaking Chemistry (CHEM101/102/104/105) must complete the Moodle WHS Induction (see details below)
- Before commencing lab/practical/fieldwork activity you are to ensure that you understand specific procedures and policy related to safety.
- You may need to review a Risk Assessment and complete a Participant Acknowledgement form before commencing any fieldwork/practical work. These materials will be made available by the supervisor/Subject Coordinator.

- You must inform the Subject Coordinator of any medical conditions which may impact upon your ability to participate in these activities before commencing the practical.
- All Reasonable Adjustment cases (Access Plans) must be discussed with the Subject Coordinator prior to commencing the activity
- Participation in the lab/practical/field/simulation activities may be denied to students who do not abide by these, and other conditions which may be specified by the Subject Coordinator.
- Never use any equipment or attempt any experiment without checking the safety implications with your laboratory supervisor or experienced delegated laboratory worker
- Undergraduate students are not permitted to work after hours unless there is appropriate approval and supervision.
- For subjects including field trips, attendance on field excursions may be denied to students who do not abide by these and other conditions which may be specified by the Subject Coordinator.
- For subjects including field trips, students may be required to contribute to transport costs associated with the provision of field trips that form part of the course of study.

EMBEDDED Work Integrated Learning

This subject contains elements of 'Embedded WIL'. Students in this subject will experience activities that relate to or simulate professional practice as part of their learning.

Additional Subject Details

The content for each week is organised into 8 different sections:

1. **Overview:** Each week will start with a short overview of the week's topic and how the content and the different sections will support the topic.
2. **Concepts and theories:** Throughout the subject, students will be introduced to a range of difference concepts and theories that provide the basic framework for their understanding of the topic. The most important of these will be explained in the form of text and graphics.
3. **Current evidence and interpretations:** It is always easier to grasp concepts and theories when they are discussed as part of an example. This section will be presented as a series of short video lectures, together with a list of relevant readings and links to popular articles or academic texts that students can read to broaden their knowledge and to get a better understanding of the specific study.
4. **Getting to know an Australian Archaeologist:** Australian Archaeology is full of personalities. it is a privilege to do this work and this passion, together with a sense of responsibility, often shines through when talking to people about their work. The aim of the section is to introduce students to many of the people directly involved in Australian Archaeology who will share their experiences and perspectives as it relates to the topic of the week.
5. **The Australian Archaeologist's toolkit:** Archaeology is not just about digging holes and finding things! Many different scientific methods are used by archaeologist to get a more holistic picture of humans and their environments at a specific site, area or time period. One person cannot be good at all these methods, so archaeology is a team effort and specialists in various methods are often involved in a project. Together we can tell a richer and more inclusive story. The aim of this section is to provide a very broad overview of what the methods can tell you and what they are used for. Most methods will be explained using short (3 minute) explainer videos, whereas for others it may be a short bit of text or a reading.
6. **Australian Material Culture:** Stone, ochre, ceramics, metal, glass, plastic and organic materials, such as plants and animals and their by-products are all materials used in the past to create objects for use, ceremony, art or other purposes. The Australian archaeological record contains evidence of all types of materials, but not all types are present at all times. Stone is by far the most ubiquitous and makes up more than 99% of the archaeological record. In this section, we will discuss the different types of stone tools found in the record and their function and distribution, but will also introduce some of the less durable materials. This will be done through a combination of photographs and explanatory text.

7. **Working with Aboriginal and Torres Strait Islander People**: An essential part of doing archaeology in Australia is to work together with Aboriginal and Torres Strait Islander People. There are various ways in which this can be achieved. In this section, we will introduce the legislative and ethical frameworks that underpin this work. We will showcase through videos and text the different approaches, including examples of best practice.

8. **Activity/Tutorial**: The activity section will contain a prescribed reading or video that is linked to a forum in which you must participate. The tutorial is a timetabled Zoom 1hr session that will mainly focus on helping progress aspects of the Assessment tasks, but also offer opportunity to ask questions about the content of the week.

