# **BIOL343: Techniques in Biotechnology and Medical Research**

## **Subject Outline**

6 credit points

## **Subject Information**

**Autumn, 2026**, Wollongong  
On Campus

**On-Campus Delivery** This subject is delivered in-person and includes on-campus or other location-based learning activities that cannot be undertaken by students studying Online/Distance. Students unable to attend campus or any other nominated physical delivery location should not enrol in this subject.

Subjects with a delivery mode of On Campus and/or Flexible with International Student enrolments will be delivered in accordance with the ESOS National Code. That is, online learning experiences (such as lectures, tuition, and resources) will be supplementary to in-person learning experiences such as scheduled classes and/or scheduled contact hours.

*UOW may need to modify teaching locations, teaching delivery, and assessment delivery at short notice in response to unforeseen circumstances such as health or environmental factors.*

For up-to-date information please refer to your subject's Moodle site.

## **The Faculty of Science, Medicine and Health**

The Faculty of Science, Medicine and Health offers a range of undergraduate and postgraduate programs designed to meet the needs of a diverse student population. We carry out world-leading research which is strongly aligned with our teaching program

As a student of our faculty, you will be actively engaged in learning with extensive clinical, laboratory and/or field work experiences, use of advanced educational technologies and opportunities for enriching work experience. More information about the Faculty of Science, Medicine and Health and our School is available on our web pages: <https://www.uow.edu.au/science-medicine-health/>

Within many of our courses, attending a workplace experience or clinical placement is an exciting part of your course program. Whilst integral to your learning, these health-related placements also let you experience what it's like to work as a professional in real-life workplace settings. More information about requirements for Health Placements is available on our webpage: <https://www.uow.edu.au/student/health-placements/>

---

## Teaching Staff

<b>Teaching Role</b>	Coordinator
<b>Name</b>	Professor Lezanne Ooi
<b>Telephone</b>	+61 2 4221 5865
<b>Email</b>	<a href="mailto:lezanne@uow.edu.au">lezanne@uow.edu.au</a>
<b>Room</b>	32.331
<b>Consultation Times</b>	Please email for appointment

<b>Teaching Role</b>	Lecturer
<b>Name</b>	Associate Professor Gokhan Tolun
<b>Email</b>	<a href="mailto:gokhan@uow.edu.au">gokhan@uow.edu.au</a>
<b>Consultation Times</b>	Please email for appointment

<b>Teaching Role</b>	Lecturer
<b>Name</b>	Dr Jacob Lewis
<b>Email</b>	<a href="mailto:jacobl@uow.edu.au">jacobl@uow.edu.au</a>
<b>Consultation Times</b>	Please email for appointment

<b>Teaching Role</b>	Lecturer
<b>Name</b>	Dr Dzung Do-Ha
<b>Email</b>	<a href="mailto:dzung@uow.edu.au">dzung@uow.edu.au</a>
<b>Consultation Times</b>	Please email for appointment

<b>Teaching Role</b>	Lecturer
<b>Name</b>	Dr Rachelle Balez
<b>Email</b>	<a href="mailto:rbalez@uow.edu.au">rbalez@uow.edu.au</a>
<b>Consultation Times</b>	Please email for appointment

<b>Teaching Role</b>	Tutor
<b>Name</b>	Ms Emma James
<b>Email</b>	<a href="mailto:emjames@uow.edu.au">emjames@uow.edu.au</a>
<b>Consultation Times</b>	Please email for appointment

### Teaching Staff Additional Information

Please see Moodle for information on teaching staff. Please email staff to arrange consultation.

Prof Lezanne Ooi is the subject coordinator and can be emailed at [lezanne@uow.edu.au](mailto:lezanne@uow.edu.au) to arrange an appointment.

## Expectations of Students

UOW values are intellectual openness, excellence and dedication, empowerment and academic freedom, mutual respect and diversity, recognition and performance. We will provide a safe, equitable and orderly environment for the University community, and expect each member of our community to behave responsibly and ethically ([Student Conduct Rules](#)).

We expect that students demonstrate these values and professional behaviour, both face to face and online, making genuine efforts to complete their studies successfully, arriving on time to class, taking part constructively in class discussions and activities, demonstrating appropriate professional and ethical conduct in all communication with UOW staff and community members, and submitting assignments on time (or completing a request for Academic Consideration in advance if needed).

### Guiding Communication Principles for Students

**Moodle** Announcements will be the primary platform for communication of general information to students

- Students should ensure they regularly check the main announcements forum at the top of each subject's Moodle site.
- It is the student's responsibility to check all subject Moodle sites regularly for information and notifications.

**SOLS messages** will be used for all central communication relating to the following:

- Administrative matters relating to student enrolment
- Critical information relating to course or subject, e.g. Changes to assignments, policy updates, class cancellations or changes
- Timetable information
- Security and emergency information
- Students are encouraged to check SOLS messages daily as these messages are often of high priority

SOLS and Moodle announcements can NOT be responded to.

