Subject : Thank you – Post Course KONEKSI Australia Awards Indonesia

Jakarta, 13 November 2024

A/Prof. Le Chung Tran
Wollongong University
Australia

I would like to express our heartfelt appreciation for the invaluable support and collaboration provided by your research team during the visit of the KONEKSI – Australia Awards Indonesia Short Course participants.

We are especially grateful for the opportunity provided to our delegation, which included Indonesian and Australian government representatives as well as professionals in the fields of policy and innovation. The insights shared by your team on your research titled, “Tide Eye – AI/IoT-powered Airborne System for Monitoring Water Level and Tidal Floods in North Coast of Central Java”, greatly enhanced our understanding of advanced technological applications in addressing environmental challenges.

The collaborative discussions were immensely beneficial, providing practical perspectives that resonate with KONEKSI’s mission of knowledge partnerships, inclusivity, and impactful research. The visit to the Pemali-Juana River Basin Office attracted media attention and was covered by over 40 media outlets. Special thanks to Dr Miftadi Sudjai, Dr. Asep Suhendi, and Dr Moh Afif Rizal who passionately and patiently showcased the research to the participants and the journalists.

Once again, thank you for your continued support and partnership in the KONEKSI Program. We look forward to further strengthening our collaboration with the University of Wollongong and Telkom University, paving the way for future joint endeavours that benefit both countries.

Yours sincerely,

Jana C. Hertz
Team Leader - KONEKSI