Two different icons are used throughout to indicate what parts of the content is ESSENTIAL and which parts are SUPPLEMENTARY. You are encouraged to engage in all components of the content to get the best and most holistic understanding of Australian Archaeology, but you will only be assessed on the ESSENTIAL components.

Major Text(s)

Required weekly readings are outlined in the Lecture Program and on Moodle.

All readings are available as pdf files in [ARCH302_S123: ARCH302 Subject Readings \(uowplatform.edu.au\)](https://uowplatform.edu.au/ARCH302_S123_ARCH302_Subject_Readings)

If there is a textbook available for purchase, you can find the details at University Bookshop <https://unishop.uow.edu.au/>

Recommended Readings and Other Resources

Recommended weekly readings and other resources are outlined on Moodle for each corresponding week.

All readings are provided in [ARCH302_S123: ARCH302 Subject Readings \(uowplatform.edu.au\)](https://uowplatform.edu.au/ARCH302_S123_ARCH302_Subject_Readings)

This is not an exhaustive list of references. Students should also use the library catalogue and databases to locate additional resources.

Lectures, Tutorials and Attendance Requirements

Lecture Times *

UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.

Up to date timetable and delivery information is located at <http://www.uow.edu.au/student/timetables/index.html>

You can access your personal timetable by logging into SOLS and selecting 'My Timetable'

Lecture Program *

Week	Commencing	Topics Covered	Readings
1	26 Feb 2024	Introduction to Australian Archaeology	<ul style="list-style-type: none"> Langford, R.F. 1983. Our heritage - your playground. <i>Australian Archaeology</i> 16, 1-6. 7	08 Apr 2024	Holocene intensification, population growth	<ul style="list-style-type: none"> Lourandos, H., Ross, A. 1994. The great 'intensification debate': its history and place in

		and technological change	Australian archaeology. <i>Australian Archaeology</i> 39(1), 54-63.
	15 Apr 2024	Mid-Session Recess	
8	22 Apr 2024	Holocene economies	<ul style="list-style-type: none"> Ulm, S. 2011. Coastal foragers on southern shores: Marine resource use in northeast Australia since the late Pleistocene. In: N.F. Bicho, J.A. Haws, L.G. Davis (eds) <i>Trekking the shore: Changing coastlines and the antiquity of coastal settlement</i>, pp. 441-461. Springer Balme, J., O'Connor, S. 2016. Dingoes and Aboriginal social organization in Holocene Australia. <i>Journal of Archaeological Science: Reports</i> 7, 775-781.
9	29 Apr 2024	Food production and farming	<ul style="list-style-type: none"> Fairbairn, A. 2005. An archaeobotanical perspective on Holocene plant-use practices in lowland northern New Guinea. <i>World Archaeology</i> 37, 487-502. Florin, S.A., Carah, X. 2018. Moving past the 'Neolithic problem': The development and interaction of subsistence systems across northern Sahul. <i>Quaternary International</i> 489, 46-62.
10	06 May 2024	Rock art and symbolism	<ul style="list-style-type: none"> Tacon, P. S. (2019). Connecting to the Ancestors: why rock art is important for Indigenous Australians and their well-being. <i>Rock Art Research</i>, 36(1), 5-14. May, S., Maralngurra, J.G., Johnston, I.G., et al. 2019, 'This is my Father's painting': A first-hand account of the creation of the most iconic rock art in Kakadu National Park. <i>Rock Art Research</i> 36(2), 199 - 213
11	13 May 2024	Ritual, trade and exchange networks	<ul style="list-style-type: none"> McNiven, I. 2004. Saltwater people: spiritscapes, maritime rituals and the archaeology of Australian indigenous seascapes. <i>World Archaeology</i> 35(3), 329-349. Ash, J., Mialanes, J., Brady, L.M., et al. 2020. A 1,200-year-old ground-stone object from South Western Torres Strait (northeast Australia) and its implications for historicising ethnographically known social networks. <i>Australian Archaeology</i> 86(2), 97-111.
12	20 May 2024	Contact and Historical Archaeology	<ul style="list-style-type: none"> Paterson, A. 2018. Once were foragers: The archaeology of agrarian Australia and the fate of Aboriginal land management. <i>Quaternary International</i> 489, 4-16.
13	27 May 2024	Archaeology and cultural heritage: An Australian perspective	<ul style="list-style-type: none"> Smith, C., Burke, H., Ralph, J., et al. 2019. Pursuing social justice through collaborative archaeologies in Aboriginal Australia. <i>Archaeologies</i> 15, 536-569.
	03 Jun 2024	Study Recess	
	08 Jun 2024	Examinations	
	15 Jun 2024	Examinations	