### Appropriate Online Behaviour

The University is committed to providing a safe, respectful, equitable and orderly environment for the University community, and expects each member of that community to behave responsibly and ethically. Students must comply with the University's [Student Conduct Rules](#) and related policies including the [IT Acceptable Use Policy](#) and [Bullying Prevention Policy](#), whether undertaking their studies face-to-face, online.

For more information on appropriate communication and etiquette in the online environment please refer to the guide [Online and Email Etiquette](#).

# Section A: General Information

## Learning Outcomes

### Subject Learning Outcomes

On successful completion of this subject, students will be able to:

1. Competently perform and demonstrate biotechnology techniques, including cloning, PCR, protein gels and their analysis
2. Analyse and interpret a recent biotechnology-related research publication and develop presentation skills through communicating the research findings as part of a group
3. Apply the theoretical aspects of biotechnology, including genes and genomes, protein production, recombinant techniques
4. Evaluate and interpret experimental results and their application to biotechnology, including analysis of PCR and protein gels and comparisons of the data obtained to the published literature

### Subject Description

This subject is all about the latest and greatest innovations in biotechnology and medical research. In this subject you will learn about genes and genomes, the very blueprints of life at the core of biomedical data science and bioinformatics. We will investigate how gene and protein levels can be altered to promote our understanding of molecular pathways relevant to cell function, development and disease. We will look at the applications of biotechnology to produce vaccines, harness the power of viruses for human gene therapy and generate transgenic plants that could aid global access to food. As such, this topic addresses technologies at the interface of the UN Sustainable Development Goals of Zero Hunger and Good Health and Well-being. We will build on your career-ready skills in our tutorials that are designed to develop your presentation, communication and team-working skills. You will gain experience in practical skills that explore critical techniques in biotechnology and medical research.

### Course Handbook

Information about subject pre-requisites, co-requisites and restrictions as well as course completion requirements and Course Learning Outcomes can be found in the [Course Handbook](#).

## Subject Details: Practical Activities, eLearning, Readings and Materials

### Subject eLearning

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via your SOLS page.

### Safety Guidelines

The rules below are general rules that are required when participating in labs, practicals, fieldwork or simulated fieldwork activities. Before commencing these activities you are to ensure that you understand specific procedures and policy related to safety.

- All first year students undertaking Chemistry (CHEM101/102/104/105) must complete the Moodle WHS Induction (see the subject Moodle site for more details below)
- Before commencing lab/practical/fieldwork activity you are to ensure that you understand specific procedures and policy related to safety.
- You may need to review a Risk Assessment and complete a Participant Acknowledgement form before commencing any fieldwork/practical work. These materials will be made available by the supervisor/Subject Coordinator.

- You must inform the Subject Coordinator of any medical conditions which may impact upon your ability to participate in these activities before commencing the practical.
- All Reasonable Adjustment cases (Access Plans) must be discussed with the Subject Coordinator prior to commencing the activity.
- Participation in the lab/practical/field/simulation activities may be denied to students who do not abide by these, and other conditions which may be specified by the Subject Coordinator.
- Never use any equipment or attempt any experiment without checking the safety implications with your laboratory supervisor or experienced delegated laboratory worker
- Undergraduate students are not permitted to work after hours unless there is appropriate approval and supervision.
- For subjects including field trips, students may be required to contribute to costs associated with the provision of field trips that form part of the course of study.

### **EMBEDDED Work Integrated Learning**

This subject contains elements of 'Embedded WIL'. Students in this subject will experience activities that relate to or simulate professional practice as part of their learning.

### **Additional Subject Details**

<https://www.uow.edu.au/united-nations-sustainable-development-goals/sdg-subjects-and-courses/>  
 This subject aligns with the United Nations Sustainable Development Goals (SDGs) and is part of UOW's SDG Portfolio which aims to ensure that our students are well informed global citizens that can continue to contribute to realising sustainable development through their studies and careers by being proactive, responsible and educated in relation to how realising the Global Goals will better the world.

### **Using Generative Artificial Intelligence (GenAI)**

UOW is committed to embracing gen AI as a tool to enhance learning and development of important digital and work-readiness skills.

Your subject coordinator will provide specific guidance on the use of gen AI in your assessment tasks via your Subject Outline and/or your subject Moodle site. If gen AI use is permitted, it should be used thoughtfully, critically, and in ways that support your own learning.

Guidance on appropriate use of AI in assessments, including how to [acknowledge GenAI](#) can be found on the [Using Generative Artificial Intelligence in Assessment website](#)

You are responsible for all work you submit, and ethical use of gen AI is an important part of maintaining academic integrity. Misuse or unauthorised use may breach the [Academic Integrity Policy](#).

