

SMP_Central

Student Status Colour Legend

Depending on a student's enrolment status, the row information may be highlighted in a different colour from the background:

Status Legend	Pending	Withdrawn	Removed	Invalid Entry	Standard Entry
----------------------	---------	-----------	---------	---------------	----------------

Pending

indicates that the student has been added to the class roll via SMP_Central. Students added as pending to the class roll will not be officially enrolled in the subject until they have been enrolled via the normal Administration process. Pending students appear on the class roll for subject administration and for entering task marks until their enrolment is formalised. **A pending student's marks can be imported from LMS to SMP.**

Withdrawn

relates to student enrolment status and can only be changed through the Student Administration enrolment system/SOLS.

Removed

ARD may change the status of a subject to Removed due to non-payment of fees or when the student was provisionally enrolled in the subject. Students who have their status changed to Removed may re-enrol in the subject when fees/pre-req issues are sorted out.

Invalid Entry

used to indicate a non-valid mark.

This may indicate:

- No mark entered in Moodle;
- A mismatch in marks (marks out of) from LMS/SMP or SMP/LMS.
e.g. a marked out of grade set to 10 in SMP, but a maximum grade in Moodle set to 15 with a mark of 11 selected for import.
- A student's record is not found in Moodle.

A mark highlighted with this background colour cannot be imported. An error message will appear on the screen to bring this to your attention.

Standard Entry

Indicates the student is officially enrolled in the class and any mark entry is valid.