* The above times and program may be subject to change. Students will be notified of any change via SOLS.

Additional Lecture Comments

A non-compulsory, weekly 1-hour online tutorial is scheduled for those who wish to ask any questions or discuss the topic of the week or any of the assessment tasks. This is a way to help you stay on track throughout the semester.

Lecture Recording

The University of Wollongong supports the recording of UOW educational content as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience.

If you make your own recording of a lecture, class, seminar, workshop or any other educational session provided as part of your course of study you can only do so with the explicit permission of the lecturer and those people who are also being recorded.

You may only use educational content recorded through the delivery of subject or course content, whether they are your own or recorded by the university, for your own educational purposes. Recordings cannot be altered, shared or published on another platform, without permission of the University, and to do so may contravene the University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with lecture recording technology, and made available via the subject Moodle site within 48 hours.

Your Privacy - Lecture Recording

In accordance with the Student Privacy & Disclosure Statement, when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), or via the delivery of online content therefore the University further advises students that:

- Lecture recordings are made available to students, university staff, and affiliates, securely on the university's IT Platforms and via the subject Moodle eLearning site;
- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;
- Recordings are stored securely for up to four years

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed please refer to the University's Privacy Policy or consult our Privacy webpage <https://www.uow.edu.au/privacy/>

Recent Improvements to Subject

The Faculty of Science, Medicine and Health is committed to continual improvement in teaching and learning. In assessing teaching and learning practices in a subject, the Faculty takes into consideration student feedback from many sources. These sources include direct student feedback to tutors and lecturers, feedback through Science, Medicine and Health Central, responses to the Subject and Course Evaluation Surveys. These important student responses are used to make ongoing changes to subjects and courses. This information is also used to inform systemic comprehensive reviews of subjects and courses.

This subject was first developed as a fully online distance learning subject in 2021. The current layout, topics and sections were developed for delivery in 2021 and improved upon for 2022 based on feedback from students. Three key improvements include: (1) introduction of a timetabled zoom tutorial in some weeks to facilitate

some direct communication between staff and students, (2) introduction of icons dividing materials into essential (i.e., assessable) vs. supplementary materials. The latter will significantly enhance your learning. (3) Improved instructions and marking rubrics for assessment tasks.

Extraordinary Changes to the Subject Outline

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the amendment, where practicable, prior to the amendment being finalised.

Learning Analytics

Learning Analytics data (such as student engagement with Moodle, access to recorded lectures, University Library usage, task marks, and use of SOLS) may be used by the Subject Coordinator and your faculty's Head of Students to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to <https://www.uow.edu.au/about/privacy/index.html>

Section B: Assessment

Assessment Summary

Assessment Item	Form of Assessment	%
Assessment 1	Exam	20%
Assessment 2	Report	30%
Assessment 3	Report	30%
Assessment 4	Exam	20%
	TOTAL MARKS	100%

Please note: Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

A formative assessment activity (with written or verbal feedback) will be conducted before census date - please see [UOW Key Dates](#).