### **Lectures, Tutorials and Attendance Requirements**

#### **Lecture Times \***

*UOW may need to modify teaching locations, teaching delivery, and assessment delivery at short notice in response to unforeseen circumstances such as health or environmental factors.*

For up-to-date information please refer to your subject's Moodle site.

Up to date timetable and delivery information is located at <http://www.uow.edu.au/student/timetables/index.html>

You can access your personal timetable by logging into SOLS and selecting 'My Timetable'

## Lecture Program \*

Week	Commencing	Topics Covered
1	04 Mar 2026	Genes, genomes and biotechnology
2	11 Mar 2026	PCR methods and applications
3	18 Mar 2026	Recombinant protein production
4	25 Mar 2026	Protein purification and engineering of GFP
5	01 Apr 2026	Gene knock-out
6	08 Apr 2026	Transgenic animals and animal cloning
	20 Apr 2026	<b>Mid-Session Recess</b>
8	29 Apr 2026	RNA interference
9	06 May 2026	Recombinant vaccines
10	13 May 2026	Viruses, gene technology and human gene therapy
11	20 May 2026	Environmental biotechnology
12	27 May 2026	Quantum biotechnology and Transgenic plants
	08 Jun 2026	<b>Study Recess</b>
	13 Jun 2026	<b>Examinations</b>
	20 Jun 2026	<b>Examinations</b>

\* The above times and program may be subject to change. Students will be notified of any change via SOLS.

## Additional Lecture Comments

BIOL343 / BIOL980 Class Schedule is available on Moodle.

Lecture topics:

- Genes, genomes and biotechnology
- Recombinant protein production
- Protein purification and engineering of GFP
- PCR methods and applications
- Recombinant vaccines
- RNA interference
- Gene knock-out
- Transgenic animals and animal cloning
- Viruses, gene technology and human gene therapy
- Transgenic plants and quantum biotechnology
- Environmental biotechnology

## Recording of Teaching and Learning Activities

The University of Wollongong supports the recording of UOW educational content as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience.

If you make your own recording of a lecture, class, seminar, workshop or any other educational session provided as part of your course of study you can only do so with the explicit permission of the lecturer and those people who are also being recorded.

You may only use educational content recorded through the delivery of subject or course content, whether they are your own or recorded by the university, for your own educational purposes. Recordings cannot be altered, shared or published on another platform, without permission of the University, and to do so may contravene the

University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with lecture recording technology and made available via the subject Moodle site within 48 hours.

## Your Privacy - Recording of Teaching and Learning

In accordance with the Student Privacy & Disclosure Statement, and Lecture Recording Procedures when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), or via the delivery of online content therefore the University further advises students that:

- Lecture recordings are made available to students, university staff, and affiliates, securely via the Learning Platform;
- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed, please refer to the University's Privacy Policy or consult our Privacy webpage <https://www.uow.edu.au/privacy/>

## Tutorial/Seminar/Workshop Times

The Faculty uses the SMP Online Tutorial System and your class times and locations can be found at <https://www.uow.edu.au/student/timetables/index.html>. Please note that class times on the timetable are provisional and may change.

## Tutorial/Seminar/Workshop Program

Where the restrictions require temporary adjustments for delivery and tutorial/seminar/workshop arrangements, any necessary changes will be advised and provided by your Subject Coordinator. Please check Subject Moodle site regularly

Week	Week Commencing	Topics Covered	Readings and Activities
1	02 Mar 2026	To present your group tutorial seminar assessment you will only need to attend one tutorial for one of the weeks during the session. You will enrol your group's tutorial week and presentation slot during the first PRACTICAL class in Week 1. <b>Enrolment will open in Moodle during the practical class in Week 1 and will be explained in class.</b>	Your group will need to select a recent journal RESEARCH (not a review) article on one of the topics aligned with your lectures to present your assessment. Articles should be approved by emailing the paper or a link to the paper to one of the lecturers in BIOL343/980 prior to the presentation. (This is to make sure the paper is relevant and is a research paper not a review).  Full assessment details are provided on Moodle.
1	02 Mar 2026	Subject introduction, Seminar preparation and group enrolment	

2	09 Mar 2026	Prac 1: Cloning project introduction, PCR of GFP & gel electrophoresis	
3	16 Mar 2026	Prac 2: Restriction digests, ligation and transformation	
4	23 Mar 2026	Prac 3: Plasmid extraction, digestion and gel electrophoresis	
5	30 Mar 2026	Project Report Prep Session	
7	13 Apr 2026	<b>MID SESSION QUIZ 14/04/26 on lecture content Weeks 1-5 inclusive</b>	
	20 Apr 2026	<b>Mid-Session Recess</b>	
8	27 Apr 2026	Prac 4: Affinity purification of GFP	
9	04 May 2026	Prac 5: Bradford Assay and SDS PAGE	
10	11 May 2026	Prac 6: Analysis of SDS PAGE. Project Wrap-up and Report Prep Session	
	08 Jun 2026	<b>Study Recess</b>	
	13 Jun 2026	<b>Examinations</b>	
	20 Jun 2026	<b>Examinations</b>	

The above program may be subject to change.

