Humboldt Colloquium

**"Looking to the Future:
International Research in a Changing World"**

Sydney, Australia, 17 - 19 October 2013

Dear Dr. Tran,

Your research project was among those selected to be presented in Section 5: Theoretical Sciences at the colloquium and we kindly ask you to give a brief presentation about *Massive Multiple-Input Multiple-Output Systems for 60 GHz-Band Communications* during this session on 18 October and to present a poster during the poster session on Friday afternoon. Poster presentations will be numbered in the final version of the conference programme, allowing poster presenters to find their spot for display.

Please consider the following guidelines for your poster:

- The design of your poster is entirely up to you.
- You will have a space allocated of 90 cm width x 130 cm height. The posters should fit to the maximum size of DIN A0 portrait (84,1 cm x 118,9 cm).
- Please bring your printed poster to the meeting.
- The postersession will take place in the conference hotel.
- Poster boards and pins will be available.

Please find attached some background information.

We are looking forward to your presentation.

Sincerely

Dr. Enno Aufderheide
Secretary General of the Alexander von Humboldt Foundation