Assessment 1: Exam - Test of Pleistocene concepts, methods and technologies

Marking Criteria	No marking criteria.
Length	30 multiple choice or true/false questions each worth one mark 2 short-answer questions, each worth 10 marks
Weighting	20%
Assessment Due	12 Apr 2024 (Friday in Session Week 7) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Combination of multiple-choice questions and short answers.
Assessment submission	Online via Moodle
Assessment return	1 week after submission
Detailed information	This is an online open book test covering everything taught during the first 6 weeks

Assessment 2: Report - Stakeholder identification, engagement and site report

Marking Criteria	The marking criteria will be made available on your eLearning site.
Length	2500 words
Weighting	30%
Assessment Due	05 Apr 2024 (Friday in Session Week 6) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	The style and format should be consistent with that of a Report. A report is the documentation and analysis of the findings and recommendation from practical research, based on past research as well as present data and findings. In other words, it presents information. It is usually divided into sections which contains headings and subheadings and contains charts, graphs, tables and diagrams. It also includes an independent conclusion and recommendation.

Assessment submission	<p>Online via Moodle</p> <p>This assessment has been set up to be checked by Turnitin, a tool which helps you check whether you have referenced correctly. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality report. You may then make any changes that may be required and resubmit your final version by the due date.</p>
Assessment return	Friday 26 April 2024
Detailed information	<p>You will choose a site from a list of case studies (made available on your eLearning site).</p> <p>Most people working in Archaeology in Australia would work as consultants. Archaeological consultants are often contracted to do Aboriginal Cultural Heritage Impact Studies as part of development plans. The outcome of such a study is called an Aboriginal Cultural Heritage Assessment report, which is a written report documenting the process of investigation, consultation and assessment.</p> <p>Three key components of conducting an Aboriginal Cultural Heritage Assessment are:</p> <ol style="list-style-type: none"> (1) Review of relevant legislation and statutory obligations, (2) Consultation with Aboriginal people, and (3) Review of background information. <p>In the sections on 'Working with Aboriginal and Torres Strait Islander People' in Weeks 1-5, we have touch on the first two of these components in general terms. In this report, you will find out details specific to the site you chose from the list provided and provide the information as a report. A typical list of contents would include:</p> <ul style="list-style-type: none"> - A title page - Executive summary - Table of contents - Introduction - Description of the area/site - Description of stakeholders and process of finding out this information - The required consultation process - Summary and analysis of background information about the site - Consideration of how further archaeological research can benefit/burden community - Conclusions and recommendations - References <p>A video with some further instructions are provided on Moodle. Make sure you listen to the video well ahead of time and look at any other details and the marking rubric provided.</p>

Assessment 3: Report - Literature Review (fully referenced)

Marking Criteria	The marking criteria will be made available on your eLearning site.
Length	2000 words
Weighting	30%
Assessment Due	24 May 2024 (Friday in Session Week 12) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Essay