## Recent Improvements to Subject

The Faculty of Science, Medicine and Health is committed to continual improvement in teaching and learning and takes into consideration student feedback from many sources including, direct student feedback to tutors and lecturers and responses to the Subject and Course Evaluation Surveys. Feedback is also used to inform comprehensive reviews of subjects and courses.

## Extraordinary Changes to the Subject Outline

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the amendment, where practicable, prior to the amendment being finalised.

## Learning Analytics

Learning Analytics data (such as student engagement with Moodle, access to recorded lectures, University Library usage, task marks, and use of SOLS) may be used by the Subject Coordinator and your faculty's Head of Students to assist in analysing student engagement, and to identify and recommend support for students identified who may be in need of assistance. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to <https://www.uow.edu.au/privacy/>

## Section B: Assessment

### Assessment Summary

Assessment Item	Form of Assessment	%
Assessment 1	Lab/Prac/Simulation	15%
Assessment 2	Presentation	15%
Assessment 3	Quiz	20%
Assessment 4	Report	25%
Assessment 5	Exam	25%
<b>TOTAL MARKS</b>		100%

**Please note:** Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

### Assessment 1: Lab/Prac/Simulation - Skills based assessment

<b>Marking Criteria</b>	Skills based assessment of Practical 1, Practical 2 and Practical 3.
<b>Length</b>	Details will be provided in class.
<b>Weighting</b>	15%
<b>Assessment Due</b>	13 Mar 2026 (Friday in Session Week 2) 20 Mar 2026 (Friday in Session Week 3) 27 Mar 2026 (Friday in Session Week 4) Final submission time: 9:30am
<b>Type of Collaboration</b>	Individual assessment
<b>Style and format</b>	Competently perform biotechnology based skills and answer questions on the underlying theory.
<b>Generative AI use</b>	Gen AI can be used to help explain the concepts, however the style of the assessment and the answers required means students will likely not benefit from using gen AI in answering the questions. GenAI can be used in the preparation of this task however, there are limits to how it can benefit your learning. Be aware that it may produce inaccurate or biased content, lacking true understanding of the subject matter. Recommended use is for brainstorming, planning, structuring and editing only with marks awarded for interpretation of data, as per the marking rubric.
<b>Assessment submission</b>	Online via Moodle
<b>Assessment return</b>	Following assessment.
<b>Detailed information</b>	Hurdle assessments for this subject include: - Obtaining a pass mark (50% of the available marks) on the combined result from Assessment 1 (Skills based assessment – competently perform biotechnology based skills and answer questions on the underlying theory) and Assessment 4 (Report - Purification of GFP Report). - Meet the minimum attendance and participation requirements  Minimum participation requirements: - Student attendance at practicals is compulsory. 100% attendance is expected, and absences may impact your ability to accomplish the learning outcomes. Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator. Late Submission of Assessment Tasks: A maximum penalty of five percentage points of the total possible marks will be applied per day from the submission due date, for up to a maximum of seven calendar days. In the

	absence of an approved extension, tasks that are not submitted within the maximum number of additional late days will receive a mark of zero.
--	---

### Assessment 2: Presentation - Group Tutorial Presentation

<b>Marking Criteria</b>	Detailed instructions and marking rubric are available on Moodle.
<b>Length</b>	10 minute presentation followed by 5 minutes question time
<b>Weighting</b>	15%
<b>Assessment Due</b>	To Be Announced
<b>Type of Collaboration</b>	Group work
<b>Style and format</b>	Detailed instructions and marking rubric are available on Moodle.
<b>Generative AI use</b>	<p>Students can use Generative AI to help edit the presentation. However, the presentation needs to be delivered in person during the tutorial. Marks are awarded for presentation style, as described in the rubric.</p> <p>GenAI can be used in the preparation of this task however, there are limits to how it can benefit your learning. Be aware that it may produce inaccurate or biased content, lacking true understanding of the subject matter. Recommended use is for brainstorming, planning, structuring and editing only with marks awarded for interpretation of data, as per the marking rubric.</p>
<b>Assessment submission</b>	You will present during one of the tutorials in the session between Weeks 3-12, presentation times will be assigned during the practical class in Week 1.
<b>Assessment return</b>	Marks will be returned within 15 working days of submission.
<b>Detailed information</b>	<p>Presentations must be on an area relevant to Biotechnology. They should be based on a research-type paper rather than a review paper. Students should choose their own tutorial paper from recent (last 2 years) publications in scientific journals. Topics must be approved by a lecturer prior to preparing your presentation. Each group should register during the practical class in Week 1 for a presentation time. There will be a maximum of 4 tutorial talks each week. Further information will be provided during the practical class in Week 1 and on the Moodle site.</p> <p>Minimum participation requirements:  - Student attendance at their designated Group Tutorial Presentation class is compulsory (students will sign up for and attend one tutorial class during the session). Participation is required for the duration of the class. Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator.</p>

### Assessment 3: Quiz - Mid-Session Quiz

<b>Marking Criteria</b>	Assessment will be based on lecture content delivered in weeks 1-5 (inclusive) – pay attention to learning objectives provided for each lecture.
<b>Length</b>	90 minutes.
<b>Weighting</b>	20%
<b>Assessment Due</b>	14 Apr 2026 (Tuesday in Session Week 7) Final submission time: 12:30pm
<b>Type of Collaboration</b>	Individual assessment
<b>Style and format</b>	Held Tuesday Week 7 (14/04/2026). This will be an invigilated, on-campus exam held during the practical session.
<b>Generative AI use</b>	Gen AI cannot be used as this is an assessment of students' theoretical understanding.
<b>Assessment submission</b>	Online via Moodle

<b>Assessment return</b>	Marks will be returned within 15 working days of submission.
<b>Detailed information</b>	<p>Multiple choice and short answer questions. The quiz will be held online in Week 7 on Tuesday 15th April. This will be an invigilated, on-campus exam held during the practical session.</p> <p>Hurdle assessments for this subject include: - Obtaining a pass mark (50% of the available marks) on the combined result from Assessment 3 (Quiz - Mid-Session Quiz) and Assessment 5 (Final Exam)</p> <p>Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator.</p>

#### **Assessment 4: Report - Purification of GFP Report**

<b>Marking Criteria</b>	Practical 4 and Practical 5 will be assessed with a written report of the results and discussion. The marking criteria will be discussed in class and is available on Moodle.
<b>Length</b>	Detailed instructions will be provided in class and on Moodle.
<b>Weighting</b>	25%
<b>Assessment Due</b>	02 Jun 2026 (Tuesday in Session Week 13) Final submission time: 5:00pm
<b>Type of Collaboration</b>	Individual assessment
<b>Style and format</b>	Detailed instructions will be provided in class and on Moodle.
<b>Generative AI use</b>	GenAI can be used in the preparation of this task however, there are limits to how it can benefit your learning. Be aware that it may produce inaccurate or biased content, lacking true understanding of the subject matter. Recommended use is for brainstorming, planning, structuring and editing only with marks awarded for interpretation of data, as per the marking rubric.
<b>Assessment submission</b>	<p>Online via Moodle</p> <p>This assessment task has been set up to be checked by Turnitin, a tool for checking if it has unreferenced content. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality report. You can then make any changes that may be required and re-submit your final version by the due date.</p>
<b>Assessment return</b>	Marks will be returned within 15 working days of submission.
<b>Detailed information</b>	<p>Written results and discussion in scientific paper format. Further information will be provided in class and on the Moodle site.</p> <p>Hurdle assessments for this subject include: - Obtaining a pass mark (50% of the available marks) on the combined result from Assessment 1 (Skills based assessment – competently perform biotechnology based skills and answer questions on the underlying theory) and Assessment 4 (Report - Purification of GFP Report). - Meet the minimum attendance and participation requirements</p> <p>Minimum participation requirements: - Student attendance at practicals is compulsory. 100% attendance is expected, and absences may impact your ability to accomplish the learning outcomes. Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator.</p> <p>Late Submission of Assessment Tasks: A maximum penalty of five percentage points of the total possible marks will be applied per day from the</p>

	submission due date, for up to a maximum of seven calendar days. In the absence of an approved extension, tasks that are not submitted within the maximum number of additional late days will receive a mark of zero.
--	---

### Assessment 5: Final Exam

<b>Marking Criteria</b>	Assessment will be based on lecture content delivered in weeks 6-12 (inclusive) – pay attention to learning objectives provided for each lecture.
<b>Length</b>	Detailed instructions will be available on Moodle.
<b>Weighting</b>	25%
<b>Assessment Due</b>	To Be Announced
<b>Type of Collaboration</b>	Individual assessment
<b>Style and format</b>	Multiple choice and short answer questions. This will be an invigilated, on-campus exam held during the exam period.
<b>Generative AI use</b>	Gen AI cannot be used as this is an assessment of students' theoretical understanding.
<b>Assessment return</b>	Marks will be returned marks will be returned within 15 working days of submission.
<b>Detailed information</b>	<p>The final exam for BIOL343/980 will examine lectures given in weeks 6-12 and held during the UOW exam period. This will be an invigilated, on-campus exam held during the exam period. Detailed instructions will be available on Moodle prior to the exam.</p> <p>Hurdle assessments for this subject include:</p> <ul style="list-style-type: none"> <li>- Obtaining a pass mark (50% of the available marks) on the combined result from Assessment 3 (Quiz - Mid-Session Quiz) and Assessment 5 (Final Exam)</li> </ul> <p>Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator.</p>