Assessment submission	<p>Online via Moodle</p> <p>This assessment has been set up to be checked by Turnitin, a tool which helps you check whether you have referenced correctly. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality report. You may then make any changes that may be required and resubmit your final version by the due date.</p>
Assessment return	Friday 14 June 2024
Detailed information	<p>This is an essay worth 30% of your overall mark, and it is to be 2000 ± 10% words long (not including the reference list). The objective of this essay is to enable you to explore one of the topics of most interest to you that relate to a key issue in the archaeology of Greater Australia. You will be able to explore this topic in much greater depth than is possible in this subject.</p> <p>Choose one essay topic from the list provided below:</p> <p><u>1. Early occupation: simple vs. complex?</u> Explore and critically evaluate the notion that ‘Pleistocene occupation of Australasia was simple and conservative, reflecting relatively unsophisticated behaviour and technology’. Support your discussion with archaeological examples from at least two geographically distinct regions of Sahul.</p> <p><u>2. The great ‘Intensification’ debate</u> Using archaeological examples from two distinct regions of Australia, evaluate the arguments for and against the notion of social and economic complexity emerging within the mid to late Holocene.</p> <p><u>3. Trade and exchange in Australasia</u> Critically examine the archaeological evidence for trade and exchange in Australasia, and discuss the social, political and economic importance of this phenomenon using at least one case study from Australia and New Guinea or the Torres Strait. Illustrate with an Australian example, and one from New Guinea or the Torres Strait.</p> <p><u>4. Stone artefacts and human behaviour</u> Using examples, evaluate the proposition that changes in stone artefact technology through time and space in Australian prehistory reflects variability in hunter-gatherer economies (e.g. patterns of settlement and subsistence).</p> <p>You will need to engage with at least ten (10) references to do this essay reasonably well.</p> <p>It is advised that you read broadly and include case studies and examples, where appropriate. Note that un-refereed and non-peer reviewed sources (including on-line sources such as Wikipedia) are not acceptable scholarly sources and their use will attract a low grade. Also note that the learning materials made available to you on Moodle is not a source. You must provide primary sources.</p> <p>Illustrations are not required, but may help you to contextualise your case studies and arguments. In case you use these, please ensure that captions are provided and these will count towards your word count and the origin of the illustrations (if not original) are referenced appropriately.</p>

Assessment 4: Exam - Test of Holocene concepts, methods and technologies

Marking Criteria	No marking criteria
Length	25 multiple choice or true/false questions, each worth one mark. 2 short-answer questions, each worth 10 marks.

	Personal reflection, worth 5 marks.
Weighting	20%
Assessment Due	31 May 2024 (Friday in Session Week 13) Final submission time: 5:00pm
Type of Collaboration	Individual assessment
Style and format	Combination of multiple-choice questions and short answers.
Assessment submission	Online via Moodle
Assessment return	1 week after submission
Detailed information	This is an online open book test covering everything taught during weeks 7-13.

Minimum Requirements to Pass this Subject

Student attendance at tutorials, practicals, seminars and/or simulations is not compulsory but is strongly recommended.

To receive a clear pass in this subject a total mark of 50% or more must be achieved. In addition, failure to meet any of the minimum performance requirements is grounds for awarding a Technical Fail (TF) in the subject, even where total marks accumulated are greater than 50%.

The minimum performance requirements for this subject are:

- attempt all assessment tasks

UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here

<https://www.uow.edu.au/student/exams/results/>. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy:

<https://documents.uow.edu.au/about/policy/alphalisting/UOW222910.html>

Assessment Learning Outcome Matrix

Learning Outcomes	Measures - Assessment weighting			
	Test of Pleistocene concepts, methods and technologies <i>(20%)</i>	Stakeholder identification, engagement and site report <i>(30%)</i>	Literature Review (fully referenced) <i>(30%)</i>	Test of Holocene concepts, methods and technologies <i>(20%)</i>
Discuss the consultation process required to gain permission from private, government and indigenous stakeholders to investigate, assess and report on Aboriginal cultural heritage.		✓		

Learning Outcomes	Measures - Assessment weighting			
	Test of Pleistocene concepts, methods and technologies <i>(20%)</i>	Stakeholder identification, engagement and site report <i>(30%)</i>	Literature Review (fully referenced) <i>(30%)</i>	Test of Holocene concepts, methods and technologies <i>(20%)</i>
Appraise the different knowledge systems and the impact of archaeological interpretation on modern perception of people and region		✓		
Demonstrate an understanding of general research methods and reflect on the challenges in Australasian archaeology	✓	✓	✓	✓
Demonstrate knowledge of the history of human occupation of Australasia from an archaeological perspective.	✓	✓	✓	✓
Develop general academic reading and writing research skills, including the ability to conduct library-based research, summarise scholarly material, and critically evaluate evidence and arguments.	✓	✓	✓	✓
Communicate academic oral and visual presentation skills, including presenting research outcomes as plain English language reports in digital and printed form.		✓		