### Minimum Requirements to Pass this Subject

Hurdle assessments for this subject include:

- Obtaining a pass mark (50% of the available marks) on the combined result from Assessment 1 (Skills based assessment – competently perform biotechnology based skills and answer questions on the underlying theory) and Assessment 4 (Report - Purification of GFP Report).
- Obtaining a pass mark (50% of the available marks) on the combined result from Assessment 3 (Quiz - Mid-Session Quiz) and Assessment 5 (Final Exam)
- Meet the minimum attendance and participation requirements

Minimum participation requirements:

- Student attendance at practicals is compulsory. 100% attendance is expected, and absences may impact your ability to accomplish the learning outcomes. Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator.
- Student attendance at their designated Group Tutorial Presentation class is compulsory (students will sign up for and attend one tutorial class during the session). Participation is required for the duration of the class. Absences require an Academic Consideration application to be submitted and addressed by the Subject Coordinator.

Late Submission of Assessment Tasks: A maximum penalty of five percentage points of the total possible marks will be applied per day from the submission due date, for up to a maximum of seven calendar days. In the absence of an approved extension, tasks that are not submitted within the maximum number of additional late days will receive a mark of zero.

## Hurdle Assessment

Subjects may include a hurdle assessment. A hurdle assessment is an assessment that requires a minimum level of performance as a condition for passing the subject. Examples include, achievement of a pass grade or above in a skills-based assessment or final examination. Hurdle assessments are applied to subjects to ensure students:

1. meet learning outcomes
2. demonstrate you can complete a task safely and/or meet professional standards.

For more on hurdle assessments see the Assessment and Feedback Policy [Section 8: Hurdle Assessments \(50-51-52\)](#).

Failure to meet a hurdle assessment requirement may constitute grounds for the award of a Technical Fail (TF) grade in this subject.

Should this subject contain a hurdle assessment, it will be stated under the specific assessment in Section B: Assessments.

## UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here <https://www.uow.edu.au/student/exams/results/>. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy: [Teaching and Assessment: Assessment and Feedback Policy](#)

## Assessment Learning Outcome Matrix

Learning Outcomes	Measures - Assessment weighting				
	Assessment 1: Skills based assessment  (15%)	Assessment 2: Presentation - Group Tutorial Presentation  (15%)	Assessment 3: Quiz - Mid-Session Quiz  (20%)	Assessment 4: Report - Purification of GFP Report  (25%)	Assessment 5: Final Exam  (25%)
Competently perform and demonstrate biotechnology techniques, including cloning, PCR, protein gels and their analysis	✓				
Analyse and interpret a recent biotechnology-related research publication and develop presentation skills through communicating the research findings as part of a group		✓			
Apply the theoretical aspects of biotechnology, including genes and genomes, protein production, recombinant techniques			✓		✓
Evaluate and interpret experimental results and their application to biotechnology, including analysis of PCR and protein gels and comparisons of the data obtained to the published literature				✓	

## Submission, Retention and Collection of Written Assessment

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

### Extensions

Students requesting an extension of time to submit an assessment task, deferred exam or exemption of a compulsory attendance requirement, must apply using Academic Consideration through SOLS. Students must apply before, or on the assessment/s due date and where evidence is required, students must provide evidence no later than three working days after the assessable item's due date for their request to be considered. **For information on the Academic Consideration Policy, eligibility requirements and how to apply, see:** <https://www.uow.edu.au/student/admin/academic-consideration/>

### Late Submission of Assessment Tasks and Penalties

Assessed work must be submitted in by the date and time given. If an assessment is submitted late, it will be marked in the normal way, and a penalty will then be applied.

In the absence of an approved request for Academic Consideration in the form of an extension, assessment tasks must be submitted in line with the assessment instructions.

- An assessment task that is submitted late will receive a penalty of 5% of the total possible marks for each 24-hour period, or part thereof, that it is late.
- Work submitted after seven calendar days will not be marked and will be given a mark of 0.
- No assessment task can be handed in for a mark once the assessment task has been returned to students.
- Penalties accrue on each day that the assessment task is late, including Saturday, Sunday and public holidays

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

### Collection

Students will be notified when they can collect or view their marked assessment. In accordance with University Policy marked assessments will usually only be held for 21 days after the declaration of marks for that assessment.

### Retention

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

### Scaling

Marks awarded for any assessment task or part of any assessment task, including an examination may be subject to scaling at the end of the session. Marks will be scaled only when unpredicted circumstances occur and in order to ensure fairness of marking across groups of students. The method of scaling will depend on the type of scaling required by the circumstances. When scaling is deemed necessary, it will follow a detailed consideration by the Unit Assessment Committee and/or the Faculty Assessment Committee of the marks of the group of students concerned. Scaling will not affect any individual student's rank order within their cohort. For more information please refer to [Finalisation of Student Results Policy](#) for details.