Submission, Retention and Collection of Written Assessment

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

Extensions

Students requesting extensions of time to submit an assessment task, deferred exam, alternative form of assessment or exemption of a compulsory attendance requirement must apply online via SOLS and provide documentary evidence within three working days of the assessable item's due date for their request to be considered. **For information on the Policy, eligibility and how to apply see:**
<https://www.uow.edu.au/student/admin/academic-consideration/>

Late Submission Penalty

Late submissions will receive a penalty of 5% per day (or part thereof) of the total possible marks for the assessment task for up to ten (10) days after the due date and time for submission (including weekends, and public holidays), or, where an extension has been granted, for up to ten (10) days after the nominated extension deadline. For the purposes of this penalty a weekend (Saturday and Sunday) will be regarded as two days.

No marks will be awarded for work submitted:

- more than ten (10) days after the due date, or
- after the assessment has been returned to the students; whichever is applicable.

In such an instance, a mark of zero and a result of Fail for the task will be applied.

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

Quiz Completion

Where there is a quiz component, any student who has not attempted and submitted a quiz within the specified timeframe will receive 0 (zero) marks for this assessment type. The quiz will not be reopened, and no alternative assessment will be set without extenuating circumstances and an approved academic consideration application. Late penalties do not apply to quizzes. If a student attempts a quiz but for technical issues is not able to submit the quiz, students must show evidence and apply for an academic consideration to sit a supplementary quiz.

Collection

Students will be notified when they can collect or view their marked assessment. In accordance with University Policy marked assessments will usually only be held for 21 days after the declaration of marks for that assessment.

Retention

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Scaling

Marks awarded for any assessment task or part of any assessment task, including an examination may be subject to scaling at the end of the session. Marks will be scaled only when unpredictable circumstances occur and in order to ensure fairness of marking across groups of students. The method of scaling will depend on the type of scaling required by the circumstances. When scaling is deemed necessary, it will follow a detailed consideration by the Unit Assessment Committee and/or the Faculty Assessment Committee of the marks of the group of students concerned. Scaling will not affect any individual student's rank order within their cohort. For more information please refer to Standards for the Finalisation of Student Results Schedule 1: Scaling Guidelines <https://www.uow.edu.au/about/policy/UOW039331.html> for details.

Supplementary Assessment

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary Exams refer to: <http://www.uow.edu.au/student/exams/aboutsupp/index.html>

Review and Appeal of Academic Decisions

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further

concerns, they may have grounds for a formal review. For further information refer to <https://documents.uow.edu.au/about/policy/students/UOW189967.html>

Assessment Quality Cycle

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

Academic Integrity

The University's Academic Integrity Policy, faculty handbook and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism <https://www.uow.edu.au/about/policy/UOW058648.html>

Referencing

The Author-Date (Harvard) referencing system should, unless otherwise specified for a particular assessment (check Details of Assessment Tasks), be utilised. A summary of the Harvard system can be accessed on the Library website at: <http://uow.libguides.com/refcite>

Section C: General Advice for Students - Policies and Procedures

Student Services and Support

There are a range of services available to students that are provided free of charge. A good place to get to know services that may be of use to you is the Get Started @ UOW web page, accessed here <https://getstarted.uow.edu.au/index.html> or search for "Get Started @ UOW". Services available include:

Service	Link to information about the service
Aboriginal & Torres Strait Islander	https://www.uow.edu.au/wic/about1/index.html?ssSourceSiteId=getstarted
Careers advice	https://www.uow.edu.au/careers/index.html?ssSourceSiteId=getstarted
Counselling	https://www.uow.edu.au/student/counselling/index.html?ssSourceSiteId=getstarted
Student Accessibility and Inclusion (SAI)	https://www.uow.edu.au/student/disability/index.html?ssSourceSiteId=getstarted
Information Tech.	https://www.uow.edu.au/its/index.html?ssSourceSiteId=getstarted
Study Skills	https://www.uow.edu.au/student/learningcoop/index.html?ssSourceSiteId=getstarted

Student Support Coordinator (SSC)

If you have a temporary or ongoing issue or a problem that is affecting your study, including issues that are related to belonging to an equity group, then the Student Support Coordinators may be able to help. There are Student Support Coordinators available to assist students who are studying at all UOW Campuses and in all UOW Faculties. Contact details can be found on the UOW website: <https://www.uow.edu.au/student/support-services/coordinators/>

Student Advocacy Service

The Student Advocacy Service (SAS) is free, confidential and independent service for all UOW students. The SAS provides advocacy and referral for a range of academic, procedural and administrative issues. For more information visit: <https://www.uow.edu.au/student/support-services/advocacy/>

Student Central

Student Central is your primary administrative and information contact during your studies. There are service representatives from Student Service, Accommodation Services, BUPA, Global Student Mobility (Exchange) and Scholarships and Sponsorships.

Our purpose is to ensure students have access to the information they need, at the time they need it. We can help with a wide range of enquiries, some are:

- Applying for academic consideration
- Official documentation requests
- Updating personal details
- Student ID card replacement
- Opal cards and transport
- Education verification
- Fees and charges
- Scholarships and grants
- Digital and printed academic documents
- Overseas health cover
- Studying abroad and exchange

- SOLS password and login help
- Student feedback

Student Central contacts:

Phone	1300 275 869 (1300 ASK UOW) or +61 2 4221 3927
Email	askuow@uow.edu.au
Online	Enquiry Form (https://bps.uow.edu.au/suite/sites/student-enquiry/page/submit-enquiry)

Library Services

Save yourself time and enhance your studies: connect with information specialists and resources anytime, anywhere.

- For Library support connect with [Live Chat](#) or [contact the Library](#).
- For self-help see [Frequently Asked Questions](#) or browse [Library guides](#) to find information, databases and skills tutorials.
- [Research consultations](#) are available to UOW Postgraduate, Honours and Deans Scholar students.

Academic Integrity Policy

Academic integrity involves upholding ethical standards in all aspects of academic work, including learning, teaching and research. It involves acting with the principles of honesty, fairness, trust and responsibility and requires respect for knowledge and its development. The Policy can be found at:

<http://www.uow.edu.au/about/policy/UOW058648.html>

Code of Practice - Research

This Code mandates the current policy and best practice relating to procedures for responsible research. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058663.html>

Code of Practice - Honours

This Code sets out the responsibilities of all parties involved in managing students undertaking Honours Programs. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058661.html>

The Code of Practice - Work Integrated Learning (Professional Experience)

The Code of Practice - Work Integrated Learning (Professional Experience) sets out what is expected from students, the University and Host Organisations in providing work integrated learning professional experience programs. It applies to professional experience programs that form the whole or part of a subject or course offered at the University. The Code assists in promoting a productive work integrated learning experience for students and in promoting relevant UOW Work Integrated Learning Design Principles.

<http://www.uow.edu.au/about/policy/UOW058662.html>

Copyright Policy

The purpose of this Policy is to outline responsibilities and procedures regarding the use of third party copyright material, with the objectives of reducing staff and UOW exposure to the risks associated with the use of third party copyright material, assisting staff to make full legal use of the materials at their disposal by clearly identifying responsibilities and promoting copyright compliance. The Policy can be found at:

<http://www.uow.edu.au/about/policy/alphalisting/UOW026670.html>

Course Progress Policy

The Course Progress Policy establishes the requirements, definitions and procedures to be used in determining the standards of acceptable course progress. The Policy can be found at:

<http://www.uow.edu.au/about/policy/UOW058679.html>

Examination Rules and Procedures

The UOW rules and procedures outline exam conditions, student conduct in exams, and the procedures for exam management. Further information can found here: <https://www.uow.edu.au/student/exams/>

Ethical or Religious Objection by Students to the Use of Animal and Animal Products in Coursework Subjects

This policy provides a framework for recognition of and responses to students' ethical or religious objection to animal use in coursework subjects at the University of Wollongong. For the purpose of this policy, animal use includes killing of animals in experimental work, dissection of animals that are already dead, use of animal tissues, use of animal-derived products (such as sera). These uses are relevant to teaching and assessment.