## **Supplementary Assessment**

Supplementary assessment may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. For information about eligibility criteria and the form and timing of supplementary assessments see the [Supplementary Assessment Procedure](#)

## **Review and Appeal of Academic Decisions**

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to [Review and Appeal of Academic Decisions Policy](#)

## **Assessment Quality Cycle**

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

## **Academic Integrity**

The University's Academic Integrity Policy, faculty handbook and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism [Academic Integrity Policy](#)

## **Referencing**

The Author-Date (Harvard) referencing system should, unless otherwise specified for a particular assessment (check Details of Assessment Tasks), be utilised. A summary of the Harvard system can be accessed on the Library website at: <http://uow.libguides.com/refcite>

# Section C: General Advice for Students - Policies and Procedures

## Student Services and Support

There are a range of services available to students that are provided free of charge. A good place to get to know services that may be of use to you is the [Get Started @ UOW](#) or search for "Get Started @ UOW". Services available include:

Service	Link to information about the service
Aboriginal & Torres Strait Islander	<a href="https://www.uow.edu.au/about/services/woolyungah-indigenous-centre/about-us/">https://www.uow.edu.au/about/services/woolyungah-indigenous-centre/about-us/</a>
Careers advice	<a href="https://www.uow.edu.au/student/careers/">https://www.uow.edu.au/student/careers/</a>
Counselling	<a href="https://www.uow.edu.au/student/support-services/counselling/">https://www.uow.edu.au/student/support-services/counselling/</a>
Student Accessibility and Inclusion (SAI)	<a href="https://www.uow.edu.au/student/support-services/sai/">https://www.uow.edu.au/student/support-services/sai/</a>
Information Tech.	<a href="https://www.uow.edu.au/its/index.html?ssSourceSiteId=getstarted">https://www.uow.edu.au/its/index.html?ssSourceSiteId=getstarted</a>
Study Skills	<a href="https://www.uow.edu.au/student/support-services/academic-skills/">https://www.uow.edu.au/student/support-services/academic-skills/</a>

## Student Support Coordinator (SSC)

If you have a temporary or ongoing issue or a problem that is affecting your study, including issues that are related to belonging to an equity group, then the Student Support Coordinators may be able to help. There are Student Support Coordinators available to assist students who are studying at all UOW Campuses and in all UOW Faculties. Contact details can be found on the UOW website: <https://www.uow.edu.au/student/support-services/coordinators/>

## Student Advocacy Service

The Student Advocacy Service (SAS) is free, confidential and independent service for all UOW students. The SAS provides advocacy and referral for a range of academic, procedural and administrative issues. For more information visit: <https://www.uow.edu.au/student/support-services/advocacy/>

## AskUOW

AskUOW is your primary administrative and information contact during your studies.

Our purpose is to ensure students have access to the information they need, at the time they need it. We can help with a wide range of enquiries, including key topics such as:

- Applying for [academic consideration](#)
- Fees and scholarships
- Official documentation and student letter requests
- Student forms such as course transfer and leave of absence applications
- Student ID card issuance and replacement
- Subject enrolment
- Transport concession cards and Opal cards
- Updating personal details

Get instant answers 24/7 online using [AskUOW](#). Log in with your UOW username and password.

For further support contact [askuow@uow.edu.au](mailto:askuow@uow.edu.au) or call on 1300 275 869 (1300 ASK UOW) or +61 2 4221 3927.

## Library Services

Save yourself time and enhance your studies: connect with information specialists and resources anytime, anywhere.

- For Library support connect with [Live Chat](#) or [contact the Library](#).
- For self-help see [Frequently Asked Questions](#) or browse [Library guides](#) to find information, databases and skills tutorials.
- [Research consultations](#) are available to UOW Postgraduate, Honours and Deans Scholar students.

## Academic Integrity Policy

Academic integrity involves upholding ethical standards in all aspects of academic work, including learning, teaching and research. It involves acting with the principles of honesty, fairness, trust and responsibility and requires respect for knowledge and its development. The Policy can be found at:

<https://policies.uow.edu.au/document/view-current.php?id=26>

## Code of Practice - Research

This Code mandates the current policy and best practice relating to procedures for responsible research. The Code can be found at: <https://policies.uow.edu.au/document/view-current.php?id=11>

## Honours Policy

This policy sets out the responsibilities of all parties involved in managing students undertaking Honours Programs. The Code can be found at: <https://policies.uow.edu.au/document/view-current.php?id=36>

## The Code of Practice - Work Integrated Learning (Professional Experience)

The Code of Practice - Work Integrated Learning (Professional Experience) sets out what is expected from students, the University and Host Organisations in providing work integrated learning professional experience programs. It applies to professional experience programs that form the whole or part of a subject or course offered at the University. The Code assists in promoting a productive work integrated learning experience for students and in promoting relevant UOW Work Integrated Learning Design Principles.