Further information about this policy can be found here:

<http://www.uow.edu.au/about/policy/UOW058708.html>

Coursework Rules

The Coursework Rules (hereafter the Rules) govern the admission, enrolment, progression through, and qualification for a coursework award offered by the University. Further information can be found here:

<https://documents.uow.edu.au/about/policy/UOW262890.html>

Human Research Ethics

The Human Research Ethics Committee protects the welfare and rights of the participants in research activities.

Further information can be found here: <http://www.uow.edu.au/research/ethics/human/index.html>

Inclusive Language Guidelines

UOW endorses a policy of non-discriminatory language practice in all academic and administrative activities of the University. Further information is available from:

<http://www.uow.edu.au/about/policy/alphalisting/UOW140611.html>

Intellectual Property Policy

UOW's Intellectual Property Policy provides guidance on the approach taken to Intellectual Property (IP), including its ownership, protection and exploitation. Further information about the management of IP is available at

<http://www.uow.edu.au/about/policy/UOW058689.html>

Review and Appeal of Academic Decisions Policy

UOW aims to provide a transparent and consistent process for resolving a student concern about an academic decision that has affected their academic progress, including a mark or grade. Further information is available at:

<http://www.uow.edu.au/about/policy/UOW058653.html>

Student Academic Consideration Policy

The purpose of the Student Academic Consideration Policy is to enable student requests for academic consideration for assessable components of a subject to be evaluated in a fair, reasonable, timely and consistent manner throughout the University. **For information on the Policy, eligibility and how to apply see:**

<https://www.uow.edu.au/student/admin/academic-consideration/>

The Student Charter - Your Rights and Responsibilities

The Student Charter is based on principles that guide all members of the University and that promote responsible partnerships within and beyond the University community.

<http://www.uow.edu.au/student/charter/index.html>

Student Assignment of Intellectual Property (IP) Policy

This policy applies to all Students (under-graduate and post-graduate) of the University of Wollongong (UOW). It may also apply to other persons by agreement. This policy sets out the approach taken by UOW in relation to Student assignment of intellectual property. Further information about this policy can be found here:

<http://www.uow.edu.au/about/policy/UOW058690.html>

Student Conduct Rules

These Rules outline the required conduct of students of UOW, and direct staff and students to University Rules, standards, codes, policies, guidelines, procedures and other requirements which specify acceptable and unacceptable student conduct, and the management of alleged student misconduct.

<http://www.uow.edu.au/about/policy/UOW058723.html>

Teaching and Assessment: Assessment and Feedback Policy

The purpose of this Policy is to set out the University of Wollongong's approach to effective learning, teaching and assessment, including the principles and minimum standards underlying teaching and assessment practice.

The Policy can be found at: <http://www.uow.edu.au/about/policy/alphalisting/UOW222905.html>

Teaching and Assessment: Code of Practice - Teaching

This Code is a key document in implementing the University's Teaching and Assessment Policy and sets out the specific responsibilities of parties affected in relation to learning, teaching and assessment, as well as procedures for teaching staff. The Code can be found at: <http://www.uow.edu.au/about/policy/UOW058666.html>

Teaching and Assessment: Subject Delivery Policy

This Policy sets out specific requirements in relation to the delivery of Subjects. The policy can be found at:

<http://www.uow.edu.au/about/policy/alphalisting/UOW222906.html>

Workplace Health & Safety Policy

The Workplace Health and Safety (WHS) unit at UOW aims to provide structures, system and support to ensure the health, safety and welfare of all at the campus. Further information is available from:

<https://www.uow.edu.au/about/policy/alphalisting/UOW016894.html>