<https://policies.uow.edu.au/document/view-current.php?id=12>

## Copyright Policy

The purpose of this Policy is to outline responsibilities and procedures regarding the use of third party copyright material, with the objectives of reducing staff and UOW exposure to the risks associated with the use of third party copyright material, assisting staff to make full legal use of the materials at their disposal by clearly identifying responsibilities and promoting copyright compliance. The Policy can be found at:

<https://policies.uow.edu.au/document/view-current.php?id=135>

## Course Progress Policy

The Course Progress Policy establishes the requirements, definitions and procedures to be used in determining the standards of acceptable course progress. The Policy can be found at:

<https://policies.uow.edu.au/document/view-current.php?id=30>

## Examination Rules and Procedures

The UOW rules and procedures outline exam conditions, student conduct in exams, and the procedures for exam management. Further information can be found here: <https://www.uow.edu.au/student/exams/>

## Ethical Objection by Students to the Use of Animal and Animal Products in Coursework Subjects

This policy provides a framework for recognition of and responses to students' ethical or religious objection to animal use in coursework subjects at the University of Wollongong. For the purpose of this policy, animal use includes killing of animals in experimental work, dissection of animals that are already dead, use of animal tissues, use of animal-derived products (such as sera). These uses are relevant to teaching and assessment. Further information about this policy can be found here: <https://policies.uow.edu.au/document/view-current.php?id=154>

### **Coursework Rules**

The Coursework Rules (hereafter the Rules) govern the admission, enrolment, progression through, and qualification for a coursework award offered by the University. Further information can be found here: <https://policies.uow.edu.au/document/view-current.php?id=4>

### **Human Research Ethics**

The Human Research Ethics Committee protects the welfare and rights of the participants in research activities. Further information can be found here: <https://www.uow.edu.au/research-and-innovation/researcher-support/ethics/human-ethics/>

### **Inclusive Language Guidelines**

UOW endorses a policy of non-discriminatory language practice in all academic and administrative activities of the University. Further information is available from: <https://policies.uow.edu.au/document/view-current.php?id=239>

### **Intellectual Property Policy**

UOW's IP Intellectual Property Policy provides guidance on the approach taken to Intellectual Property (IP), including its ownership, protection and exploitation. Further information about the management of IP is available at <https://policies.uow.edu.au/document/view-current.php?id=146>

### **Review and Appeal of Academic Decisions Policy**

UOW aims to provide a transparent and consistent process for resolving a student concern about an academic decision that has affected their academic progress, including a mark or grade. Further information is available at: <https://policies.uow.edu.au/document/view-current.php?id=40>

### **Student Academic Consideration Policy**

The purpose of the Student Academic Consideration Policy is to enable student requests for academic consideration for assessable components of a subject to be evaluated in a fair, reasonable, timely and consistent manner throughout the University. **For information on the Policy, eligibility and how to apply see:** <https://www.uow.edu.au/student/admin/academic-consideration/>

### **The Student Charter - Your Rights and Responsibilities**

The Student Charter is based on principles that guide all members of the University and that promote responsible partnerships within and beyond the University community. <https://www.uow.edu.au/student/charter/>

### **Student Assignment of Intellectual Property (IP) Policy**

This policy applies to all Students (under-graduate and post-graduate) of the University of Wollongong (UOW). It may also apply to other persons by agreement. This policy sets out the approach taken by UOW in relation to Student assignment of intellectual property. Further information about this policy can be found here: <https://policies.uow.edu.au/document/view-current.php?id=146>

## **Student Conduct Rules**

These Rules outline the required conduct of students of UOW, and direct staff and students to University Rules, standards, codes, policies, guidelines, procedures and other requirements which specify acceptable and unacceptable student conduct, and the management of alleged student misconduct.

<https://policies.uow.edu.au/document/view-current.php?id=6>

## **Teaching and Assessment: Assessment and Feedback Policy**

The purpose of this Policy is to set out the University of Wollongong's approach to effective learning, teaching and assessment, including the principles and minimum standards underlying teaching and assessment practice.

The Policy can be found at: <https://policies.uow.edu.au/document/view-current.php?id=38>

## **Teaching and Assessment: Code of Practice - Teaching**

This Code is a key document in implementing the University's Teaching and Assessment Policy and sets out the specific responsibilities of parties affected in relation to learning, teaching and assessment, as well as procedures for teaching staff. The Code can be found at: <https://policies.uow.edu.au/document/view-current.php?id=9>

## **Teaching and Assessment: Subject Delivery Policy**

This Policy sets out specific requirements in relation to the delivery of Subjects. The policy can be found at:

<https://policies.uow.edu.au/document/view-current.php?id=39>

## **Workplace Health & Safety Policy**

The Workplace Health and Safety (WHS) unit at UOW aims to provide structures, system and support to ensure the health, safety and welfare of all at the campus. Further information is available from:

<https://policies.uow.edu.au/document/view-current.php?id=177>
